### Architects Notes.

William A. Fink, Reading, Pa., has drawn the plans for a handsome dwelling to be erected by William Hendel at a cost of \$11,000. It will be handsomely finished, and will contain all modern improvements.

Quite a large number of Philadelphia architects are engaged at present upon competition plans for the new Masonic Temple to be erected at Fourth and Market streets, Camden, N. J. The structure will cost about \$100,000.

Charles Balderston, architect, 320 Walnut street, Philadelphia, has on boards plans for a fine house to be erected in Southern California for a residence. It is to be colonial in style and fitted with all modern conveniences.

Yarnall & Goforth, architects, 14 South Broad street, have made plans for a railroad station to be erected at Goshen, Va., to be brick and frame, tin roof, hot air heat, and fitted with good modern conveniences. The plans are on boards for estimates.

H. A. Roby, architect, Lebanon, Pa., has made plans for a water tower 72 feet high, and engine and boiler house for the Convent of the Sacred Heart, at Torresdale, Pa. These will be erected at once in conjunction with the chapel building, and utilized to supply the convent with water.

M. F. Giesey, of Wheeling, West Virginia, has prepared plans for a hotel which will be erected by the Odd Fellows' Hall Association. The plans call for a handsome brick structure containing about seventy rooms, all finely finished. It will contain all modern improvements and conveniences, and the estimated cost is \$25,000.

Angus L. Wade, architect, 20 South Broad street, Philadelphia, has made plans for alterations to house 1618 North Fifteenth street, for Mr. E. H. McFarlane, of the Denman Thompson "Old Homestead" Company; to consist of interior work mainly electric work and all modern conveniences.

Furness, Evans & Co., architects, 209 South Third street, Philadelphia, have completed drawings for a fine residence for H. Allen, Esq., to be erected 1524 North Seventh street, to be three-stories, brick and stone, and fitted with electric work and best of sanitary plumbing, as well as all modern conveniences.

Wilson Eyre, Jr., architect, 927 Chestnut street, Philadelphia, has prepared plans for an immense club building for the Detroit Club, at Detroit, Michigan, which will cost about \$100,000. It will be fitted with all modern conveniences and comforts, gymnasium, swimming pools, billiard rooms, reading parlors, lounging apartments, etc.

Joseph D. Austin, architect, Philadelphia, has made plans for a public school to be located at

Seventh and Dickinson streets. The structure will be Hummelstown red stone, three stories high, roofing of tin, to have electric bells, artificial stone pavement, fire escapes, sanitary plumbing and all modern conveniences. Plans are on boards for estimates.

Robert K. Marple, architect, 1237 South Fifteenth street, Philadelphia, has made plans for a large two-story stable for *The Evening Item* to be erected on north side of Carpenter, west of Fourth street, extending through to Marriott street. The drawings call for two towers upon the front with Spanish tile roofs, the main roof to be tin. Considerable cement flooring will be included in the work, best of plumbing and all modern conveniences. Estimates are being made on the work by several general contractors.

Frank R. Watson, architect, 518 Walnut street, Philadelphia, has made complete drawings for rebuilding of the store 1332 Chestnut street, as part of what is known as the Brown estate and of which R. E. Brown is manager. The drawings contemplate a handsome front of stone and iron six stories high, and the interior to be fitted with elevators, freight lift, electric work, speaking tubes, steam heat and all modern conveniences. Estimates are to be received and contract awarded at once.

The same architect has awarded the contract to erect the structure for the First Presbyterian Congregation, in Germantown, to Thomas Wright & Son, No. 7 Harvey street, Germantown. Mr. Watson having drawn these plans, will also supervise the work of construction. A description of the drawings appeared in this journal recently.

Thomas P. Lonsdale, architect, Manhattan Life Building, Fourth and Walnut Streets, Philadelphia, has made plans for some minor alteration to interior of Grace Baptist Temple, Broad and Berks streets. These will consist mainly in change of the corners of galleries and addition of room to the main auditorium; also preparation of the basement for Sabbath-school purposes. Estimates are being received on the work. The same architect has completed plan for a frame residence to be erected at New Grenada, Venezuela; also in course of preparation plans for a five-story office building at Joplin, Mo.; first story to be of stone, remainder of brick with stone trimmings. The structure will be provided with an artesian well, an individual electric plant, steam heat and power, also elevator, and best of sanitary plumbing will be introduced, in fact every thing in way of a first-class office building. Owner is Z. Wallower. Contracts not let as plans are not complete in detail.

Culver & Hudson, architects, 234 West Fourth street, Williamsport, Pa., have just completed drawings for a residence for C. A. Chapin, Milton, Pa., to be built of brick, and stone trimmings. Interior will be finished in hard woods and hand-

somely decorated, hot water heat, best plumbing, plain and leaded glass windows, and all modern conveniences. Estimates are also being received for a stable and carriage house for C. LaRue Munson, Williamsport, Pa., containing one single and four box stalls, harness and man's room, carriage lift, granolithic floors, electric light &c.

The same architects have also under way designs for a handsome residence for H. C. Bubb, Williamsport, Pa., to be built of brick and Portage red stone. Estimated cost about \$10,000. Also a store and warehouse for A. Crounse, Williamsport, to be 50 x 100 feet, four-stories high, ornamental stone and brick front, combining freight and passenger electric power elevators, best plumbing and gas fitting, steam heat from city plant.

A. Druiding, architect, Metropolitan Block, Room 27, LaSalle and Randolph streets, Chicago, Ill., has prepared plans for erection of St. George Catholic Church, to be built at Fiftieth street and Wentworth avenue. Church to be built of brick, with stone trimmings. To be 146 ft deep and 71 ft wide, two towers; one, 160 ft., the other 110 ft high. It will have slate roof and will be heated with hot water. The church to be built in the early Gothic style, and to have 800 seating capacity. Also plans for pastoral residence, to be two-story brick, with stone basement. The building to be slated, and heated with hot water, and all modern improvements will be introduced. Cost \$9000. Also plans for Roman Catholic school house in Naperville, Ill., two-story basement building, 84 ft x 60 ft.; all built of Naperville stone. The building will be erected with all modern improvements, with best system of heating and ventilation. Building to contain four large school rooms in first story and hall and ante-room in second story. The basement to contain playrooms and the heating and ventilating apparatus. Also plans for St. Xavier Church, in La Grange, Ill.; the same to be of frame, with the exception of a stone basement. The basement to contain three school rooms, and the church to have a seating capacity of 3000. The building to be 48 ft x 93 ft 6 in., and tower to be 94 ft 8 in high.

The same architect has made drawings for St. Stanislaus Church, near Douglas Park; same to be built of brick, with stone for basement; first story to contain church auditorium with 400 seating capacity, and in second to have two large schoolrooms. The pastor's residence will be 58 ft x 76 ft 6 in in dimensions. Also plans for a pastoral residence for St. Teresa's congregation: same to be 29 ft x 70 ft, consisting of basement and 2-story with a stone front. The building to contain all modern improvements, and will be commenced at an early date, to be ready for occupancy about Nov. 1st, 1891. Also plans for St. Peter and Paul's Church at Ellinwood, Kansas; the structure to be 46 ft x 36 ft, with a tower 120 ft high, so that the other enlarged tower will have the proper height. Church will be built of local brick with a stone framework.

PHILADELPHIA, WED'Y. JULY 29, 1891.

*For the convenience of members of the Master Builders' Exchange, we have secured Box No. 199 at that place, where any communication for publication may be left.*

CAN any one give a good and sufficient reason why small streets and alleys should be paved with heavy Belgian blocks or cobble stones? A walk through various parts of the city reveals the fact that considerable of this work is being done the present season. The excuse has always been, when any complaint is made of such paving, that asphalt and other well-known smooth and noiseless materials will not bear heavy traffic; but as little, and in some cases no traffic is done on these streets, such an excuse has absolutely no cause for being, and will not hold good. If these places were paved with good, smooth material, the question of street cleaning would be at least half solved, and the general health and cleanliness of the city greatly improved. There is evidently too much influence brought to bear on the question of the selection of material, to the detriment of the city's best interests, and too little common sense used to the great disadvantage of those whose comfort and welfare should be the first consideration.

WE are in receipt of a very valuable little Manual of Councils, through the kindness of Wm. H. Felton, clerk of Committees on Highways and Surveys. It is a well and handsomely bound volume and full of valuable information and data.

THE recent report of Postmaster Field gives some interesting facts in regard to dwelling houses in Philadelphia, and also a comparison with a few other large cities. In the number of dwellings Philadelphia easily keeps the lead which she has long enjoyed, showing 235,000 dwelling houses as against 119,328 in New York City; 128,000 in Chicago, and 52,599 in Boston. The area covered by the letter carriers is  $91\frac{1}{2}$  square miles, against 41 in New York City; 60 in Chicago, and 33 in Boston. From these figures it is evident that Philadelphia justly deserves her title of the "City of Homes."

**Building and Real Estate Notes.**

A number of improvements will be made to the National Theatre. New carpets will be put down.

The residence 1512 Walnut street belonging to the estate of Mrs. Maria E. Swann, has been purchased by Samuel H. Austin, Jr., for \$55,000.

The congregation of Unity Presbyterian Church, at Budd and Thirteenth streets, Philadelphia, has decided by vote to purchase an organ.

Owen McKenna will erect a two-story stable, 30 x 80 feet, at Twenty-second and Cambria streets, to be of brick, and stone trimmings, with modern conveniences.

The establishment of Burr Brothers, at 115 South Water street, which was destroyed by fire on Saturday afternoon, will be rebuilt as soon as the insurance is adjusted.

Charles Felin, 4200 Germantown avenue, will build ten two-story houses on Brunner, east of Clarion street, to be brick with stone facings, and modern conveniences.

Work on the plans for the superstructure of the Walnut street bridge is being pushed rapidly forward in the Bureau of Surveys, and proposals will be advertised for at an early date.

John O'Donnel, contractor, will at once begin the erection of a fine house on east side of Broad, north of Federal street. It will be three-stories high, of brick and stone, with all improvements.

The contract for the erection of A. Campbell's Manufacturing Company's new building has been let to John W. Fritzinger, of Manayunk, for \$22,000, instead of John H. Fritzinger as reported last week.

Four of the partly finished dwellings in the centre of the block on Fortieth street, between Aspen street and Fairmount avenue, were damaged by fire last Sunday morning. Loss about \$2000.

Samuel Loughrey is to begin at once the erection of a very large stable at 34-36 Harvey street, two-stories high, of brick and stone, and will be in dimensions 96 x 60 feet one way, and 66 x 70 feet another.

Samuel W. Levis, 731 Walnut street, will at once erect eleven houses on Ludlow street, east of Forty-fourth street, to be brick, stone trimmings, and interior to have good modern conveniences.

The congregation of Mt. Zion Church on Rittenhouse street, Germantown, Philadelphia, is making preparation for the erection of a new church on a lot recently purchased. Rev. Morton Winston is the pastor.

Jacob R. Jordan, builder, 1626 South Broad street, will at once begin an operation of ten houses three-stories high on Lancaster avenue east of Thirty-fourth street, all to be of press brick, stone facings and modern improvements in interior.

Dr. Thomas Hunter, owner, 1305 South Fifteenth street, is about to erect ten two-story houses on west side of Bonsall street, south of Federal. They will be 15 x 40 feet in size; of

press brick with stone trimmings and all modern improvements.

At Manayunk improvements will be made to the Schuylkill school building on Washington street, by the addition of a new story. The adjoining properties on Jefferson street will also be purchased, upon which an annex will be erected in the near future.

John Duncan, contractor, 905 Chestnut street, will at once begin enlarging the four-story factory at Fifth and Minor streets. An additional story will be placed on the structure, and all the stories altered in some way or other, making it very complete in accommodation.

The local School Board of Germantown, Philadelphia, is completing arrangements for the erection of the new public school house at Woodbine avenue and Sprague streets. The new building will contain ten rooms, and will be finished with all modern improvements.

William C. Merritt, builder, Fortieth and Poplar streets, intends to begin the erection at once of thirteen two-story houses on north side of Poplar west of Fortieth street, each to be 15 x 52 feet, of press brick, stone facings, and in keeping with others in the vicinity as to general detail.

John M. Anderson is about to begin the erection of a large fringe factory at Twenty-eighth and Parrish streets. The structure will be 51 x 162 feet and four-stories high, and will be mainly built of brick with stone trimmings, fitted with steam heat and power, and all modern conveniences.

Simpson & Co., carpenters, will at once begin an operation of ten two-story houses on West side of Sixteenth street, North of Kaighns Avenue. These are designed by Mr. Simpson, with special features in the rooms as well as the accommodations, having electric work and finest of modern improvements.

A hotel and apartment house will at once be erected by C. F. Wells & Son, carpenters, 518 Buckley street, upon the southwest corner of Eleventh and Spruce streets, to be five stories high  $23\frac{1}{2}$  x 200 feet in dimensions, and fitted with elevator, electric work, freight lift, best of sanitary plumbing and all modern conveniences.

The Workingmen's Club, of West Cheltenham avenue, Germantown, Phila., has appointed a committee to attend to some improvement to the club house. This will include a large porch on the east side of the house; also a new stairway to second story, and other minor improvements. John J. Kemry is the resident superintendent.

Work upon the "Hotel Metropole" will be commenced in the month of September, after completion of the theatre adjoining. The operation will be supervised by Angus S. Wade, the architect, who prepared the plans for both the Empire Theatre and the hotel. A full description appeared in this journal in a previous number.

John R. Wiggins, contractor, 1536 Seybert street, has been awarded the general contract to erect an additional story to the Builders Exchange, on Seventh street below Market, and which has been fully described in our Architectural Notes of a

previous number. Wilson Bros., architects, Drexel Building, drew the plans. The contract price is \$10,836.

Will H. Decker, architect, 1407½ Chestnut street, Philadelphia, has drawn plans for remodeling old "Concert Hall," Chestnut street above Twelfth, now under the lease of General Geo. G. Meade Post, No. 1, G. A. R., and recently rented to Prof. H. Kellar, magician, by that organization. The entire hall will be renovated, new stage, electric work, frescoing, and new chairs in the auditorium. The contract has been given for carpenter work to Robert J. Young, carpenter, 20 Hudson street.

The contract for the erection of the handsome new temple for the Keneseth Israel congregation has been let to William W. Rea & Son, 1815 Francis street, Philadelphia. This contract does not include the contract for the steam heating, electric lighting and many other details. The plans were prepared and the work will progress under the supervision of the architects who prepared the plans, L. C. Hickman & O. Frotcher, Rooms 702 and 703 Penn Mutual Building, Chestnut street, Philadelphia.

Chas. McCaul, contractor, 20 North Eleventh street, Philadelphia, has begun operations on the train shed and market house foundation at Twelfth and Arch streets, and when completed the superstructure will be pushed forward, as the Market must be completed previous to beginning the main depot at Twelfth and Market streets. The same contractor is about to alter materially the store 1104 Chestnut street, and rebuild the building destroyed by fire at the southeast corner of Market and Thirty-fourth streets.

Moore will erect a frame dwelling to cost \$3000. W. F. Friedline, builder.

### Through New Jersey.

At Phillipsburg, Warren county, John Pickett will erect a dwelling at the corner of Bennett and Fillmore streets.

At Highland City, Monmouth county, William L. Cummings has received a contract to erect a handsome cottage at Green Creek.

At Bridgeboro, Burlington Co., a new iron draw bridge will be constructed over Rancocas creek, in accordance with government regulations.

At Trenton, fire destroyed last week the submarine cable department of John A. Roebling's Sons' wire works. The loss is estimated at \$50,000, and is partly insured.

Harry C. Norton, of Philadelphia, Sanford C. Livermore, of Camden, and others have incorporated The American Steam Packing Company, for the manufacture of metallic steam packing. Capital \$200,000.

At Jersey City, at the final meeting of the Commissioners of the New York and New Jersey Bridge Co., held at Taylor's Hotel, the Committee reported all the stock as taken, and the bridge is now an assured fact.

While workmen were at work on the iron piers of Townsend's Inlet bridge, July 23, the trestling gave way and one span of the bridge fell and was entirely ruined. It is probable that the construction of the bridge will be delayed for some time.

William Voight, the florist, at Fifth and Cooper streets, Camden, will remove from his present place in September, as the site now used by him will be wanted for the proposed new Centenary M. E. Church. Mr. Voight has secured a location on Fourth street near Cooper, where he will erect a handsome modern hot-house.

At Atlantic City the Government has awarded the contract for constructing two jetties. They will be 200 and 300 feet respectively. Captain Thomas E. French is president of the newly-organized company to be known as the Dock and Land Improvement Company. 228 building lots on the east side of the Gardner Canal, above Baltic avenue, will be improved.

At Passaic, Passaic Co., plans by ex-Mayor John A. Willett have been accepted by the Postmaster General for the construction a three-story brick and iron building to be fitted up as a post office. The cost will be \$20,000. The congregation of the Passaic Avenue Baptist Church has accepted plans for a new church edifice to cost \$20,000. It will be of brick and stone.

A large tract of ground is said to have been purchased about ten miles from Millville, Cumberland Co., and containing about four thousand acres. The name of the town to be started will be Baron de Hirsch, and the settlement will be made of Jews, each to be provided with a few acres of ground on easy payment at the rate of \$20 per acre. It is said a hat factory will be established at an early date. A number of dwellings have been erected on the tract and more are to follow. Benjamin F. Lee, clerk of the Supreme Court of New Jersey at Trenton, can give information.

At Princeton, plans have been prepared by Frederick Law Olmstead, the landscape gardener, for transforming the present college grounds and the Potter farm, now owned by the College, into an immense park. A number of driveways and promenades will be laid out and various improvements made. The new athletic grounds known as Brokaw athletic field, will also be improved by the erection of stands and other improvements, including a handsome gateway with a memorial tablet to Fred. Brokaw, who was drowned at Long Branch early in the season. It is also said that an artificial lake will be constructed.

At Camden, the frame building belonging to the dye works of W. Wharton Fisher, at Seventeenth and Stevens streets, was destroyed by fire on the 20th inst. The loss is about \$10,000. The office of the works is at 130 Arch street, Philadelphia. The tax rate for the ensuing year will be \$2.50 per \$100 on a sixty per cent. valuation. The survey has been finished for the proposed new railroad from Mannahawkin to connect with the Camden and Atlantic near the Chesilhurst depot. It is proposed to reach the Camden and Atlantic at Waterford. It is proposed by the Pennsylvania Railroad Company to connect its road from Mannahawkin to Tuckerton and Beach Haven with one of its main lines.

### Through Maryland.

At Frederick, Frederick Co., City Council has been authorized to secure proposals for the proposed addition to the Water Works. The Superintendent of the Water Works can give additional information.

At Baltimore, the contract for the erection of the "Daily Record" building has been awarded to John Hiltz, and work commenced at once on the lot purchased by the "Daily Record" Building Company, southwest corner of St. Paul and Fayette streets. The structure will be a handsome and modern seven-story office building. A. V. Milholland, Jr., of Aiken & Company, can give information as to the proposed purchase of a block of land in South Baltimore, and the erection of a large manufacturing plant thereon. The most important permits issued to date are as follows: To F. J. Morton, to erect one three-story brick dwelling. To August Albert, to erect four two-story brick dwellings. To Dr. W. A. Moale, to erect twenty-five two-story, and four three-story brick dwellings. William O. Melson and others have been incorporated as the Baltimore Clothing Manufacturing Company. Work is progressing favorably at the new town of Dorsey, on the B. & O. Railroad, ten miles from Baltimore, and owned by the Southern Land Company, of which Judge George B. McLane, of Roanoke, Va., is the President, and Hon. John A. M. Passmore, of Philadelphia, Vice President; Daniel C. Cawley, of Pittsburgh, Treasurer, and John C. Jackson, of Baltimore, Secretary. The company owns 572 acres, which will be sub-

divided into about 5000 building lots. Seventy-two acres have been set aside for manufacturing purposes. A number of lots have been sold for resident and other purposes. The capital stock of the company is \$200,000.

### Through Delaware.

At Wilmington the old United States Hotel at Water and French streets, has been purchased by the Wilmington and Northern Railroad Company for 30,000, and will be remodeled to be used for a passenger and freight station, and offices for the company.

At Wilmington, Messrs. J. & J. N. Harman have demolished the dwelling in the rear of their present store and will erect a large addition four stories high 100 feet long and of the same width as their present store. The new building will be of press brick. The old building will also be remodeled and a passenger elevator put in to be operated by an electric motor. The building will also be heated by steam.

The Board of Trustees of the proposed College for the colored race has not as yet selected a site, none of those offered being considered suitable. A number of other farms will be visited with a view of obtaining the needed location. Messrs. Conrad, Ridgely and Ross constitute the committee. Dr. G. W. Marshall was authorized to purchase the following equipment: Chemical department apparatus, \$326.64; chemicals, \$180.43; minerals, \$100; engineering department, \$381; physical department, \$667.62; botanical department, \$212.90; workshop, including dynamos, etc., \$3000. The board holds its meetings at Dover.

### Reading Notes.

—The congregation of the Baptist congregation will erect a new church edifice to cost about \$25,000. The plans have not as yet been prepared and no architect selected.

—At Reading, Berks Co., James Matz has been given the contract by F. K. Flood, Esq., to erect seven two-story dwellings of eight rooms each. The Jefferson Building Association will erect twenty two-story brick dwellings. L. Kremp, 144 North Ninth street, Reading, can give information.

### Doylestown Notes.

—The Recorder's office will be enlarged and a number of improvements made. John L. DuBois can give information.

—At Doylestown, Bucks Co., a factory for the manufacture of wheels is contemplated. John Yardley and George MacReynolds can give information.

### Pottstown Notes.

—M. L. Christian has drawn plans for a hotel and store building to be erected by E. Shules.

—A large warehouse will be erected for Jacob Fegely, president of the National Iron Bank. J. W. B. Fry, of Philadelphia, is the architect.

—At Pottstown, Montgomery Co., a site has been selected for the proposed hospital. \$40,000 is now available, and it is thought ground will be broken in a short time.

—The School Committee has been authorized to make contract for furniture for the High School building, and for two third-grade schools including recitation seats. The pavement and gutters in front of the Grant building will be laid.

—At Pottstown, Montgomery Co., Samuel D. Eagle has purchased a lot on Beech street 30 x 100 feet, upon which he will erect a brick residence to be handsomely finished on the interior, and to contain all modern improvements. The contract for the improvements to the Shuler House property has been awarded to Mathias Geist. A new front will be put in and an addition erected which will contain a large room for store purposes.

The firm of Campbell & Elliott, whose large woolen mills at Twelfth street and Washington avenue were destroyed by fire on last Friday night, have made arrangements for the conduct of business until the works can be rebuilt. A gang of men began work Monday morning in removing the debris and tearing down the old walls, preparatory to rebuilding. The valuable machinery was totally destroyed and must be replaced. The loss is estimated at nearly half a million dollars. The plant comprised five large brick buildings, all of which were destroyed.

**Architects Notes.**

J. C. Worthington, architect, 1305 Arch street, has made plans for rebuilding No. 3309 Hamilton street. It will be of Pompeian brick, stained shingle roof, interior hard wood finish and all modern conveniences. The contract has been given Frank Vodges, Lancaster avenue and Thirty-ninth street.

A. J. Boyden, architect, 413 Walnut street, Philadelphia, has made plans for alterations of house No. 1904 Green street, owned by Mr. Arthur Colburn, also drawings for stable to be erected at Bradford Hills, P. R. R. Also plans for a stone and frame house at Oak Lane Station, N. P. R. R., and plans for a frame stable at Paul Brook station, on the Bound Brook Railroad.

F. Miles Day, Architect, Penn Mutual Building 927 Chestnut street, Philadelphia, has made plans for a new building for the Camden Safe Deposit Company of Camden, N. J., and the structure will be erected by John C. Rodgers also of that city. The structure will be of stone, brick and iron, fitted with all the modern furnishing of bank institutions, vaults, safe, electric work, etc.

J. D. Austin, architect, and Supervisor Board of Education, has completed plans for a school-house at Palmer and Thompson streets, and awarded contract to William R. Dougherty, 1604 Sansom street. It is a three-story structure, stone and brick, slate and tin roof, electric bells, best of heat and ventilation, good sanitary plumbing, fire escapes and all modern improvements. Work will be started at once.

Architects Heins & La Farge, Temple Court, New York, have had their plans accepted for the new Cathedral of St. John the Divine, to be erected at 110th street and Eighth avenue, New

York City. It is claimed that the plans will involve an expenditure of over \$5,000,000, and that the building when finished will be the finest on this continent. The design is Romanesque, with Gothic ornamentations.

Moses & King, architects, 431 Walnut street, Philadelphia, have made plans for erection of a Camden City Dispensary, at Camden, N. J., located at Seventh and Federal streets, and awarded contract to James F. Davis; also completed plans for alteration of a house at Moorestown, N. J., for Messrs. Matlack & Harrington. After plans prepared some time since by them, the building of the Y. M. C. A., Mount Holly, N. J., will now be erected. The owner is Mr. J. H. Gaskill. Contracts are not awarded.

Wilson Bros., architects and engineers, Drexel Building, Philadelphia, have prepared plans for erection of a fine residence for George W. Childs Drexel, son of A. J. Drexel, banker. The structure will be erected at Thirty-ninth and Locust streets, and be 52 x 52 feet, three-stories high, of brick and brownstone; interior to be finished in hard woods of various kinds, best of heating, ventilating and plumbing will be introduced. Contract to build has been given to George Watson & Sons, contractors, 907 Marshall street, Philadelphia.

M. Fielding, architect, 110 South Fourth street, Philadelphia, has prepared plans for alteration to house of Mr. James Dodge, Germantown. Also plans for alteration and addition to house of Howard W. Middleton, at Walnut Lane Germantown. Work under supervision of Mr. Fielding has commenced on the Presbyterian Church, Germantown, the contract having been awarded to Thomas W. Wright & Son, No. 7 Harvey street. The structure will be of local stone with Indiana limestone trimmings, dimensions 65 x 70

feet, and one story and a basement, in which will be placed two Novelty Heaters, No 36. Interior to be in hard wood with an open timber roof. Mr. Fielding has opened offices at Roanoke, Va., where all communications concerning his Southern and Western work may be addressed, and where he will execute plans for other work in distant parts.

Theophilus P. Chandler, Jr., architect, Brown buildings, Fourth and Chestnut streets, has completed drawings for a fine residence for Mr. Sternberg, at Reading, Pa., to be three-stories high, of stone, slate roof, fitted with electric work, best of sanitary plumbing and gas fittings, hard wood finish throughout, and will contain all modern conveniences. Estimates are being received for the work. Under the supervision of Mr. Chandler, work upon the residence for Mr. Jos. D. Potts is progressing favorably. Mr. Chandler will take a vacation in Europe, sailing in the steamship "City of New York," on August 5th.

Henry D. Dagit, architect, 132 South Second street, Philadelphia, has completed in detail all the plans for "The Colonial," an apartment hotel noted in our last issue under head of "Building Notes," to be erected at southwest corner of Eleventh and Spruce streets. The structure will be five-stories high, ornamented by coppered bay windows, and an iron fence upon the walls surrounding the roof garden, an elevator, electric work, best of sanitary plumbing and gas fitting, steam heat, fire escapes and other improvements will be introduced. Two entrances, one on Eleventh street, and another on Spruce street, will lead to large and airy halls. There will be fifty-two rooms in all, and thirty-seven apartments. Mailing shutes will be placed upon each floor. Mr. Dagit will supervise the work.

*For the convenience of members of the Master Builders' Exchange, we have secured Box No. 199 at that place, where any communication for publication may be left.*

THE long-mooted question of what percentage of American farms and homes is covered by mortgage is now likely to be soon settled to the great satisfaction of those who have given the subject much thought and consideration. It is now intimated that as a result of the last census it will be shown that out of the 12,500,000 families existing in the United States, 2,250,000 of the number, or twenty per cent., occupy and own farms and homes covered by mortgage indebtedness, the remainder or 10,250,000 families occupying houses and farms which are free from mortgage and are either hired or owned by the occupants. At the present stage of the analysis it is impossible to give the exact proportions of each. Iowa, it seems, carries a mortgage on each of her farms amounting to \$1283, while each of her homes bears a mortgage indebtedness of \$719, the average being \$1140. Taking this average as a basis, it is held that the farms and homes occupied by their owners in the United States are covered by mortgage indebtedness amounting to \$2,265,000,000.

THE fire record of Philadelphia for the present year up to date is somewhat startling and furnishes food for thought to fire insurance companies and property owners. The losses for the first six months of 1891, it is claimed, are equal to the whole loss of 1890, and a peculiar feature is the fact that there has been a noticeable increase of large and unusually destructive fires, there having been according to the report, five fires during the present year in which the losses exceeded \$100,000 each and reaching as high as \$500,000. These facts speak volumes in favor of the use of slow burning, fire-preventive and non-destructible materials in the construction of buildings. In nothing else under the sun is such short-sighted policy displayed as in the construction of a great majority of buildings for manufacturing and other purposes, where the risk by fire is necessarily great and the destruction attended by heavy losses. In view of the figures furnished by this report, it is certainly

surprising that these buildings, in which expensive machinery and material for manufacturing purposes are placed, should continue to be constructed of material that offers little or no resistance to the flames. Of late years a number of slow-burning fire-proof materials have become favorably known through their well-established merits under the severest tests, and it is conclusively settled that large buildings can be erected wherein the risk of destruction by fire can be reduced to a minimum.

THE death of William Gray, the senior member of the firm of William Gray & Sons, stone cutters, removes an active business man who has for many years been identified with the building interests of this city. As one of the organizers and also Director of the Philadelphia Master Builders' Exchange, he lived to see that organization assume a leading position as the first of its kind in the United States. Mr. Gray's death will be regretted by many business friends, as his sterling integrity and strict business principles commanded for him the respect and confidence of the entire community.

### Architects Notes.

(Continued from page 1.)

Frank R. Watson, architect, 518 Walnut street, Philadelphia, has completed all the detailed plans for the new store mentioned in a previous edition of this journal, at 1332 Chestnut street. The first and second stories are to be cut Indiana limestone, excepting plinths and pilasters, which will be of Eastern granite, fine hammer dressed, all work above second story to be of terra cotta; iron beams are to be used. Elevators, electric work, and all modern conveniences will be introduced; considerable wrought iron grille work around elevator and windows. Best of patent pavement to be laid, being either Krause's, Warren Elret's or Filbert's system. The contracts excluded from the general contract for construction are as follows: Office fixtures, chandeliers and electroliers, the electric wiring, the boiler and steam-heating, and the elevators and machinery for the same. Information concerning the latter can be had of the architect. Estimates are being made on the plans by a number of contractors.

J. C. Worthington, architect, 1305 Arch street, Philadelphia, has made plans for a large operation in the neighborhood of Forty-first street and Elm avenue. These contemplate the erection of a large block of four-story houses of very ornamental construction. In both general character and style, as well as material, the fronts on Elm avenue will be very much varied. The variety of stones, as at present laid out for use, consist of Indiana limestone, Michigan red stone, white marble and Buff Ohio stone (distinct from the Indiana stone). These masses of color will be grouped in such a manner as to secure the best results in harmony and to avoid any "spotty" or restless appearance. The materials used for covering the roof will be varied in the same way. The wood work appearing in the front will be of hard wood of different varieties and in the front doors will be elaborately treated, while fine hardware and varied glass work will be prominent in each building. The Apart-

ment house on the corner of Forty-first street will be of Indiana limestone throughout, with a roof of red Akron tile. The entrance to the house will be through an entrance porch in stone, with clustered columns, carved and other ornamental work. Rising on each side of the entrance porch will be two bay windows which extend the entire height of the building, and from the central feature of the facade on Elm avenue, giving the suites of rooms in which they occur a beautiful view of the Park Concourse in its full extent. Another bay on Forty-first street side will lend added attractions to the side rooms. On the first floor of the house there will be three suites of rooms, a wide hall, a reception room for visitors or those waiting for the elevator (which will be located as near as possible to the centre of the entire system of rooms), and the entrance to the ample yards in the rear furnishing a playground for children entirely private and safe. On the second and third floors there will be four suites of rooms each, and the top or fourth floor will have one suite of rooms, with a charming view as far as the Schuylkill, and over the undulating ground of the Park. In the fourth floor will also be located a restaurant with attached kitchen, etc. The conveniences and accommodations of the building can be increased in the future when made necessary by the demand of those desiring rooms. The elements of safety will be looked after at all points, and no pains nor thought spared to give the building the best advantages. Adjoining the apartment house will be three private houses of ample dimensions, finished in hard woods and in every respect modern, with double bath rooms, two heaters, electric work, etc., complete, the front of each house being distinct and of different material. At No. 418 is another apartment house, the front of which will be made of Indiana stone, treated in a broad and massive style, with copper work and a corner tower rising over a set back in the front, which, being placed on the angle, will serve as a point of view for the apartments in which it occurs. The interior of the building is at present very completely finished, and such modifications as are made necessary by the introduction of new features will only be made. To the west of this house occurs another apartment building and a number of private dwellings, all to be treated in the same generous way, and forming charming dwellings for people of means who are desirous of locating in this beautiful neighborhood. At the present writing it is impossible to go into the many details which might be interesting, and which the public will recognize as the work progresses.

### Building and Real Estate Notes.

The Commissioners of Fairmount Park have resolved to place a new roof upon Memorial Hall and have advertised for bids for the work.

The contract for the steam heating apparatus for the Court House at Woodbury, N. J., has been awarded to Orlando Kelsey, 510 Arch street, Philadelphia.

E. F. Swope, contractor, 4522 Pine street, has the contract to erect a large oil house and tank tower on northeast corner of Tackawanna and Gillingham streets, and will begin work at once.

Beck & Conley, carpenters, 115 North Seventh street, will erect a chapel at Eleventh street and Snyder avenue, to be one-story high and furnished with church furniture after the construction is finished.

Henry Saunders will at once begin the erection of a four-story factory at 609-11-13 Anna street. The dimensions will be 27 x 80 feet; structure of brick, stone trimmings, and fitted on interior for steam power.

The interior of No. 19 fire house at Germantown, is undergoing repairs and additions, a section is being placed in the rear, which is 12 x 20 feet and one-story high. A new floor and stalls for six horses will be included.

The Custom House in this city is about to receive a new roof in part, of copper in keeping with the remainder, and the contract has been given to Peter Carrigan & Son, metal workers, 114 North Fifth street, who will begin work at once.

J. W. Martin & Son, real estate agents, 2173 Franklin street, have sold to John Weible for Lewis Mast a lot 16 x 90 feet on west side of Ninth, north of Dauphin street, upon which the purchaser intends to build a two-story house at an early day.

Michael McManus, contractor, 313 North Second street, has begun the erection of two school houses, one two-story structure at Woodbine and Sprague streets, the other a one-story building on Howard, south of Girard avenue, both to be of brick, stone facings and steps, and modern conveniences.

C. R. Kohl & Bros., carpenters, 45 West Johnson street, Germantown, have begun the erection of the immense laundry building to be built at Blockley Almshouse after plans prepared by W. B. Powell, architect, 423 Walnut street, who will supervise the work.

John G. Ruff, builder, 619 Cherry street, Philadelphia, is about to begin the erection of fifteen fine three-story houses at Ridge avenue and North College avenue. They are to be 18 x 58 feet, of brick with stone facings and steps, with best of interior accommodations.

Wm. F. Albrecht, contractor and builder, 2341 North Twenty-ninth street, has started an operation of twelve two-story houses on east side of Thirty-second, north of Herman street. These are to be of press brick front, stone facings, and interiors to have all modern conveniences.

John J. Torpey, carpenter, 2402 N. Sixth street, will at once begin the erection of seventeen two-story houses on east side of Helen, south of Somerset street. These will be of press brick with stone facings, and the interior will be fitted with hard wood and best of modern accommodations.

The Philadelphia Granite and Blue Stone Company, now located at Locust street wharf, Schuylkill river, have just bought a piece of ground 244 x 267 feet, bounded by Twenty-fourth, Twenty-fifth, Locust and Spruce streets, and intend at once to erect an immense plant for conducting upon an enlarged scale their business.

The Fourth Presbyterian Church will now go ahead and erect a church on east side of Forty-seventh street, south of Kingsessing avenue, having awarded the contract to James D. Arthur, 219-21 Levant street. The structure is to be 57 x 94 feet, of stone, and furnished with a kitchen, church parlor, reading-room and other accommodations. A previous notice of this structure appeared in this journal.

The large lot at the corner of Thirty-second and Chestnut streets, owned by George W. Childs, is being rapidly cleared preparatory to its conversion into a park for the use of the pupils of the new Drexel Institute. It has been intimated that this ground will be used eventually upon which to erect a building to be used for type setting and such work, there not being room in the present Institute for that class of work.

Arthur H. Williams & Sons, contractors, 402 Tenor Place, have the contract to build the Church of St. Chrysostom, P. E., at Twenty-eighth street and Susquehanna avenue. It will be of brick and stone, 75 x 75 feet, one story. Five stained glass windows will be placed in the sides, slate roof, two heaters of large size will be placed in the basement; electric light will be used, and fine furniture for seating and chancel work, also organ and other church paraphernalia.

Charles McCaul, contractor, 20 N. Eleventh street, has taken a permit for the construction of that part of the Philadelphia and Reading Terminal, at Twelfth and Arch streets, extending to Filbert, and is at present engaged in laying the foundations and sinking artesian wells and hydraulic chambers for elevators, and other preparatory work, as well as getting ready for the great super structure which will in a short time be reared upon this spot. The permit having been granted the work will now be pushed with great vigor.

## MEN WHO BUILD HOUSES

Need to Buy Ranges.

If they themselves occupy them of course the ranges should be good ones. If they intend selling or renting them good ranges in the kitchen will help the Builder or Owner to sell or rent to better advantage. In either case

### Does it Pay

to put in cheap ranges of no particular reputation, when a mere trifle in the way of additional expense would provide the

"Excelsior" or the  
"Fidelity"?

### FIDELITY RANGES.

7 and 8 Inches, Right and Left Hand.

Just the thing for small Houses. No brick-work. Plumbing reduced to a trifle, Hot Water in abundance. The latest and the best of their class.

\$5.00

INVESTED in a yearly subscription to this journal, if carefully read, and you  
are not too lazy to see the man who's going to build, will certainly prove the best invest-  
ment you ever made in your life. Thousands of dollars in profit have been made by  
those who caught on to this idea years ago. Your economy that prompted the sav-  
ing of five dollars per year by refusing to subscribe, has cost you many a cool hundred.  
Get aboard now Brother while the fruit is ripening and the "lucky fellows" are reaching  
out far and wide for trade, while you are sorrowing because it don't come your way.

PHILADELPHIA, WEDNESDAY, AUGUST 12, 1891.

PRICE 15 CENTS.

### Architects Notes.

James T. Steen, Pittsburgh, Pa., has drawn plans for a number of dwellings to be erected at Hazelwood, Pa., by Prof. Sloane, of Princeton, N. J. The estimated cost is \$30,000. The contract for the erection has been given to William Mars.

Architect Edwin F. Bertollette, of 257 South Fourth street, Philadelphia, has prepared plans for a public school building to be erected at Hammonton, Atlantic Co., N. J. In our want columns bids are now asked for the erection of the same.

Charles Balderston, architect, 320 Walnut street, Philadelphia, has made plans for additions and alterations to house of O. K. Reed, 208 North Thirty-third street. These consist of a back building, tin roof, some cement work, electric work and other minor details described in specifications.

Henry D. Dagit, architect, 132 South Second street, Philadelphia, has made drawings for a stable to be attached to the Executive Mansion, at Harrisburg, Pa. It will be two-stories high and fitted with cement floors and all modern improvements. Estimates are being made on the work by several general contractors.

Crawford Coates, architect, 110 South Fourth street, Philadelphia, has on boards plans for a large addition to the Powelton Electric Company's building, located at Forty-fourth street and P. W. & B. R. R. Structure will be of brick, one story high, 75x75 feet, and fitted with all the steam and electric motors necessary. The general management of the plant is under Manager Cowling.

Will H. Free, architect, Juniper and Filbert streets, Philadelphia, has been requested to make new plans for the Runemeyde Club house at Lansdowne, Pa. The work of erecting this structure had been commenced early in this year, but financial reverses upon the part of the contractor and other complications arising caused an entire rearrangement of their plans, and new plans and contracts will be the result.

Henry D. Dagit, architect, 132 South Second street, has made plans for the new store and office building to be erected at 115 North Seventh street, by Jacob J. Seeds. The structure will be four stories and basement, built of brick, iron and stone, freight elevators and electric work on interior. Steam heat and all modern improvements will be introduced. Work will be started at once under supervision of Mr. Dagit.

Willis G. Hale, architect, 1524 Chestnut street, Philadelphia, has placed the plans for the Jewish Foster Home Gymnasium building on boards of contractors for estimates. These plans have been completed for more than one year, and have been noted in full in this journal. The structure will be of stone, four stories high, roof of Spanish tile.

Domes and minarets will ornament the top of building, which will be heated by steam and furnished with electric work and all modern improvements.

Wilson Eyre, architect, 927 Chestnut street, Philadelphia, is engaged on plans for a new club house and museum for the Numismatic Society to be erected at Twenty-first and Pine streets. The directions are for a three-story building of brick, stone facings and trimmings. An assembly room will be upon first floor, a museum on the second, while the other rooms necessary will be divided upon the three floors. A restaurant will be upon the third story. When drawings are complete estimates will be asked for construction.

Isaac H. Hobbs & Son, architects, 520 Walnut street, Philadelphia, have made plans for a two-story office building and art gallery to be erected at 3918 Lancaster avenue, for the West Philadelphia Real Estate Agency, to be buff brick, stone trimmings, two stories, plate glass, electric lighting, hot air heat and all modern conveniences. Contract awarded. Same architects have made drawings for a store building, two stories high, for same parties, to be erected at Thirty-ninth and Lancaster avenue, to be brick, stone facings, 94x40 feet in dimensions, cement pavement, gravel roof, glass skylight and all modern conveniences, etc.

John Fraser & Sons, architects, 413 Walnut street, Philadelphia, have prepared plans for a Presbyterian Church to be erected at Wayne, Pa. Some time ago, they were directed to get details in readiness for bids, which will be done at an early date in connection with other work now on the boards. The same architects will prepare plans for a fine six-story store to be built at 917 Arch street. The structure will be of brick and stone, fitted with steam-heat, electric work, elevators, and all modern improvements. The plans for the latter are not yet in a condition for estimating upon. Enough, however, is developed to indicate a very handsome structure.

Louis Hickman, architect, 925 Chestnut street, Philadelphia, has been engaged to prepare drawings for a residence for Mr. Charles Potts at Merion, on main line of the P. R. R. It will be of stone, with trimmings of same, slate roof, hot air heat, French plate windows, wood mantels, electric bells and light. Large porches and bays will ornament the exterior, and the whole will be a model of beauty and comfort. The grounds will be laid out by the architect, and artificial pavement and broken stone used for bedding the walks. A handsome stable will also be erected, and a lodge-house for gardener, both of which will be finished in keeping with the residence. Plans in course of preparation, and contracts will be awarded at an early day.

### Building and Real Estate Notes.

C. R. Jarden will put in a new front to the building No. 14 South Broad street, work to be commenced at once.

Mount Zion Baptist Colored Mission, Germantown, are agitating the question of erecting a church on Rittenhouse street in that suburb.

St. Paul's Roman Catholic Church, Christian street, below Tenth, will be greatly renovated, and a few minor additions and alterations made. Work will be started at once.

Michael McManus has sold to Michael Shea, for building purposes, a plot of ground at Ontario and Nineteenth streets, 121x118 feet. Mr. Shea will likely improve this site during the Summer.

George R. Snyder will erect a three-story factory, 34 x 86 feet, at 2308-10 North Fifteenth street, to be of brick, stone trimmings, and modern improvements; steam power will be introduced.

William Murphey, contractor, 7203 Woodland avenue, is about to build an addition to 1209 Locust street. This is but one of the many alterations and additions now going on in that locality.

A. H. Williams, contractor, 402 Tenor place, Philadelphia, has been given the contract to erect the Park Avenue M. E. Church Parsonage, to be attached to that building, and will begin operations at once.

H. J. Becker, builder, 3537 Fairview street, will at once begin an operation of six three-story houses on James street, north of Ridge avenue. All to be of press brick, stone trimmings and best of modern conveniences.

Clinton & Co., brush manufacturers, 1018 Market street, are about to make an addition to their new store by putting another story on for factory purposes, which will be in keeping with improvements made last year.

John H. Port, builder, 2531 North Twenty-seventh street, will at once begin the erection of twelve two-story houses on east side of Marston street, north of York. These are to be of press brick, stone trimmings and best modern conveniences.

W. F. Albrecht, builder, 2341 North Twenty-ninth street, will at once commence the erection of seven two-story houses on west side of Thirty-second street, north of Herman, all to be of brick, stone facings and all modern improvements.

The work of grading Camac, Mervine and other streets, near Fisher's Lane and the Old York Road, has been readvertised for by the Highway Bureau, and the bids were opened on August 3d. Work will now likely be pushed with vigor.

As indicated by this journal some months ago the Lester Piano Company are about to erect a new factory upon a site purchased at that time. The structure is to be three stories high, of brick and stone, and will be fitted with freight lifts and steam machinery necessary.

PHILADELPHIA, WED'Y, AUGUST 12, 1891.

*For the convenience of members of the Master Builders' Exchange, we have secured Box No. 199 at that place, where any communication for publication may be left.*

GOVERNOR ROBERT E. PATTISON's expressed purpose to investigate Robert E. Pattison, ex-President of the Chestnut Street Bank, in connection with the Bardsley stealings, is as novel as it is original. At all events, it possesses the ring of sterling honesty, and is indicative at least of a determination on the part of the Governor to clear up any seeming ambiguity that has heretofore surrounded the business relations that existed between John Bardsley and the Chestnut Street Bank.

It seems that the graduates of the Trade School, established under the auspices of the Master Builders' Exchange of this city, have already been antagonized by the trades unions in their efforts to continue their acquisition of practical knowledge as apprentices under competent masters.

Cases have been cited where masters have been compelled to abandon their apprentices through the threats and influences of labor combinations.

Of course it is but natural to suppose that the members of trades unions, individually and collectively, would defend their own interests against any properly interpreted infringement of their rights, no matter through what source it comes; but the assumption that the Creator made the Earth for their own especial accommodation and relegated to them the right to say who shall or who shall not work, or how, or when, or where is as monstrous as it is unjust, besides being contrary to both law and morals.

The encouragement derived by those who had worked and watched with unabated interest the growth and success of the Trades School connected with our Master Builders' Exchange, culminating in the very creditable graduation of a number of young men who, by their worth and character, merited any place which they could fill within the gift of an American master mechanic, was in itself sufficient compensation for

the time and labor given, as it seemed at that time to solve the great problem as to the future of American boys. But the discouragement arising through the opposition of trades unions to the future success of these boys as apprentices must be even greater.

Of course the preparatory work of trade schools must go on, and, of course, trade unions will continue to oppose the acceptance of trade school graduates as apprentices by the masters, and the only hope for the ultimate success of the trade-school boy lies in the fact of his superior intelligence and capability in grasping the instruction now imparted to him and upon his ability to keep pace with the schools themselves, which must, perforce, go onward and upward until they are able to not only graduate trade apprentices, but full-fledged American mechanics in such numbers, if need be, as to render trade unions, as at present organized, useless and of no importance.

We believe the spirit and sentiment of the people of this country to be decidedly in favor of opening a way for American boys to become mechanics and artisans in spite of trade unions, and we would not only invoke the aid of present laws, State or National, but would advocate special National legislation, enforcing the rights of those who wish to work as well as those who have work to give.

Building and Real Estate Notes.

The Church of the Epiphany, P. E., at Fifteenth and Chestnut streets, will have an alteration of the chancel and galleries made by Chas. McCaul, contractor, 20 North Eleventh street. The plans for this and other minor work were prepared by Mr. McCaul's draughtsman.

C. W. Cox, contractor, 826 Federal street, Camden, N. J., will erect at once fourteen two-story houses on Washington avenue, north of Torresdale street, Twenty-third Ward. These will be of press brick and trimmed with stone, interior to have best of modern conveniences.

Jacob Myers, contractor, Juniper and Sansom streets, has taken the contract to erect the house of S. Emlin Meigs, at 1702 Locust street; also a fine residence for John S. Jenks, on the Flourtown road, both of which have been noted and described in full in our architectural notes of previous editions.

Thomas H. Doan, contractor, 3827 Baring street, has begun operations on the erection of the new store building, 1332 Chestnut street, and for which plans were prepared by Frank R. Watson, architect, 518 Walnut street, fully noted in previous number of this journal. Mr. Watson will supervise the work.

Isaac Wood, contractor, 4901 Saybolt avenue, will erect a school house at Cumberland and Sixteenth streets. The structure will be a three-story building of brick, with stone trimmings, slate roof, steam heat, electric bells, best of plumbing and all modern conveniences. The cost will be about \$58,000.

John Loughran, builder, 2238 North Broad street, will at once erect eight three-story houses on east side of Tenth street, north of Indiana avenue, and a number of two-story houses on

Hutchinson street, north of the same avenue. All to be of press brick, stone trimmings, best of modern conveniences in interior.

William C. Merritt, builder, Fortieth and Poplar streets, will erect fourteen two-story houses on south side of Eaglesfield street, west of Fortieth street. These will be of the usual character of buildings in that locality erected by the same owner, having all modern conveniences, best material, press brick and stone facings.

Beck & Conley, carpenters, 115 North Seventh street, have begun operations on a fine private residence for Mr. Artell, east side of Broad, north of Diamond street. It will be 20 x 62 feet, three stories high, of brown stone front, interior to be in hardwood. Steam heat, electric work and all modern improvements will be introduced.

Charles C. Patterson, contractor, 2619 North Twelfth street, is building a factory 38 x 58 feet, four stories high, with a basement, on west side of Eighth street, above Dauphin. It is of brick, with stone trimmings, upper part to be ornamented with galvanized iron. A steam elevator, electric bells and other modern conveniences will be placed.

Harrington and Hildebrand Fitzgerald, of the "Item," have taken title to a large lot of ground on Carpenter street, north side, above Fourth street, on which they will erect an immense stable to accommodate the horses used in distribution of their papers. A full description of the structure appeared in architectural notes of issue of this journal dated July 29th, 1891.

The commission to locate and build an asylum for the chronic insane, met in this city yesterday, and organized permanently by electing Wharton Barker, President; Henry M. Dechert, Treasurer, and John M. Reynolds, Secretary. Hon. John B. Storm and John Curwen, M. D., are the other gentlemen composing the commission. They received personal and written applications from committees representing different localities, and voted to begin a series of visits to different counties. The Act of Assembly appropriates \$500,000 for the purchase of 500 acres of arable land and the erection of buildings at a point accessible to the State Hospital for the Insane.

Director Windrim has awarded contracts as follows: To J. H. Hathaway, for repair of bridges; Fred Overholzer, ditto; Cornelius McHugh, rebuilding retaining wall at Freeland avenue; John Cather, grading and paving Cedar and other streets; B. M. Shanley, resurfacing Longshore street and Haverford avenue; Thomas Brown, sprinkling Broad street. Charles R. Deacon, paving and grading Camac and Twelfth streets; Dennis McLaughlin, repaving Sansom street from Twenty-second to Twenty-fourth streets; Frank Mark, paving and grading Thirteenth street from Somerset street to Lehigh avenue; W. P. Clements, vitrified brick on Emery street, and Owen McKenna, repaving and grading on Sixteenth and Seventeenth streets. Beside these a number of grading contracts were also awarded, the contractors being W. S. Ware, William S. Kilpatrick, I. S. McHenry, Daniel McCollamer, Patrick Monaghan, John W. Renn and John Cather.

\$5.00

INVESTED in a yearly subscription to this journal, if carefully read, and you  
are not too lazy to see the man who's going to build, will certainly prove the best invest-  
ment you ever made in your life. Thousands of dollars in profit have been made by  
those who caught on to this idea years ago. Your economy that prompted the sav-  
ing of five dollars per year by refusing to subscribe, has cost you many a cool hundred.  
Get aboard now Brother while the fruit is ripening and the "lucky fellows" are reaching  
out far and wide for trade, while you are sorrowing because it don't come your way.

**Competitions.**—Plans and specifications are invited for the group of buildings of the Carnegie Library, to cost \$700,000. Drawings and specifications must be delivered at the office of Jas. B. Scott, President of Board of Trustees, No. 122 Second avenue, Pittsburgh, Pa., before noon on the first day of November, 1891. The competitor furnishing the designs adopted by the trustees will, if he desires, be employed to furnish the working and detail drawings and specifications, and to superintend the erection of the building, for which he will receive five per cent. on the cost of the building, except as noted below, said five per cent. to cover all expenses connected with the services usually rendered by an architect in a first-class building, including daily supervision of the work as it progresses, and in case of his inability to give constant supervision, the architect will employ a competent representative for such purpose at his own cost. The five per cent. commission shall not include the cost of work or materials outside of the architect's designs, and which he will not be called upon to design or supervise. To the competitors furnishing the six sets of drawings adjudged next in merit to the selected plans, the trustees will pay the sum of two thousand dollars (\$2000) each, it being understood that no one competitor will receive more than one premium. All rejected drawings, and those receiving the cash premiums, will be returned to their authors within reasonable time after determination of successful competitor. Correspondence in connection with foregoing can be addressed to James B. Scott, President Board of Trustees, Pittsburgh, Pa.

### Through Pennsylvania.

*Continued from Page 512.*

—At Allentown, Lehigh Co., it is rumored that a syndicate of capitalists have purchased all the property between Law street and Mr. Samuel Lewis' property, and will tear down the buildings and erect a fine hotel on the site.

—At Brinton, Allegheny Co., at a special meeting of the Board of Directors of the Braddock Township School, it was decided to erect a handsome brick school house at Brinton. The house has been purchased, and work will begin at an early date.

—At California, Washington Co., a new national bank has been organized with a capital of \$50,000. J. C. Ailes, of Roscoe, Pa., has been elected president and William Binns cashier. Dr. J. A. Leadierman and J. S. Eberman, of California, are directors.

—At Turtle Creek, Allegheny Co., The New York and Cleveland Gas Coal Company, whose works are located near Turtle Creek, will erect an immense machine shop at the Oak Hill Mine. The plans for the structure have been drawn and accepted, and work will be begun in about a week.

At Delaware City, New Castle Co., 250 acres of land with a water frontage of 1700 feet has been purchased by J. D. Simpson & Co., dry dock builders, of Philadelphia, who will erect a dry dock and shipyard at a cost of about \$500,000. The uniform depth of the water at the location is from 20 to 25 feet.

—At Doylestown, Bucks Co., at the regular monthly meeting, held by the Board of School Directors, on Monday, August 5th, the building committee were instructed to see that the necessary steps are taken to perfect the heating of the class rooms, and to see that the roof is put into such a condition as to prevent leakage.

—At Scranton, the most important building permits issued to date, are as follows: To Eugene Healey, to erect one two-story dwelling; to William Connell, one two-story dwelling; to J. H. Jordan & Bros., to erect one large double dwelling; to George D. Brown and Patrick Fay, each to erect a dwelling; to Dr. Ross, to erect an office building.

—At Harrisburg The Weygadt Mountain Railway Company, of Easton, Pa., has been chartered with a capital of \$30,000. —Also the J. H. Zelin Company, of Philadelphia, Pa., with a capital stock of \$300,000, for the manufacture of drugs. —A recharter has been granted to the Columbia avenue Building Company of Philadelphia, Pa. Capital stock, \$1,000,000.

—At West Chester, Chester Co., E. R. & W. H. Griffith have staked out ground on South Church street, below Sharples street, for the erection of four dwellings. —Thomas H. Darlington has sold a building site on South Matlack street to Mr. Brinton, who will erect two dwellings thereon. —On Saturday, August 1st, Hiram O'Brine laid the corner brick for the new opera house.

—At Johnstown, Cambria Co., the Cambria Iron Company will re-erect their mills, which were destroyed by the flood. The new mills will cost about one million dollars. —Messrs. Smith & Robinson, architects, have prepared plans for a new building for Miss Minnie C. Murphy, to be erected at 109 Clinton street for business purposes. The building will be three stories high, and be of pressed brick.

—William H. Latta, of the Pennsylvania Railroad Company, is improving the large tract of land purchased by him about one mile from Paoli, Chester Co. The new place is to be known as Daylesford. A number of building sites have been selected, upon which dwellings will be erected. Clement Cooper was the first to break ground on the new tract on a site which he selected, and now has two dwellings in course of erection.

—At Sharpsburg, Allegheny Co., St. Mary's congregation will erect a handsome school building, to cost about \$40,000. It will be three-stories high and will have twelve rooms on the second and third floors, while the first floor will be occupied by a reception hall. The old buildings will be demolished at once, and the work of building begun by Huckenstein & Co., of Allegheny City, who have been awarded the contract for construction.

—At Bridgeport, Montgomery Co., Messrs. Hulbert & Hampton have made arrangements for the erection of twelve dwellings on Ridge road, near the Black Horse Hotel. The same firm contemplate the purchase of twelve more lots, and the erection of more dwellings at an early date. The arrangements for the erection of the houses are entirely in charge of Mr. John Hampton. They will be built of brick, and three stories high.

—At Allegheny City a new industry is about to be established by the removal of the cutlery works of Smith Bros. & Co., of Bridgeport, Conn. The same firm owns the La Belle Steel Works of Allegheny, and the new cutlery works will be erected, adjoining the plant of the steel

works. This is done to save transportation of the steel to Bridgeport, where it is used for cutlery purposes. A charter for the new company has been secured, and work in the buildings will be begun in a short time.

—At Norristown, Montgomery Co., work has commenced on the new dwelling to be erected on Ashland and Franklin streets for Frank L. Worthington. —It is reported that a large annex will be erected to the Adam Schneidt Brewing Company's plant, which it is said will consist of an ale and porter establishment, and a large storage house for those two kinds of liquor. The bottling business will be taken up by the firm, which will include the manufacture of all kinds of soft drinks, also a new stable will be erected which will accommodate about forty horses.

—At Coatesville, Chester Co., the window frames have been set in the new Presbyterian Church, but it will be nearly a year before the structure is completed. —Work on the new Odd Fellows' Hall is progressing. There will be two stores on the ground floor of the building. —Ground has been broken for the addition to the East Main street public school. The work will cost about \$10,000. —The Lutheran Church congregation have plans ready for the erection of a handsome church. —The large barn of Worth Brothers was destroyed by fire last week, causing a loss of about \$3000.

—At Markleton, Somerset Co., on the Youghiogheny river and B. & O. Railroad, 94 miles south of Pittsburg, a sanitarium will be erected. Two hotels are now on the site and will be utilized as sleeping apartments, while the sanitarium proper will be erected on the vacant spot between the two buildings. The main building will be 400x80 feet, and will be handsomely finished on the interior, and contain all modern conveniences and improvements. The cost will be about \$75,000. The contract has been let to Smith & Robinson, architects, Johnstown, Cambria Co., Pa. Rev. Dr. Barnett, of Washington, and Jefferson College at Washington, Pa., is secretary of the company. The grounds will also be improved.

—At Reading, Berks Co., Jacob B. Rauenzahn will begin work in a short time on the foundation walls of the Poplar Street public school house. —John F. Boyer will place an electric motor in his livery stable to operate the carriage elevator. —John F. Beyerle will erect a dwelling. —The store of C. K. Whitner will be enlarged by an addition 30x101 feet. —Messrs. Rehr & Fricker have purchased a large lot on Miller street, between Perkiomen avenue and Thirteenth street, upon which they will erect a number of dwellings. —Architects J. C. and A. F. Smith have prepared plans, and will submit the same to the congregation of the Covenant Methodist Church, for their new structure to be erected at the southeast corner of Ninth and Elm streets. Rev. Noble Frame is the pastor.

**OPINIONS OF THE PRESS.**

[From the *Northwestern Architect.*]

MINNEAPOLIS, MINN.

"As is compatible with this progressive period, even wall plaster has succumbed to inventive genius, and 'the day is nearly done' when our handsomely decorated walls and ceilings shall be ruined by reason of the utter unreliability of the old style mortar. To meet this demand for a non-porous plaster, Adamant has appeared on the market, and is now being manufactured in nearly every State in the Union."

[From the *Scientific American.*]

"Some of the advantages Adamant possesses above the other plaster is the extreme hardness of the wall. It will neither crack nor crumble. It is a strong support to a building. It does not swell timbers by an absorption of the moisture, as the material itself absorbs most of it. It dries so quickly after it is applied to the wall, that in a few hours frost will have no effect on it. We are convinced that this Adamant is destined to revolutionize the business of house plastering."

[From the *Baltimore Commercial.*]

"Adamant makes a wall as hard as marble, at a slight cost."

[From the *Leader and Herald.*]

CLEVELAND, O., March 22, 1889.

"The problem has been to provide a substitute that would not only produce a perfect wall, but be comparatively cheap and easily applied as well. 'Repeated tests, under the most exacting conditions, clearly prove that such a happy combination has at last been secured in the plastering material called 'Adamant,' now being so extensively introduced in this city.'"

[From the *Builder, Decorator and Wood-Worker.*]

PHILADELPHIA, PA.

"Nothing in house building has so long withstood the 'march of improvement,' notwithstanding it has failed to give a substantial wall, while many houses become decayed and old in a few months on account of broken walls and ceilings. 'Adamant' obviates all this, and is the coming plaster."

[From the *New York Commercial News.*]

"There is not the least doubt about 'Adamant' wall plaster will last as long as the building upon which it is used."

PHILADELPHIA, WED'Y, AUGUST 19, 1891.

*For the convenience of members of the Master Builders' Exchange, we have secured Box No. 199 at that place, where any communication for publication may be left.*

THE name of the Lucas building, the former home of the defunct Keystone Bank, has been changed to the Hale Building, after Architect Willis G. Hale of this city, who made the plans and supervised its construction.

MR. RECEIVER YARDLEY of the Keystone Bank can possibly confer a blessing upon the unfortunate depositors whose money was tied up by the failure of that bank, by declaring a dividend at once. There are hundreds of business men who daily suffer through the want of their funds and which are not available owing to the cruelly unjust measures of the Receiver. If Mr. Yardley does not wish to assume the responsibility of declaring a dividend until litigation is ended, he can certainly present the facts before the court and obtain an order for a distribution of a percentage in keeping with the most rigid principles of protection and security, both as to himself and the outside creditors, if there are any beside the depositors. The scarcity of money in business circles is sufficiently great in itself, and a single effort on the part of Mr. Yardley, having in view the releasing of the largest amount possible of the funds on deposit now in his hands, would materially aid and release those who feel the need even of a percentage of their deposits which were tied up through no fault of their own.

The tightness of money in business circles is not only manifest, but it has become a serious matter, and any strict adherence to the technical rights and privileges of the receiver is as much a mistake as it is an unjust reflection of cruelty upon those whose interests it is his duty to protect.

#### Architects Notes.

Willis G. Hale, architect, 1524 Chestnut street, Philadelphia, has made elaborate plans for alterations, additions, and plumbing and gas fitting, in Chamberlain's Hotel, Washington, D. C. Steam heating will also be introduced, and other minor repairs. Estimates are now being made on the work.

Louis C. Hickman, architect, Penn Mutual Building, 925 Chestnut street, Philadelphia, has submitted the plans of the Keneseth Israel Church to the board of building inspectors for approval, and a permit for the superstructure will at once be taken out. Work is now going on at the foundation.

Fred. G. Thorn, architect, 1345 Arch street, has on hands plans for a grain elevator of large dimensions to be erected in Camden, N. J. Mr. Thorn has just completed one at Atlantic City, and report says the one on boards will excel the latter in size and capacity.

Thomas R. Jackson, architect, 61 Broadway, New York City, is at present engaged on plans for a new stable for Adams Express Company, to be erected on property owned by them on Filbert street, west of Seventeenth. It will be three stories high and be capable of stabling several hundred horses. Contract awarded.

P. A. Welsh, architect, 429 Walnut street, Philadelphia, has made plans for a parochial and pastoral house for St. Agatha's Roman Catholic Church at Thirty-ninth and Spring Garden streets. The structure will be in keeping with the church, of stone, slate roof, three-stories high and fitted with all modern conveniences.

Moses and King, architects, 431 Walnut street, Philadelphia, have awarded the contract for erection of the Ferry Avenue School, Camden, N. J., to Charles Schmidt of the same place, who will begin work under supervision of the above named architects at an early day. The C. A. Bergen School on Mt. Vernon street is rapidly approaching completion, and as yet no contracts for the furniture have been made.

Will. H. Decker, architect, 1407½ Chestnut street, Philadelphia, has prepared plans for six-story building for the National Publishing Company, near Eighth and Cherry streets, fronting upon the latter. The structure will be brick with gray stone trimmings, the interior to have two elevators, electric work, steam heat and power, and fitted with all modern conveniences. Work will begin at an early day.

Henry D. Dagit, Architect, 122 South Second street, Philadelphia, has placed on boards plans which we noted in this journal some nine months ago, for a large factory to be built for T. J. Dunn & Co., at 210-12 North Broad street. It will be a five storied structure with basement. The first story will be of brown stone, the remaining ones of brick, stone trimmings and furnished with elevators, electric work and steam power and heat. All modern conveniences will be introduced.

George C. Mason & Son, architects, Drexel Building, and Newport, R. I., have made plans for a U. S. Naval War College to be erected in Newport Harbor, R. I. The structure will be four stories high and built of stone, with ornamentation of various kinds. Interior will be fitted with chambers, lecture rooms, study rooms and recitation halls. Hardwood finish on interior, electric bell and light by individual plant, slate roof, steam heat, and all modern comforts and convenience. Estimates are being made by a few of the Philadelphia's general contractors from plans on boards.

Lindley Johnson, Jr., architect, Girard Building, Broad and Chestnut streets, has made drawings for an elegant residence to be erected at southwest corner of Twelfth and Locust streets, for the Real Estate Investment and Trust Company, 721 Walnut street. John J. Ridgway, President. These contemplate a three and-a-half story house of colonial architecture, rough cast in exterior finish, slate roof, and the interior to be a model of comfort, being in hard wood, plate and stained glass, electric work and all modern conveniences introduced. The contract has been let, and work will start at an early day.

The National Architects Union, 120 North Seventh street, Philadelphia, have made plans for a frame house to cost \$5000 for Mrs. W. P. Alexander, Jacksonville, Ills. Also for a frame house for B. S. Pease, at Nashville, Tenn. Also for a stone and frame house for J. F. Alexander, New York City. Also plans for a brick house for T. Frank McCall, at Chester, Pa. Also for a brick and frame house for Hugh Kenworthy, at Coatesville, Pa. They have also made plans for a frame house for James Summers, at Helena, Arkansas. Also plans for a house for Harry H. Hale, New Orleans, La. Also plans for a lot of houses to be erected by the Lidger Wood Manufacturing Co., in Brazil. Also plans for several houses at Bristol Pa., for G. A. Shoemaker. Also a frame house for A. W. Shirley, Hiawatha, Kansas. Also for a house for Rowan Thayer, at Greenwood, Miss.

Frank R. Watson, architect, 518 Walnut street, Philadelphia, has made drawings for the erection of an immense clothing house for Abram Kirschbaum & Co., 333 Market street. The structure will be located at 726-728 Market street, and will be nine stories above ground, and two beneath, being eleven in all. The front will be of brown stone and terra-cotta, tin roof, and the interior will be of slow-burning material and construction. The basement will be lined with buff brick. One passenger elevator and one for freight will be placed on interior, as well as a freight lift upon the outside. An individual electric plant, best of plumbing and gas fitting, toilet rooms, baths and modern improvements will be introduced. Steam power and heat throughout. Special pains have been taken to prevent fire or its effects by placing tanks and sprinklers with sprays throughout the building. When completed it will be one of the finest houses of the kind in this country. Dimensions will be 48 x 160 feet, making it of fine proportions. Estimates are being made, and work will be commenced as soon as the award is made.

A. S. Wagner, architect, Hay's Building, Williamsport, Pa., has just completed plans for a parish house for the Church of the Immaculate Conception, Lock Haven, Pa., to be press brick, stone trimmings, slate roof, all modern improvements; cost, \$6000. Also has under way a parish building for St. Paul's Church, Bloomsburg, Pa., to be of stone from native quarries, trimmed with Hummelstown brown stone; stained glass, water closets, slate roof, concrete floor in basement; cost, \$7000. Also dwelling for Mr. S. S. Brown, Williamsport, Pa., to be of press brick, Hummelstown brown stone, terra-cotta and shingles, first story hard wood, tile hearths and mantels, stained and French plate glass, electric appli-

ances, all modern improvements; cost, \$15,000. Also dwelling for Senator S. D. Bates, and store for Mr. C. E. Walpe, Lewisburg, Pa., modern improvements throughout. Also a dwelling for Mr. P. S. Merrill to be remodeled at Lock Haven, Pa. Also a cottage for Miss S. E. Lombaert, Eagle's Mere, Pa., containing nine bed rooms and bath, reception hall, office, sitting room, dining room, kitchen, pantries, servants rooms, etc., all joist exposed and all walls paneled, no plastering to be used, exterior to be stone, shingles and clapboards. Also dwelling for Mr. S. M. McCormick, to be remodeled at Lock Haven, Pa. Also a cottage for Vallamont, stone, clapboards and shingles, first story hard wood, all modern improvements; cost, \$5000.

Franklin Keagy, architect, 576 Philadelphia avenue, Chambersburg, Pa., has completed plans and specifications for a two storied brick addition to the residence of Van S. Thaulman Esq., on corner of Third and Queen streets. First class wood work will be required on doors, stairs, mantles, etc. All the windows will have "Willer's Inside Sliding Blinds" run down into pockets below the window-sills. Contract not yet awarded. —The same architect has sometime ago prepared plans for a two-story frame cottage for Harry E. Hoke, bookkeeper in the First National Bank at Chambersburg, Pa. The building will be located on East Market street, on a lot purchased from the "Land Improvement Company." The contract has been awarded to the architect. Cost \$2200. —The same architect has nearly completed plans and specifications for a school house for the Board of Directors of Peters Township. The structure will be frame and weather-boarded. There will be two side porches, and two spacious coat rooms. The gables of porches and main building will be covered with ornamental shingles. The plastering will be done on "Hall's Patent Sheathing Lath." Single desks and seats of hard wood will be used.

### Building and Real Estate Notes.

William Paxson, of Paxson, Comfort & Co., Philadelphia, is about to erect a handsome summer residence near Radnor, Pa.

Ludwig Lambrecht, 3252 North Fifth street, will erect six fine three story houses at Fifth street and Glenwood avenue, all to be in keeping with the same class of dwellings erected in that locality.

General G. K. Warren Post 15, G. A. R., of Manayunk, have bought a large double house of William Bernard, No. 4459 Main street, for \$10,000 and will fit the structure for their purposes in the near future.

Loyd Bailey, builder, 2613 North Fourth street, is about erecting eleven dwelling houses on Germantown avenue, north of Roberts avenue, all to be of press brick, stone facings and best of modern improvements.

James Hood, Builder, 212 New street, is to commence at once fourteen two-story houses on east side of Sloan street, north of Fairmount avenue, to be of press brick, stone trimmings, and all modern conveniences.

Brommell & Brown, Dyers, Paul and Tacony streets, are about to erect a large dyehouse at the above locality. It will be 80 x 106 feet, one-story high, and fitted with steam kettles, vats, and all appurtenances for the business.

Frank Ruckle, owner and builder, 3015 North Sixth street, will build six two story houses at southeast corner of Tioga and Mascher streets, all to be of press brick, stone steps and facings with modern improvements.

G. W. Steinman, hatter, 54 North Seventh street, Philadelphia, has bought a lot for building purposes at East Ogontz, Pa., and contracted with Felix O'Neil & Son, of Jenkintown, Pa., to erect a house at a cost of \$12,000.

George Allen, of 930 Chestnut street, has purchased the property 1214 Chestnut street of the estate of John Mustin, and will make extensive alterations to the structure for business purposes. The lot is 25 x 238 feet and has two fronts.

Einwechter & Sons, contractors, 2028 Allegheny avenue, will at once begin the construction of two erecting shops for the I. P. Morris Company, at Beach, Ball and York streets, both to be of brick and fitted with machinery.

Montgomery & Baxter, contractors, Nineteenth and McClellan streets, are about to begin erection of sixteen two story houses on south side of Tree east of Twelfth street, all to be of press brick, stone trimmings and modern conveniences.

George Watson & Son will erect the new building for the Adams Express Company, noticed in our Architectural Notes of this issue, and are at present engaged on the preliminary work of excavation on Filbert street, near Eighteenth.

Christian Schaeffer, Builder, 1619 Dauphin street, Philadelphia, is about to begin the erection of forty-eight two-story dwellings on Philadelphia street south of Huntington, these will all be of press brick, stone facings, and best of interior improvements.

F. W. Kipper, merchant, 15 North Fourth street, Philadelphia, has bought of W. Eby & Son, a large piece of ground at Gwynedd Station, on the N. P. R. R., and proposes to erect a fine residence in the near future at a cost of about \$12,000.

James Wilson & Son have awarded George Kessler, 907 Randolph street, the contract to erect a four story mill upon their lot at Fourth and Canal streets. It will be a brick structure, stone trimmings, elevator and electric work, with all modern conveniences.

James E. Conway, 1709 South Broad street, will at once begin the work of building four three-story houses on Broad south of Moore street, to have press brick and brownstone fronts, inside to be fitted in hard wood, with all modern conveniences the dimensions will be 18x56 feet.

The Public Building Commissioners of Philadelphia are considering the question of placing in the public buildings at Broad and Market streets a number of additional elevators in order to accommodate the immense travel in the structure. As the matter stands no definite action has as yet been taken.

J. Wallworth & Son, contractors, 3941 Haverford street, will at once erect a fine three story warehouse, ornamental front of stone, on south side of Ludlow west of Forty-first street. It will be 40 x 48 feet in dimensions. Freight elevators and lifts will be introduced, as well as all modern conveniences.

Jacob R. Jordan, builder, 1626 South Broad street, will at once begin erecting eleven three story houses on east side of Thirty-fourth, north of Filbert street. These will be in keeping with others erected by the same operator, all of fine press brick, ornamental fronts, best of interior work and accommodations.

Michael O'Rourke, contractor, 3240 Belgrade street, has been awarded the contract for erection of the new ward at the county prison at Holmesburg for \$17,000. The three contractors will now push their work to completion. J. E. & A. L. Pennock and Charles McCaul received contracts upon former estimates for work of the same kind.

Major Clifton Comley, Ordnance Department, U. S. A., Indianapolis, Ind., will receive proposals for 160,000 pounds of girders, formed of steel beams in pairs with separators, plates, bolts, &c.; also for channel bars; for wrought and cast iron plates; for cast iron pilasters and for miscellaneous shapes, plain cast iron; also for construction of an iron fence on the Michigan street front of arsenal grounds.

Health Office, Room 615 City Hall, Philadelphia.—Sealed proposals, endorsed "Proposals for abating nuisance No. 4879," existing on a lot of ground situate on the east side of Seventh street, north of Tioga street, caused by a pond of stagnant water, by filling said pond with clean earth and raising the grade of the lot to the level of a recently laid drain pipe, will be received at this office until 11 o'clock A. M. August 24th inst. Jos. G. Patterson, Health Officer.

Competitions.—Sealed plans and specifications in detail for a county high school, to be erected on the Plaza, will be received by the Board of Supervisors at the office of its clerk at the Court House up to September 28th, at 10 o'clock A. M. The buildings to be two stories in height, to contain one room 30 x 30, one room 30 x 30, one room 10 x 15, one room 10 x 15. The amount authorized to be expended for the erection of this building is the sum of \$2500. The premium to be awarded to the architect whose plans and specifications are adopted is the sum of \$100. P. H. Peveler, Clerk, Crescent City, Cal.

A. W. Greely, Chief Signal Officer at Washington D. C., wants proposals until August 24th for furnishing the Signal Service the insulators described in the following specifications: 1500 hard rubber insulators for use on lances with field telegraph train. 30, 1892. Also until August 17th for repairing, varnishing and otherwise putting in thorough serviceable condition 1500, more or less, farmers' bulletin frames. The words "Signal Service, U. S. Army," to be removed from each frame and the words "Department of Agriculture, Weather Bureau," in gilt, stenciled or painted thereon. Sample frame of which the 1500, more or less, are to conform, can be seen at this office. Prices to hold good from date of award to June 30, 1892.

Building plans, Department of the Interior Washington, July 21, 1891.—Plans and specifications for a United States penitentiary building to be erected on a tract of land near Grafton, N. D., are solicited and will be received at this Department until 1 o'clock P. M. Monday, Aug. 31, 1891, when they will be opened and considered. Plans submitted should provide for a structure of brick or stone, to contain at least 100 iron cells, with necessary bath rooms and proper accommodations for prison guards, etc., and include everything necessary for the completion thereof ready for occupancy except heating apparatus and furniture (such as stoves, ranges, tables, etc.) Plans must be accompanied by an estimate of the probable cost of the building under the design offered. No plan will be considered which contemplates the expenditure of a sum in excess of \$24,000. A reasonable compensation not exceeding 1 per cent. of the cost of the structure will be paid for the accepted plans. The Department reserves the right to reject any and all plans, and no payment whatever will be made for those rejected. Plans not accepted will be promptly returned. Packages should be plainly marked "Plans for United States Penitentiary, North Dakota," and be addressed to the Secretary of the Interior, Washington, D. C. George Chandler, Acting Secretary.

Competitions.—Plans and specifications are invited for the group of buildings of the Carnegie Library, to cost \$700,000. Drawings and specifications must be delivered at the office of Jas. B. Scott, President of Board of Trustees, No. 122 Second avenue, Pittsburgh, Pa., before noon on the first day of November, 1891. The competitor furnishing the designs adopted by the trustees will, if he desires, be employed to furnish the working and detail drawings and specifications, and to superintend the erection of the building, for which he will receive five per cent. on the cost of the building, except as noted below, said five per cent. to cover all expenses connected with the services usually rendered by an architect in a first-class building, including daily supervision of the work as it progresses, and in case of his inability to give constant supervision, the architect will employ a competent representative for such purpose at his own cost. The five per cent. commission shall not include the cost of work or materials outside of the architect's designs, and which he will not be called upon to design or supervise. To the competitors furnishing the six sets of drawings adjudged next in merit to the selected plans, the trustees will pay the sum of two thousand dollars (\$2000) each, it being understood that no one competitor will receive more than one premium. All rejected drawings, and those receiving the cash premiums, will be returned to their authors within reasonable time after determination of successful competitor. Correspondence in connection with foregoing can be addressed to James B. Scott, President Board of Trustees, Pittsburgh, Pa.

#### Miscellaneous.

At St. George, Staten Island, N. Y., the plant of the Richmond Electric Light Company has been destroyed by fire, causing a loss of about \$200,000.

At Columbia, Richland Co., S. C., a \$100,000 pottery, turpentine still, etc., will be erected by a

syndicate in which T. H. Gifford of Salem, Mass., is interested.

At Jasper, Hamilton Co., Fla., it is reported that a \$20,000 court house will be erected. For information apply to A. B. Small, chairman of building committee.

At Lynn, Mass., Colonel James P. Low, Chief Engineer of the Treasury Department, is looking for a site upon which to erect the proposed post office building for which Congress appropriated \$125,000.

At New Bedford, Bristol Co., Mass., A. F. Adams has sold a tract of land, comprising sixty acres in the extreme north part of the city, to a syndicate, whom it is reported will erect a large cotton mill.

At Charlestown, West Virginia, a charter has been granted to the Kanawha City & Charlestown Railway Company with a capital of \$500,000. A road will be constructed between the two mentioned points.

At Syracuse, N. Y., Buell & Taber, architects, have prepared plans for a dwelling for Edward T. Hawkins. Cost, \$10,000. Also a dwelling for H. J. Churchill; also a dwelling for P. E. Garlick; also plans for a dwelling for Mr. J. McJury.

At Paris, Edgar Co., Ill., a new court house will be erected. H. Elliott, Architect, 717 Stock Exchange Building, Chicago, Ill. Bids will be received up to 10 o'clock, August 24th. Address care of F. M. Pattison, clerk of building committee.

At Middleburg, Bell Co., Ky., a syndicate of English and American capitalists have purchased about 160,000 acres of land. The land is near the American Association's land, and contains valuable coking coal, iron and other minerals. The price paid was about \$11 an acre.

At Worcester, Mass., estimates for the erection of a brick orphanage building on what is known as the "French Farm" in this city, for the Order of Grey Nuns, of Montreal, will be received by the architects Fuller & Delano. Details can be obtained from Rev. Joseph Brouillet.

At Owosso, Shiawassee Co., Mich., plans have been prepared by Architects Malcomson & Higginbotham, 53 Moffat Block, Detroit, Mich., for the First Congregation Church, to be built of brick and stone; dimensions 72 x 110 feet, galvanized iron work and cornices, marble columns, stained glass, steam heat, mantels, grates, best of sanitary plumbing and ventilators. Cost, \$25,000.

At Detroit, Mich., a church will be erected at the N. W. cor. Cass and Selden avenues, to be 78 x 90 feet, brick with stone trimmings, slate roof, galvanized iron cornice, to have church bell, frescoing, electric light, gas fixtures, stained glass, grates, steam heating, mantels, marble work, tiling, ventilation, plumbing. Cost, \$25,000. Malcomson & Higginbotham, architects, 53 Moffat Block, will supervise the work.

At East Liverpool, Columbus Co., Ohio, a real estate deal of considerable magnitude has been consummated here this week and the parties interested are only waiting until the papers are all signed to make the deal public. The real estate in question is located on Sixth street, and it is the intention of the purchasers to erect upon the site a four-story business and commodious opera house block. The building is to be one of the finest in the city.

At Chicago, Ill., plans are in progress for a church to be located on Thirty-ninth street, near Wentworth avenue, for St. George's Catholic congregation. Dimensions 71 x 146 feet. Early Gothic style, brick, with stone trimmings, slate roof and adorned with two towers, 106 and 110 feet high respectively, stained glass windows, hot water heating, interior finished in oak. Cost, \$75,000. Rev. J. Dettmer, pastor. Architect A. Duiding, Metropolitan Block.

At Fostoria, Ohio, the Fostoria Glass Company will receive bids until August 25th, 1891, for iron covered wood frame building for glass factory at Moundsville, West Virginia, by the Fostoria Glass Company; also bids for heating factory building, two stories high, 90 x 144 feet; Steam will be furnished by owners of building; also bids for brick work on building, 90 x 144 feet, with tin roof. Plans at office of architect, M. F. Giesey, Wheeling, West Virginia.

At Chicago, Ill., plans for the reconstruction of the Immanuel Baptist Church, on Michigan avenue, near Twenty-third street, which was damaged by fire a short time ago, have been prepared by H. B. Wheelock, architect, Mallers Building. The church will have a new slate roof, stained glass windows, and the rear will be rebuilt, Sunday-school room will be altered, and probably new stone front put in. The improvements will cost about \$30,000.

At Findlay, O., Architect H. O. Wurmser has prepared plans for a three-story business house for L. D. Howes. To be built of brick, dimensions 48 x 160 feet. Cost about \$12,000. The same architect has plans prepared for a residence for Andrew Sayer; also a dwelling for O. A. Wurmser. Also plans prepared for business purposes for L. W. Larkins.—Architects Kramer & Zoll have prepared plans for a business block for Wm. Marvin. Dimensions 80 x 210 feet, four stories high, press and ornamental brick. Cost \$16,000.—William Biggs will erect a residence.—A residence will also be erected by M. G. Coleman.

At Cincinnati, O., L. Plympton, architect, Fifth and Walnut streets, has made plans for a residence to be erected at Walnut Hills, for Mrs. Rose Bussing. The same architect has made plans for a residence for Walter Fisher, to be erected at No. 261 Walnut street.—Architect, Theodore Richter, Fifth and Walnut streets, has made plans for a residence for W. B. Morrow.—Architects Baude & King, No. 150 Hopkins street, have made plans for a residence for Charles W. Woher.—G. W. Drach, architect, at No. 227 Main street, has prepared plans for a residence for Louis A. Roth.—J. H. Kuckertz, architect, corner of Court and Main streets, has made plans for a residence for Joseph Mersch.

At Steubenville, Jefferson Co., O., the Steubenville Railway and Electric Company has been organized by E. B. Gawthorpe and Charles C. Hughes, of Pittsburgh; C. E. Fisher and Donald B. Tonce, of New York, and R. G. Richards, of Steubenville. The new company will take charge of the present plant, which will be improved by the adoption of a new system of motors, and it is probable that the new company will erect a power house.—Work is progressing on the new Methodist Church, and it is said a handsome memorial window will be put in in memory of the late Horatio G. Garrett, who gave \$5000 toward the new buildings.—Work has begun on the new parish house, to be erected by the congregation of St. Paul's Episcopal Church from plans prepared by Architect Hewitt, of Philadelphia.

\$5.00

INVESTED in a yearly subscription to this journal, if carefully read, and you  
are not too lazy to see the man who's going to build, will certainly prove the best invest-  
ment you ever made in your life. Thousands of dollars in profit have been made by  
those who caught on to this idea years ago. Your economy that prompted the sav-  
ing of five dollars per year by refusing to subscribe, has cost you many a cool hundred.  
Get aboard now Brother while the fruit is ripening and the "lucky fellows" are reaching  
out far and wide for trade, while you are sorrowing because it don't come your way.

**Architects Notes.**

J. G. Worthington, architect, 1305 Arch street, Philadelphia, has made plans for a fine cottage to be erected at Bryn Mawr College, to be two-and-a-half-stories high of stone and frame, slate roof, and interior furnished with all modern conveniences. William Gray of Rosemont is the contractor.

Bids are still being considered on the plans for the new building at 726-28 Market street for Messrs. A. Kirschbaum & Co., clothiers, and which have been fully described in this Journal. These plans were prepared by Frank R. Watson, architect, 518 Walnut street, who will supervise construction when contract is awarded.

Geissinger & Hales, architects, 1200 Chestnut street, Philadelphia, have placed plans on boards for estimates for providing water supply and general water system throughout the factory of Messrs. Laird Schober & Mitchell's, at the southeast corner of Nineteenth and Buttonwood streets, in this city. The same architects are receiving estimates also on factory of Barnes & Beyer, for steam heat and supply of water.

J. Franklin Stuckart, architect, 524 Walnut street, has been directed by the syndicate for whom plans were prepared for a hotel at the northwest corner of Twelfth and Market streets, to invite estimates upon the drawing at once. This structure was fully noted in a previous issue of this journal. Its dimensions will be 50x100 feet, and five stories high, fitted with electric appliances, elevators, and all modern conveniences.

P. A. Welsh, architect, 429 Walnut street, has prepared plans for a fine market house to be erected on southwest corner of Seventeenth and Venango streets, for the Tioga Market Company. The structure will be one-story high, of brick with stone trimmings, the roof to be of tin with immense skylights set in on either side. Interior will be fitted with the general paraphernalia for such buildings. Estimates will be invited at once.

Baker & Dallett, architects, Fifth and Walnut streets, Philadelphia, have made plans for a fine barn for James M. Patterson, at Devon, Pa., to be stone and shingle work. Also, plans for addition to house at Westchester, Pa., for Josiah Hoopes, which includes interior and exterior work. The same architects are engaged on plans for two fine houses to be erected at Radnor, Pa., for Logan M. Bullitt, to be stone and fitted with every convenience.

Addison Hutton, architect, 400 Chestnut street, Philadelphia, has made drawings for a new addition to the Pennsylvania Institution for Feeble Minded Children, near Elwyn, Delaware Co., Pa. The structure is intended for a hospital building with other rooms, such as play and exercise attached. It is to be 68 x 144 feet and three stories high. Material not definitely decided upon, but

it is thought will be stone. All modern conveniences and comforts for such homes will be introduced. Plans are on boards for estimates.

F. G. Thorne, architect, 235 North Thirty-sixth street, Philadelphia, has in course of preparation plans for an elevator to be built at the junction of P. & R. R., Cheltenham avenue and the West Jersey R. R., Camden, N. J., for Frank Sitley, grain merchant at Kaighns Point. The structure will be 70 x 100 feet, with an engine house 23 x 40 feet. First story will be of stone, remainder of frame, coated with corrugated iron and slate, and will be capable of 3500 bushels of grain when completed, being fitted with thirty immense bins.

Angus S. Wade, architect, 20 South Broad street, Philadelphia, has been notified officially of the acceptance of his competitive drawings for the new Masonic Temple to be erected in Camden, N. J., at a cost of about \$75,000. It is intended to erect a stone structure, five stories high, having a temple for Masonic purposes at one end, and a theatre at the other. An elevator for passengers will be placed in the Temple, also electric work throughout the structure, which will likely be an individual plant, in connection with steam heat and power, which are to be introduced. All the most modern appliances in theatrical art has been considered by Mr. Wade, who has just finished the Empire Theatre in this city. The lodge rooms of the Temple will be models of comfort in upholstery and general decorations, as well as being provided each with lavatories, toilet and ante rooms. A general banqueting hall will be a feature of the building, which will be in fresco work, emblematic of the order. As this is but a preliminary sketch, a more minute description will be given when plans are ready for estimate.

**Building and Real Estate Notes.**

W. W. Rea & Son, contractors, are about to begin the superstructure of Keneseth Israel Church, Broad street, above Columbia avenue. A permit was obtained for the work on the 20th inst.

Messrs. Sacks & Co., contractors, are making alterations to the synagogue of the congregation B'Nai Abraham, on Lombard, west of Fifth street. These consist of interior and exterior work.

Adam J. Gotschall, builder, of Shamokin, Pa., has bought a large block of ground, 120 x 350 feet, at Fifth and Pine streets, Darby, Del. Co., Pa., and will erect quite a number of cottages this and next season.

Robert Craig, builder, 2821 North Sixth street, will erect quite a number of three-story dwellings on Oxford, east of Hope street, all to be of press brick with stone trimmings and best of modern conveniences.

The Merion Title and Trust Company have bought a lot from Jacob Stadleman and will erect

at an early day an office at that place. No contracts have as yet been awarded. The location is on the main line P. R. R.

Allen B. Rorke, contractor, Drexel Building, has been awarded the contract to erect the ITEM stables on Carpenter street, west of Fourth, extending to Marriott street in the rear. Plans were made by R. K. Marple, architect, who will supervise the construction.

John J. Cassidy, builder, McKean street and Moyamensing avenue, is about to begin the erection of nine two-story houses on Cantrell street, west of Fourth. These will all be of press brick fronts, stone facings and steps, with all modern conveniences on interior.

John J. Cassidy, builder, McKean street and Moyamensing avenue, has recently bought quite a number of lots in vicinity of Snyder avenue and Fifth street, on which he will erect some fine two and three story houses of the same character as his other large operations in that neighborhood.

The Society for the Protection of Children from Cruelty has just bought a property on east side of Broad street, above Locust, which they intend to alter and make such additions as to render it comfortable and suitable for their purposes. These will consist of play-rooms, nursery, dormitories and offices.

Allen B. Rorke, contractor, has been granted a permit for the erection of the John F. Betz office building at Broad and Penn Square. A careful scrutiny of the plans were made by the building inspectors, and they were passed upon unanimously. The foundation is now being laid, and the work will be pushed with energy.

Thomas Little & Son, contractors, will erect the great Clarke, Thomas & Co. factory at Twenty-third and Ritner streets, having received the contract on the 19th inst. The plans by John W. Windrim, 132 South Third street, have been fully described in this journal in a previous issue. The architect will supervise the construction.

A large number of new buildings throughout the city are in course of erection at various stages. The new Empire Theatre is now receiving its finishing touches prior to opening on the 29th inst., after which the Metropole Hotel project will be pushed forward, the foundations of which are ready for superstructure. The Iron Hall building, Broad street, above Arch, and the Betz building are both in progress, the permit for the latter having been granted on the 19th inst. to A. B. Rorke, contractor. At 1332 Chestnut street a new store is under way. Additions are being made to the Master Builders Exchange, on Seventh below Market street. Before the present month ends the great clothing house of A. B. Kirschbaum & Co., 726-28 Market street, will be commenced. All these have been noted in full in previous issues of this journal.

PHILADELPHIA, WED'Y, AUGUST 26, 1891.

*For the convenience of members of the Master Builders' Exchange, we have secured Box No. 199 at that place, where any communication for publication may be left.*

THE present system of changing the assessed value of suburban property from the suburban to the city rate for no other reason than that it has been recently purchased by some enterprising builder for building purposes is decidedly wrong, inasmuch as it imposes a burden upon those who justly merit the greatest consideration from our city officials. Any embarrassment as increased taxation upon the purchasers of property of this nature acts as an embargo upon building, as it materially increases the cost of carrying property for future development. It is certainly time enough to increase the assessment value of this kind of property after the streets have been opened and the necessary gas and water pipes have been laid, and not before.

So great have the abuses of the power of assessment become that the organization of Operative Builders is about making a forcible movement against it, for it is justly held by the members of that organization that a business interest of the large proportions theirs is should be free from these petty annoyances which in the aggregate swell into costly inflictions upon their enterprise and business energy. There must be some remedy for what seems to be a misinterpretation of the law, and the Board for the Revision of Taxes will no doubt correct all evils of this nature when properly appealed to.

THE State Board of Agriculture, through Secretary Edge, gives 4832 as the number of farms in Pennsylvania, the owners of which estimate their value at \$34,032.25, or \$7043.09 each. The collection of taxes on these farms amounts to \$295,984.75, or an average tax on each of \$61.55. It is claimed by Secretary Edge that great irregularities exist in assessments in both counties and townships.

THE fire losses in the United States for the week ending August 14 were \$1,628,000. The total amount of losses since January 1 was \$74,341,500. At this rate it is estimated that the loss for the year will exceed \$122,000,000.

**The Sunday "Record" on Top.**

The Philadelphia *Record* printed and sold 100,328 copies on Sunday last. This is high-water mark for the Sunday edition, which now bids fair to soon rival the daily issue of that journal. To express the range and influence of such an enormous edition, entering, as it does, into the confidence and sympathies of the majority of Philadelphia homes, is simply impossible. The fact is, the *Record* ranks among the very best of American journals, and its cost is within easy reach of everyone.

**Building and Real Estate Notes.**

Robert Buchanan, builder, 2025 North Twenty-second street, has started a large operation at Dauphin and Twenty-first streets, and will continue the work until he has covered a large tract of land owned by him. These houses are all press brick, stone facings and best of modern improvements.

A novel matter is at present being considered by the general contractors and others of this city, this being the first innovation of the kind made by the architectural fraternity, and likely to lead to considerable feeling. It seems that in the case of estimates being invited for the construction of the large hotel of Charles H. Vendig and others, at Twelfth and Market streets, and noted in our columns of this issue, the contractors have been requested to pay for blue prints of the plans upon which they have been invited to make estimates. This being such an unusual proceeding and departure from established practice of architects and owners, it is likely to cause much friction with the parties interested. It is also likely to be a question which will be brought before the master builders at their next meeting.

**Through Pennsylvania.**

Building plans, Department of the Interior Washington, July 21, 1891.—Plans and specifications for a United States penitentiary building to be erected on a tract of land near Grafton, N. D., are solicited and will be received at this Department until 1 o'clock P. M. Monday, Aug. 31, 1891, when they will be opened and considered. Plans submitted should provide for a structure of brick or stone, to contain at least 100 iron cells, with necessary bath rooms and proper accommodations for prison guards, etc., and include everything necessary for the completion thereof ready for occupancy except heating apparatus and furniture (such as stoves, ranges, tables, etc.) Plans must be accompanied by an estimate of the probable cost of the building under the design offered. No plan will be considered which contemplates the expenditure of a sum in excess of \$24,000. A reasonable compensation not exceeding 1 per cent. of the cost of the structure will be paid for the accepted plans. The Department reserves the right to reject any and all plans, and no payment whatever will be made for those rejected. Plans not accepted will be promptly returned. Packages should be plainly marked "Plans for United States Penitentiary, North Dakota," and be addressed to the Secretary of the Interior, Washington, D. C. George Chandler, Acting Secretary.

Competitions.—Plans and specifications are invited for the group of buildings of the Carnegie Library, to cost \$700,000. Drawings and specifications must be delivered at the office of Jas. B. Scott, President of Board of Trustees, No. 122 Second avenue, Pittsburgh, Pa., before noon on the first day of November, 1891. The competitor furnishing the designs adopted by the trustees will, if he desires, be employed to furnish the working and detail drawings and specifications, and to superintend the erection of the building, for which he will receive five per cent. on the cost of the building, except as noted below, said five per cent. to cover all expenses connected with the services usually rendered by an architect in a first-class building, including daily supervision of the work as it progresses, and in case of his inability to give constant supervision, the architect will employ a competent representative for such purpose at his own cost. The five per cent. commission shall not include the cost of work or materials outside of the architect's designs, and which he will not be called upon to design or supervise. To the competitors furnishing the six sets of drawings adjudged next in merit to the selected plans, the trustees will pay the sum of two thousand dollars (\$2000) each, it being understood that no one competitor will receive more than one premium. All rejected drawings, and those receiving the cash premiums,

\$5.00

INVESTED in a yearly subscription to this journal, if carefully read, and you  
are not too lazy to see the man who's going to build, will certainly prove the best invest-  
ment you ever made in your life. Thousands of dollars in profit have been made by  
those who caught on to this idea years ago. Your economy that prompted the sav-  
ing of five dollars per year by refusing to subscribe, has cost you many a cool hundred.  
Get aboard now Brother while the fruit is ripening and the "lucky fellows" are reaching  
out far and wide for trade, while you are sorrowing because it don't come your way.

**The Keystone Plaster Company's New Works at Chester, Pa.**

The introduction of a product embracing new ideas and improvements on old methods involves more labor than the average man is prepared to believe.

The "wonderful success" that marks the accepted good things of the Nineteenth Century, is seldom understood from the inventors' or the manufacturers' standpoint.

The element of worth is too often overshadowed by the meretricious methods of those who look upon the dear public as gullible fools who part with their money easy enough if properly humbugged to make the introduction of a valuable product which has nothing to commend it except its own lasting merits and the business character and integrity of those behind it an easy matter.

The merits of ADAMANT WALL PLASTER have never yet received any widespread heralding. Quietly and unostentatiously as the beginning was before the tide of public favor set upon it, its success was soon assured, inasmuch as duplicate and triplicate orders soon followed its introduction from even those who looked upon the newcomer with the largest measure of suspicion.

Of course this rapidly-increasing demand taxed the possibilities of the old Twenty-third Street factory until all hope of supplying the trade with the limited facilities and machinery at the command of the company at that time had to be abandoned. New works were needed large enough to meet the demand for Adamant, and capable of a much greater daily output.

Matters in relation to the new works were largely expedited by the destruction of the old factory by fire on June 27, 1891.

The new works are situated at the foot of Jeffrey Street, South Chester, Delaware Co., Pa., one mile from the P. W. & B. R. R. Co's depot, at Chester.

The site embraces about two acres, having a frontage on the Delaware River of 160 feet, with splendid water facilities deep enough for the largest vessels at the end of a substantial pier 200 feet long.

The importance of this water frontage can be better understood when it is stated that a large number of vessels are constantly engaged in the transportation of Gypsum rock from Nova Scotia and Cape Breton, besides large quantities of coarse beach sand from Cape May and other points along the coast. So great, indeed, are the requirements of the company for the raw material used in their products that machinery is now used, from the unloading of the vessels bringing the raw material all through the process of manufacture, until the bags containing a half-barrel each are tied and ready for delivery. The main building is 200 feet long by 65 feet wide. It is substantially built of brick and stone, and contains the machinery of the plant.

A Corliss engine of 150 horse-power, with a boiler of 160 horse-power, furnishes the power for the entire factory.

The storage sheds, 175 feet x 90 feet, are connected by a tramway with the end of the pier, where a hoisting engine does the work of unloading vessels into small cars, which are hauled with their contents to the storage sheds.

After drying in the sheds the rock is taken to what are known as nippers, where it is crushed. From these crushers the broken rock is conducted by elevators to the burr, or mill stones, which grind it as fine as flour. A spiral conveyor then takes it to an elevator which lifts it to the second story and to the calcining kettles. After undergoing a thorough cooking the product passes through a spout into a large cooling pit, constructed with sloping sides like a grain hopper. Here it is cooled by stirring, when it is again elevated to the second story, or mixing floor, which is 165 feet x 65 feet, where it is distributed into four cooling bins, each having a capacity for forty tons of material. After the cooling process has been completed the material is made to pass through bolting machines in the third story, the process of bolting being the same in every particular as that which the highest grades of flour receive in the best flour mills in this country. The material having been made ready for the mixers, it descends again to the mixing room, where, after the ingredients in their proper proportions have been added, it is fed to the hoppers of the mixing machines, which are on the first floor. These machines are ingeniously constructed apparatuses, consisting of contrary revolving shafts in a cylinder, the material passing from the hoppers into the cylinders every six minutes, the time allowed for the mixing of each hopper-full, the filling and mixing going on uninterruptedly, the contents of the hoppers dropping at once into the cylinder, the shute automatically closing, thus making the filling of the hoppers possible while the cylinders are in motion, without the loss of a single second of time. From the mixers the product passes through spouts into bags containing 140 pounds each, or a half-barrel; and it may be of interest to mention the fact that the company employ constantly over 80,000 bags for the transportation of Adamant. The bags filled with Adamant are carefully sewed after filling and weighing, and are then run by hand trucks into cars awaiting loading on the company's own side tracks, on Jeffrey Street. So nicely is the loading of cars regulated that in several instances a number of cars have been loaded and made ready for moving at an average time of thirty minutes each.

Besides Adamant, the company is now manufacturing in large quantities Calcined Plaster, Land Plaster and Plaster Boards. And it may surprise our readers when it is stated that this is the only Calcined Plaster plant on the Atlantic sea board, south of Staten Island. And it may be of further interest to learn that in the matter of freight charges alone the company expends \$125,000 annually, its shipments averaging five carloads daily. As no reference has been made as to the cost of the plant or the capacity of the works, we would state that the investment represents an expenditure of about \$150,000, including the cost of the land, the plant being capable of a steady yield of 1000 barrels of its various products daily.

The officers of the company are: President, William Gibson, Williamsport, Pa.; Vice-President and Gen'l Manager, J. O. Fender, Chester, Pa.; Treasurer, John C. Gibson, Williamsport, Pa.

The business offices of the company are as follows:

Main office and works, Chester, Pa.

Pittsburgh office, corner Greenough Street and Gas Alley.

Wilmington Del., 7 and 9 E. Water Street.

Philadelphia Local Agents, Jas. T. Allen & Son, 212 S. Tenth Street.

**Architects Notes.**

Plans remain on boards for estimates by contractors for the hospital addition to the Pennsylvania Institution for Feeble Minded Children, at Elwyn, near Media, Pa. Addison Hutton, architect, 400 Chestnut Street, made the drawings and will superintend work of construction.

Plans for the "Hotel Vendig," at Twelfth and Market Streets, northwest corner, are still on boards of general contractors for estimates. J. F. Stuckert, 524 Walnut Street, Philadelphia, is the architect who will be the supervisor of work. The contract will likely be awarded in a few days.

Joseph Anschutz, architect, 713 Filbert Street, Philadelphia, and supervisor for Board of Education, has on boards plans for an addition to be made to the Schuylkill School House, at Manayunk, and it is likely estimates will be asked at once, as all the measurements have been made and a decision that the work must be done arrived at.

Willis G. Hale, architect, 1524-6 Chestnut Street, Philadelphia, has in the course of preparations plans for the extension of the Hall Building, at Juniper and Sansom Street, to the line facing upon the latter thoroughfare. It is now owned by William Weightman, and the owner desires to make it a complete and model office building. The annex will be in style of architecture the same as the structure facing on Chestnut Street.

F. W. and W. L. Price, architects, 731 Walnut Street, Philadelphia, have completed all the plans for the house of Monroe Smith at Thirty-ninth and Chestnut Streets. The structure will be of stone and brick, three stories high, slate roof, electric work, plumbing and gas fitting, hard wood on interior, wood mantels, and all modern conveniences introduced. The contract has been awarded to J. S. and A. L. Pennock, 305 Walnut Street.

Isaac Pursell, architect, 119 South Fourth Street, has made new plans and specifications in lieu of those made some months ago for the erection of Calvary Baptist Church, Germantown. At that time the plans were intended for only an addition and alterations. It is now proposed to build an entirely new edifice. The drawings being complete, bids will be invited during the present or next week. It will be of stone, slate roof, one-story high and furnished with neat seating and pulpit furniture. All modern conveniences will be included in details, and cost will be about \$40,000.

PHILADELPHIA, WED'Y, SEPT. 2, 1891.

*For the convenience of members of the Master Builders' Exchange, we have secured Box No. 199 at that place, where any communication for publication may be left.*

FROM the hands of the Hon. Stephen Winslow proprietor, publisher and editor of "The Philadelphia Commercial List and Price Current," we are in receipt of a pamphlet containing the official returns of the National banks of Philadelphia and Camden on July 9th, 1891. Besides the bank statements the little book contains a list of the Philadelphia trust companies, with the names of the officers and directors; also, a compilation showing the present capital and surplus of the forty-three National banks authorized to do business in Philadelphia. The pamphlet is invaluable as a book of reference, and the fact that it is the work of the oldest Philadelphia journalist now living, whose ripe experience and years of arduous practical labors in the field of journalism is the best possible guarantee of its reliability and general correctness.

### Architect Notes.

A. F. Smith, architect, 27 N. Sixth Street, Reading, Pa., has made plans for a stone church and Sunday school for Reformed Church, at corner of Eleventh and Windsor Streets; contract let and in course of construction. It will be of White Hill stone, hard wood finish, heated with steam, and will have seats for 1000 people; will cost \$30,000. Also, plans have been made for a house for A. W. Hoff, Esq., to be erected on N. Fifth Street, to be of stone, stained glass, hard wood finish, steam heat, electric bells and furnished with best of modern conveniences throughout. Also, plans have been prepared for brick and stone residences for Dr. A. S. Reinback, N. Fourth Street, and Joseph S. Brustarr, Esq., on Woodward Street. Drawings by the same architect have been prepared for an addition to house of T. A. Wilson, corner Fourth and Washington Streets, and eleven houses, white stone fronts, to be erected on Mineral Spring Road for A. H. Kretz & Bros; all to be finished in first-class style.—Plans are upon boards for a new M. E. Church to be erected at corner of Ninth and Elm Streets, and a fine residence for I. F. Beyerle on Mineral Spring Road to have hot water, heat, hard wood on interior and finished with all modern conveniences.

### Building and Real Estate Notes.

M. B. Stackhouse, of Darby, Delaware Co., Pa., has the contract for the erection of a residence in West Philadelphia for William Miller.

Eugene Underhill, contractor, will at once erect an addition to the Y. M. C. A. Building at Broad and Federal Streets, to be of press brick, stone trimmings, and modern improvements. It is to be two story, 25 x 96 feet.

Geo. Ross, builder, 3606 Wharton Street, will erect twelve two-story houses on Renwick Street, south of Woodland Avenue, to be of press brick, stone trimmings, and modern improvements.

Geo. A. Fry, builder, 1205 Sansom Street, has been awarded the contract for the repairs and alterations to the Friends' Meeting House, on Twelfth above Chestnut Street, and will begin work at once.

Reinhardt Dempwolf, architect, York, Pa., has made plans for a hook and ladder house for that city, and which will cost \$4000 when completed. The structure will be erected by the city authorities.

J. S. Hagan, builder, 502 Walnut Street, is maturing plans for the erection of thirty-nine two-story houses at Second Street and Indiana Avenue, to be of brick, stone facing and best of modern improvements.

George B. Baner & Sons, trunk makers, Seventh and Cherry Streets, will alter to a great extent their factory at the above place by putting in all modern improvements and additional room for manufacturing purposes.

The First Baptist Church, at Thirty-sixth and Chestnut Streets, is about to erect a Sunday school, two-story high, 49 x 80 feet, to be of stone with slate roof, and furnished with school furniture and all modern conveniences.

Samuel Hart & Son, contractors, 1109 Fairmount Avenue, Philadelphia, are building an immense car shop and stables at Twentieth and Wharton streets. The structure will be 92 x 202 feet and two stories high, fitted with all modern conveniences.

The Philadelphia Club have just purchased the ground and house 921 Walnut Street, and will at an early day take measures to add this to No. 919, which they have owned for some years. Considerable attention and rebuilding will be done so as to make it a place of pleasure and genuine comfort.

After completion of the parochial house, now receiving its finishing touches, for St. Alphonsus Church R. C., at Fourth and Reed Streets, it is the intention of the clergy attached to erect a parish school adjoining the above-named structure, which will be furnished with all the accommodations of such institution.

The Property Committee of the Board of Education has awarded the contract to build the stone school house at Seventh and Dickinson Streets to Philip H. Somerset, 1513 N. Twelfth Street, for \$51,232. Also, the contract for building another at Frankford Avenue and Ontario Street to J. H. Jordan, builder, Twenty-third and Jefferson Streets, for \$55,000.

W. S. P. Shields, builder, 735 Walnut Street, has been awarded a contract to erect the stables, carpenter shop and repair rooms for the Ninth Ward Gas Works, located north of the Chestnut Street Bridge on the Schuylkill River. It will be a two-story structure of brick, stone and iron, and fitted with all modern conveniences. Work will be started at once.

John Schwarzman, 2712 Herman Street, has the contract to build for W. H. Allen fifty two story houses at Twenty-eighth and Clearfield Streets, and the brick work contract has been awarded to Grabo & Co., whose address cannot be found, but may be seen at the above location when operation begins. These are to be press brick, stone facings, and all modern conveniences. This operation was reported some months since as the work of C. B. Truitt.

W. T. B. Roberts, builder, Twenty-ninth and Thompson Streets, is about to make a short tour through the West and Canada, and after his return proposes to inaugurate quite a large operation of two and three-story houses in the neighborhood of Wolf, Ritner, Twelfth and Sixteenth Streets, upon the ground formerly known as Rising Sun Park, in the northern end of the city. These houses will all be in keeping with the former operations of this well-known builder.

The stockholders of the Twelfth Street Market, at a meeting on the 26th inst., resolved to accept the offer of \$400,000 for their part of the site upon which the new terminal depot will stand of the P. & R. R. This action upon their part concludes their purchases at this end of their line, the rest being considered of minor importance. It is not likely that a move will be made upon either of the market houses at the above location until the new one now in progress is ready for occupancy.

### Through Pennsylvania.

*When any of the following are not post office towns they will be so designated.*

—At Pottstown, Montgomery Co., there is some talk of erecting a market house.

—At Sayre, Bradford Co., the new school building will be two stories high and cost \$10,000.

—At Thornton, Delaware Co., the cellar walls of the new Methodist Church have been built.

—At Darby, Delaware Co., a number of cottages will be erected by Contractor Adam J. Gotshall, of Shamokin.

—At Bristol, Bucks Co., the mill of Messrs. Sherman & Price, which was recently destroyed by fire, will be rebuilt at once.

—At Bachmanville, Dauphin Co., Messrs. Myers & Gruber are now making arrangements for the erection of a creamery.

—At Morton, Delaware Co., William H. Jones will erect a dwelling on Walnut Street. William H. Carr, of Springfield, has the contract.

—At Gettysburg, Adams Co., the citizens are deeply interested in an electric railway which will be constructed at that place during the next year.

—At Royersford, Montgomery Co., John Tyson will erect a dwelling on a lot recently purchased on Church Street.

—At Marshallton, Chester Co., the old Methodist Church has been torn down to make room for the new church to be erected.

—At Bryn Mawr, Montgomery Co., ground has been broken for the erection of a residence at the Bryn Mawr College for Dr. Franklin H. Giddings.

—The Reading Railroad Co. is negotiating for the purchase of the right of way for an extension of a branch road from Oak Lane to Olney.

—At Connettsville, Crawford Co., the citizens have a movement on foot favoring the organization of a stock company to establish a canning factory.

—At Chester, Delaware Co., the Board of Trade will try to induce Messrs. Campbell & Elliott, of Philadelphia, to locate their mill at Chester.

—At Perkasié, Bucks Co., Frederick B. Hollenbach has purchased a building lot on Mill Street of Joseph G. Moyer upon which he will erect a dwelling.

—At Sadsbury, Chester Co., the School Board of West Sadsbury, at a recent meeting decided to make some improvements to three schools in the township.

—At Farentum, Allegheny Co., the Board of Trustees of the Farentum Camp-meeting has decided to erect a new auditorium to be ready for next year.

—At Oxford, Chester Co., the Oxford Land and Improvement Co. is engaged in laying out streets and staking out building lots on the lands recently purchased.

—At Scranton, Lackawanna Co., City Council has rejected all bids for the superstructure of Market Street bridge, as they were higher than the city engineer's estimate.

—At Pottsville, Schuylkill Co., the County Commissioners have awarded the contract to Mertha P. Quinn for \$6950 for grading the grounds around the court house.

—At Duquesne, Allegheny Co., the Allegheny Bessemer Steel Works will nearly double its capacity. Plans are being prepared for a large building to be erected in addition to the works.

—At Hughesville, Lycoming Co., the directors of the lately organized Electric Light and Power Co. are Chester E. Albright, Jr., Zellers Hite and Frank H. Cheyney, all of Philadelphia.

—At Braddock, Allegheny Co., All Saints Protestant Episcopal Church has been destroyed by fire. It was valued at \$16,000. The organs were also destroyed. Arrangements will be made for rebuilding.

—At Norristown, Montgomery Co., the street committee has awarded William G. Smith the contract for paving Main Street, between Swede and De Kalb Streets, for \$2.45 per square yard. The total paving will cost about \$9000.

—At Lancaster, Lancaster Co., the Water Committee has appointed Samuel M. Gray, of Providence, R. I., to examine and report on the advisability of the construction of a fifteen or a twenty million gallon reservoir at Lancaster.

—At Kennett Square, Chester Co., the trustees of the Second Baptist Church (colored) have purchased a lot 70 feet front on Willow Street, between State and Express Streets, of Lindley Chandler, and will soon commence the erection of a church thereon.

—The Pennsylvania Railroad Co. has awarded contracts for the erection of its new seven mile branch as follows: to Mr. Cushing, of Philadelphia, Pa.; to John Dyer, of Norristown, Pa.; to William McAdams and Joseph H. Gorman, of Pottsville, Pa.

—At Clifton Heights, Delaware Co., Jefferson Street, between Springfield Avenue and Penn Street, has been lowered five feet to conform to the grade of the latter streets. The embankments on either side have been terraced and the railroad company will macadamize the street.

—A petition, signed by numerous citizens, has been presented to the court asking for a jury of view to determine if a county bridge shall be erected over the Brandywine at Lenape. It is reported that a bridge will be asked for which shall span the flat and carry travelers safely over the flooded tract.

—At Ardmore, Montgomery Co., the Merion Title and Trust Co. has purchased a half acre of ground at the corner of Anderson and Lancaster Avenues for \$13,000, and will open an avenue through it to the Pennsylvania Railroad Station, making two corner lots, on one of which the Trust Co. will erect a handsome office building for its own use.

—At Rosemont Station, Montgomery Co., Messrs. Brown Bros. & Sims, contractors, have a force of workmen engaged preparing for the construction of an underground arch bridge, 24 x 105 feet, for the Pennsylvania Railroad Co. The plans for a new station have been submitted, which, it is reported, will be erected before long.

—At Harrisburg, Robert E. Ross and others have incorporated the Litchner Hat Co., of Philadelphia, with a capital stock of \$10,000. The Electric Light Co., of Lackawanna Co., has been authorized to increase its capital stock from \$10,000 to \$100,000. The Suburban Land Co., of Berks Co., has been authorized to increase its capital stock from \$10,000 to \$100,000.

—At Norristown, Montgomery Co., Messrs. Jury & Richardson will erect twenty-one dwellings on building lots recently purchased on Noble Street. The dwellings will be three-stories high, contain eight rooms and have front and back parlors and all modern improvements. Contractor John W. Spencer has commenced work on the erection of a large stable and shedding for the hotel property at DeKalb and Marshall Streets.

—At Nether Providence, Delaware Co., plans are being prepared for a new dwelling for H. M. Werz, to be erected on a lot adjoining the dwelling of his mother, on Providence Road. At a meeting of the tax-payers, held last week, Dr. White presided and stated the purpose of the meeting, which was for negotiating a loan for the purpose of immediately inaugurating a system of macadamizing the main roads of the township. All present favored the proposition. The township has about twenty-two miles of roadway, and it was thought a loan of about \$50,000 would be ample to thoroughly macadamize its chief highways. A committee of seven were named to further the plans.

—At Pittsburgh A. H. Lang has the contract for the erection of a three-story brick hotel, 25x70 feet, at No. 703 W. Carson Street, for Joseph Grinn. C. M. Bartberger will erect a two-story brick and frame to cost about \$12,000.

—J. M. Henderson will erect six two-story and attic frame dwellings for J. B. Hill. County commissioners are making an effort to pave the street around the court house with asphalt on account of the noise of the present paving during court. Charles Somers & Co. have sold the tract of land known as the John Logan property at Highland Park. The purchaser is John Fite, who will divide it into large lots upon which to erect handsome residences. Charles H. Chance has the contract for the erection of a two-story fire brick and stone mansard roof dwelling to cost \$25,000 for E. H. Myers. C. Evans will erect a two-story brick dwelling to cost \$9000. M. G. Frank & Co. will erect a two-story brick dwelling on Sweetbrier Street to cost about \$9000.

### Through New Jersey.

At Port Norris, Cumberland Co., a glass factory will be erected.

At Riverside, Burlington Co., Martin Beckler's shoe factory was destroyed by fire last week.

The residence of John J. Butler, at Sea Girt, was destroyed by fire last week, causing a loss of about \$16,000.

At Fairton, Cumberland Co., the glass works, which were destroyed by fire in July, are to be rebuilt.

At Haddonfield, Camden Co., a dwelling will be erected on Main Street, next to the property of A. C. Clement, for Mrs. J. Stokes Cole.

Plainfield, Union Co., Common Council, at a recent special meeting awarded the contract for the construction of several sewers to J. M. Low & Co.

At Trenton, Mercer Co., the corner stone of the new club house to be erected for the Catholic Young Men's Christian Association was laid last week.

At Cramer Hill, Camden Co., Mr. Schmid, a grocer, of Pavonia, has broken ground for the erection of a dwelling on Cooper Avenue, near River Road.

At May's Landing, Atlantic Co., about one hundred Italians are at work clearing the land recently purchased for the Jewish settlements to be started near that place.

At Long Branch, Monmouth Co., James Claughly & Son have been awarded a contract for the erection of two buildings for Simon Steinberger, each to cost \$6500.

At Woodbury, Gloucester Co., it is reported that \$30,000 has been subscribed for the construction of an electric railway from Woodbury, through Gloucester City to Camden.

At Gloucester City, Camden Co., Hamilton Brooks has purchased two lots on Broadway, opposite William Flinn's hotel. It is reported that Mr. Brooks will erect dwellings thereon.

At Collingswood, Camden Co., the plastering work in the Old Folks' Home is about completed. Contractor Davis will now commence the finishing of the building in way of mouldings, etc.

At Millville, Cumberland Co., the old church of the First Presbyterian congregation has been torn down, and work will soon commence on the erection of the new structure, which will be a handsome stone building.

Mr. George W. Babcock, of Plainfield, has three Loch Arbour building lots facing Deal Lake, on Edgewater avenue, and is preparing to erect a summer residence. Mr. J. F. Gaylard, of Catskill, N. Y., is arranging for the completion of his Loch Arbour summer villa on Lake Avenue.

At Madison, Morris Co., Henry Steadrath will erect a ten-room cottage from plans prepared by Architect C. Powell Kerr, of New York City and Newark, N. J. It will contain hard wood floor in hall, and wood mantels from original designs two rooms. A peculiar feature of the house is a double bed-room on double axial lines at right angles to each other.

At Ocean City, Cape May Co., R. R. Sooy has plans for a handsome structure. It is reported that the railroad engineers, owing to the trouble with the Townsend's Inlet bridge, have located another bridge at a point where future trouble caused by the currents will be avoided. It is reported that a hotel is to be erected and run on the co-operative plan. The shares of stock will be about \$250 each, and will entitle the shareholder to a room or suite of rooms which he may either occupy or rent. The kitchen, dining-room and parlor will be run by the company at cost.

At Atlantic City, Atlantic Co., two jetties are to be erected to protect the lighthouse. The Reading Railroad Co.'s iron pier has been damaged to the amount of about \$4000 by a vessel

being driven against it.—Captain J. Minot is now in possession of the corner lot at Third Avenue and Heck Street, and is talking of extending the Minot House out to the line so as to have a frontage on two streets and provide accommodations for more guests.—A new race track is to be constructed, to be located on the old fair grounds at Absecon, six miles from Atlantic City. The enterprise is in the hands of Messrs. Morley & Scarlett, of Philadelphia. There will be handsome club houses, fine stables, big paddocks, judges and grand stands with a capacity of holding 5000 people. The stabling quarters will accommodate 700 horses.

At Cape May, Cape May Co., at a meeting of the trustees of the Methodist Episcopal Church, held on Wednesday, the 26th, it was voted to erect a new church, to cost about \$12,000, and modify the old church to be used for chapel purposes.—Mr. Tracy, of the Lafayette Hotel, will fit up the hotel with all the modern steam heating appliances, and keep the house open the year round.—At a meeting of Quarterly Conference of the First M. E. Church congregation, held last week, it was decided to move the present church building to the back of the lot and alter it for Sunday-school purposes and erect a new church on the site of the old one. The new structure will be on the most improved plans. A building and finance committee were appointed and authorized to take immediate steps to proceed with the building this Fall.

At Camden at a meeting of the Street Committee of City Council held on Monday, August 24, the question of paving the following streets was laid over for two weeks: York Street; Delaware avenue, to Point Street; Point Street, Vine to Pearl; and Pearl Street, from Point to Trout Street; Carman Street, from Haddon Avenue to Eighth Street; Sixth Street, from Haddon Avenue to Mickel Street; and Mount Vernon Street, from Fourth to Broadway.—At a meeting of the Property Committee of the Board of Education, held on Wednesday, August 26, it was decided to advertise for proposals for grading and paving around the C. A. Bergen school property; also, for the erection of a seven feet high board fence in the rear and each side of said school building. They will also ask for bids for an iron fence in front of the building. See proposal in want column of this issue.

#### Through Delaware.

From the State appropriation, surplus and general fund, New Castle Co. will receive \$47,886.53, Kent Co. \$33,095.56, and Sussex Co. \$44,051.50 for school purposes.

At Wilmington it is reported that when the old post office building, at Sixth and King Streets, is sold by the Government that it is to be purchased by the city and turned into a first-class police station. Mayor Willey is in favor of the scheme.—The railway company's stables, at Front and Union Streets, were destroyed by fire last week, causing a loss of about \$5000.—At a recent meeting of the Street and Sewer Department, the secretary was instructed to ask for proposals for putting down a fire brick pavement on Eleventh street, from King street to the intersection of Eleventh Street with Delaware Avenue, near Jackson Street; on Jackson Street, from Delaware Avenue to Ninth Street; and on Adams Street, from Delaware Avenue to Seventh Streets; for which the total cost will be about \$30,000. Engineer Hatton presented plans for rebuilding the walls of the Slippery run sewer, at Second and Monroe Streets.—The contract for erecting an iron fence in the rear of the Wilmington and Brandywine Cemetery has been awarded to A. L. Smith Company, of 3045 Chestnut Street, Philadelphia.

At Middletown, New Castle Co., Nathaniel Williams has donated a lot of ground as the site for the new shirt factory. The structure will be 40 x 100 feet and give employment to one hundred and fifty hands.

At Delaware City, New Castle Co., a large creamery will be erected.

At Rehoboth, Sussex Co., a new Episcopal Church will be erected. Bishop Coleman, of the Episcopal Diocese of Delaware, can give further information.

At Dover, Kent Co., it is reported that a syndicate of Philadelphia capitalists have purchased Kitt's Hammock, the Delaware Bay resort, and will improve it and make it a popular watering place. Also, construct an electric railway to Dover.

At Milton, Sussex Co., the corner-stone of the new Methodist Church was laid last week.

#### Through Maryland.

At Baltimore the most important building permits issued to date are as follows: To Charles M. Wartman, to erect twenty-one two-story brick dwellings on west side of Druid Hill Avenue, north of North Avenue; to the Western Home Mission Society, to erect a two-story brick building on the north side of Easton Avenue, near Eden Street; to Ignatz Maretzke, to erect ten two-story brick dwellings on the east side of Luzerne Street, between Lancaster and Hudson Streets; to G. Y. Kingsmore, to erect three two-story frame dwellings on Brunswick street; to J. T. Carter, to erect two two-story brick dwellings; to F. McCardle, to erect two three-story brick dwellings at Nos. 502 and 504 N. Calvert Street; to Dr. T. Barron, to erect a brick office building at No. 1050 Argyle Avenue; to William J. Halliday, to erect a greenhouse at the corner of North and Slingluff Avenues; to Thomas E. Bond, to erect six three-story brick dwellings on the west side of Park Avenue, near Reservoir Street; to Henry Wessell, to erect four two-story brick dwellings on Hamburg Street and one two-story brick dwelling on Greendale Street, near Covington Street; to J. E. Warfield, to erect twenty-two two-story brick dwellings on the west side of Aiquith Street and nineteen two-story brick dwellings on the east side of Halbrook Street and six two-story brick dwellings on the north side of Hoffman Street, near Oliver Street.

At Hagerstown, Washington Co., as soon as the remaining one-third of the stock of the Hagerstown Investment Co. is subscribed for the company will give out a contract for the erection of fifty dwellings.

#### Washington, D. C.

In the Building Inspectors' office plans are being prepared for an addition to the workhouse for women's apartments, for the erection of which Congress appropriated \$25,000. The structure will be of brick, three stories high, and 35 x 100 feet.—Kirby & Brother have the contract for three three-story and basement brick dwellings, to be erected on Corcoran street, between Seventeenth and Eighteenth Streets, to cost about \$13,000.—John H. Nolan has the contract for a two-story dwelling, to cost about \$5000, T. F. Schneider, architect.—Contractor Peter McCartney will erect two dwellings at Nos. 315 and 317 Fifth Street, cost about \$10,000.—A permit has been granted to Captain Patrick O'Farrell for a two-story basement and attic brick dwelling, to be erected on Roanoke Street, Columbia Heights, to cost about \$18,000. Plans prepared by Architect N. R. Grimm, as before reported.—Architect A. P. Clark, Jr., has been engaged to make plans for a stone and brick church, to be erected at the northeast corner of North Capital and K streets; to cost about \$15,000. Rev. Mr. Cooks is the pastor.—Architect N. R. Grimm has prepared plans for a hall for the colored organization known as the Samaritans, to be erected on I Street, between Second and Third Streets. It will be three stories high, 60 x 122 feet, with flat front of select red brick, trimmed with Warsaw blue stone. It will have a slated truss roof, iron beams and columns and a steam heating plant. The cost of the structure will be about \$20,000.

—Architect N. T. Haller has plans for two English basement dwellings for H. C. Tyson.—Architect C. A. Didden has prepared plans for a dwelling to be erected on M Street, between Fourth and Fifth Streets, N. W., for C. G. Mueden.—The trustees of the Oak Hill Cemetery have authorized Architect James G. Hill to make plans for a mortuary chapel, to be erected adjoining the present chapel. The design provides for a stone and iron structure, one-story high, 28 x 32 feet, to be built into the edge of the hill. It will have a front of light-gray granite, backed with brick. Two sets of wrought iron doors will protect the entrance. The roof will be of brick arches, resting on iron beams, and will be covered with slate. The interior will be handsomely finished in veined Italian marble.

Competitions.—Plans and specifications are invited for the group of buildings of the Carnegie Library, to cost \$700,000. Drawings and specifications must be delivered at the office of Jas. B. Scott, President of Board of Trustees, No. 122 Second avenue, Pittsburgh, Pa., before noon on the first day of November, 1891. The competitor furnishing the designs adopted by the trustees will, if he desires, be employed to furnish the working and detail drawings and specifications, and to superintend the erection of the building, for which he will receive five per cent. on the cost of the building, except as noted below, said five per cent. to cover all expenses connected with the services usually rendered by an architect in a first-class building, including daily supervision of the work as it progresses, and in case of his inability to give constant supervision, the architect will employ a competent representative for such purpose at his own cost. The five per cent. commission shall not include the cost of work or materials outside of the architect's designs, and which he will not be called

upon to design or supervise. To the competitors furnishing the six sets of drawings adjudged next in merit to the selected plans, the trustees will pay the sum of two thousand dollars (\$2000) each, it being understood that no one competitor will receive more than one premium. All rejected drawings, and those receiving the cash premiums, will be returned to their authors within reasonable time after determination of successful competitor. Correspondence in connection with foregoing can be addressed to James B. Scott, President Board of Trustees, Pittsburgh, Pa.

# Fall & Winter 1891

During the present Fall and the coming Winter many of the readers of this journal will require furniture of some kind for their homes.

We have a few earnest words to say to you, as business men, whether you must buy a roomful or a house-ful, the spirit of which we respectfully ask you to impart to your wives and daughters, whose tastes and opinions it is always best to consult beforehand.

You, like every other sensible business man, have no money to waste on *sentiment*. Hard dollars are hard enough earned, and the purchasing power of every dollar is to you, at least, an important factor in your *art of buying*.

We are ready with the best stock of reliable furniture of all kinds ever brought together under a single roof in this city. It is fresh from the hands of the best makers whose goods are "*standard*" in every furniture house in this country.

We want your custom when you get ready to buy, and, if after having bought from us, you are not convinced that we have saved you from twenty to thirty per cent. on the prices you must pay elsewhere for furniture of the same character, we will cheerfully call the sale off and return your money.

Do you require, can you obtain, a fairer proposition from any furniture house in this city? We would be greatly pleased to have you visit our stores. All are welcome.

PHILADELPHIA, WED'Y, SEPT. 9, 1891.

*For the convenience of members of the Master Builders' Exchange, we have secured Box No. 199 at that place, where any communication for publication may be left.*

It is stated in real estate circles that the property 1346 Chestnut Street, south side, one door east of Broad street, 20 x 98 feet, has been sold for \$120,000, or \$6000 per foot on Chestnut Street. This is the largest price per foot ever paid for Chestnut Street property.

ARCHITECT MINERVA PARKER has joined the faculty of the Philadelphia School of Design for Women, having been appointed lecturer and instructor of Architecture and Historic Ornament. Miss Parker seems to be making her influence and ability felt along the whole line of her professional calling.

**Architects Notes.**

F. Miles Day, architect, 925 Chestnut Street, has completed plans for St. Paul's Episcopal Church to be erected at Lynchburg, Va., to be of stone and furnished with best of church furniture.

Addison Hutton, architect, 400 Chestnut Street, has made plans for alteration of store 1224 Chestnut Street, which includes exterior and interior work. Estimates are being made by invited contractors upon the work.

George T. Pearson, architect, 427 Walnut Street, has given the contract to Howard R. Yocum to erect the Talmage Memorial Church at Roxborough, and ground was broken on the 5th inst. The structure will be of faced stone and brick work, and will have a tower 75 feet high at Pechin and Rector Streets. It is to be fitted in comfortable style with new furniture.

Addison Hutton, architect, 400 Chestnut Street, prepared plans about one year ago for alterations and additions to the Pennsylvania Hospital, at Eighth, Ninth, Spruce and Pine Streets, and on the 31st of September they were approved by the Board of Managers of that institution. The work will now likely go on after bids have been made for construction. A full description appeared in notes of last year's volume of this journal.

P. A. Welsh, architect, 429 Walnut Street, has made plans for a factory to be erected by the McCaffrey File Co., at Fifth and Berks Streets. The structure will be three stories high, of brick, stone trimmings, elevator for freight, and all modern conveniences will be introduced. Contract to be let at once. Same architect has let to T. H. Doan & Son a contract for house at Thirty-eighth and Spring Garden Streets.

J. Elvin Jackson, architect, 804 Walnut Street, has made plans for alterations and additions to store property of M. S. Leopold, Sixth and South Streets. These consist of entirely remodeling the structure on interior and exterior. An artificial stone pavement will surround the building, a tower will be placed upon the corner, with Spanish tile work for roof. The structure will be four stories high, the first being an open front of glass and iron columns, while the upper floors will have considerable ornamental iron work and galvanized iron. The interior will have electric work and elevator service, as well as all modern conveniences. Plans are on boards at the architect's room for estimates by contractors.

A. W. Dilks, architect, 1001 Chestnut Street, has completed plans for the new Commonwealth Hotel, at Harrisburg, Pa., located on Market Square. These drawings contemplate the addition of eighty-five new rooms, a new and separate kitchen and plant for dynamo, steam boiler and engine room. The main structure will be five stories high and fitted with every device and convenience of a first-class hostelry, electric bells, steam heat, tiling, hardwood finish, lavatories and baths of most approved pattern, elevators and freight lift introduced. Work has commenced and will be pushed with vigor. The same architect has been engaged to draw plans for two handsome cottages to be built at Beach Haven, N. J.

W. C. Root, architect, Washington, D. C., has made elaborate plans for the erection of an immense six story building for the Washington and Georgetown Railroad Co., and to be known as the power house. It will contain all the offices of the company, as well as being fitted with steam and electric work. The structure will contain an elevator for passengers and freight lift as well; also lavatories, toilet rooms, private offices and conversation rooms. Material to be used in building will be stone, brick and iron principally. Plans are now on boards of a number of Philadelphia contractors for estimates. Officers of the above company are Henry Hurt, President; Daniel Bontecou, Consulting Engineer; W. B. Upton and D. S. Carll, Assistant Consulting Engineers.

Culver & Hudson, architects, Williamsport, Pa., have finished plans for an opera house to be built by the Lycoming Opera House Company at the above place. The structure is to be located at Third and Laurel Streets, and will be 69x208 feet in size and three stories high. It will have electric lights, steam heat, handsome decorations and seats for audience of 1500 people. The third floor will be fitted for society rooms, lodges, etc. Lavatories, toilet and anterooms will be placed in convenient positions, and the entire house fitted with all modern conveniences. Total cost will be about \$75,000, and will be a most valuable adjunct to the city. Work has been started under supervision

of the above-named architects, and Building Committee—Emanuel Andrews, Frederick Sweet, Charles Stearns and John L. Guinter.

A. S. Wagner, architect, Hays Building, Williamsport, Pa., has made plans for a very fine dwelling for Captain Henry L. Beck, of that city. To be of stone, brick and shingles, finish on first floor to be hard wood; to have wood mantels, grates, bath rooms, toilet rooms, electric appliances and all modern conveniences. Wide porches and odd projecting bays and oriels will ornament the exterior which, as a whole, will be a model of architectural beauty.—Also has in preparation extensive additions to the summer residence of ex-Congressman Henry F. Shoemaker, at McElhattan, Pa., exterior and roof to be cypress shingles left natural to bleach to a silver gray. Interior first floor to be hard wood, to have toilet rooms, bath rooms, etc., grand dining hall and stairway in panelled oak.—Has also made plans, perspective and preliminary sketches for a Catholic church to be erected later on at Sunbury, Pa., to be press brick, brownstone trimmings, slate roof, stained glass windows, altars, pews, etc. A more detailed notice will be given hereafter.—Has also made plans, details and specifications for St. Joseph's Church at Renovo, Pa., to be press brick, stone trimmings, slate roof, clock tower, grained and elaborated plaster ceiling, same to have main and side altars, hardwood pews, etc. Basement concreted and arranged for fairs and festivals, erection of which has been postponed until spring.—Has also prepared plans for a Swedish Lutheran church, at Renovo, Pa., to be of brick and stone, slate roof, centre tower and spire, Sunday-school in basement, floor of which will be concrete. Main auditorium finished in oak. Contract not yet let.—Has also made drawings for Orange County Court House, Fla., which has been let to a firm of Chicago contractors. (W. C. Green & Co.)

**Building and Real Estate Notes.**

Dr. Thomas Hunter, 1500 Wharton Street, is about to begin fifteen houses two-stories high on Bonsall Street, south of Federal, all to be of press brick, stone facings and fitted with all modern conveniences.

The Rev. F. H. Bushnell, Rector of P. E. Church of the Messiah, at Broad and Federal streets, is about erecting a parish house upon the corner adjoining the church. It will be three stories and fitted with all modern conveniences.

D. C. Schuler, builder, 2327 N. Sixth Street, will at once make excavations for seven dwellings three-stories, on east side of Seventh Street, north of York, all to be of press brick, stone trimmings and best of modern improvements.

A. H. Williams & Son, contractors, 402 Tenor place, have broken ground for the Park Avenue Methodist Episcopal Parsonage adjoining the church, Park Avenue and Norris Street, fully described in a former number of this journal.

James B. Carey, builder, 3806 North Broad Street, will at once build twenty-three two story houses on Somerville, west of Twenty-sixth street. These are to be of press brick, stone trimmings and best of modern conveniences.

THE FOLLOWING TABLE shows the building operations in the respective Wards for the weeks in August of 1891 for which permits were granted WEEKS ENDING SATURDAYS 1st, 8th, 15th, 22d and 29th.

The Public Buildings Commission, at their last meeting on the 1st inst., resolved to ask for \$2,000,000 as the amount necessary for the work on that structure next year. An ordinance will be prepared asking that amount of City Councils.

Queen & Co., oculists and opticians, 924 Chestnut street, intend to fit up a new place of business at 1010 Chestnut street at an early day. The structure will be fitted with steam and electric power and light, as well as all modern conveniences.

The residences from 722 to 730 McKean Street are all to have the rear additions of large kitchens. The back buildings will be of uniform size, measuring 10 feet front by 12 feet deep, all being of frame construction. The firm of Hayes & Mendenhall, contractors, 4017 Wallace Street, will superintend the work.

The Atlantic Sugar Refining Co., Harrison, Frazier & Co., located on Almond Street, east of Front, extending to Delaware Avenue and Bainbridge Street, has purchased all the property on south side of Almond Street and extending to Swanson Street for the purpose of extending their already immense plant to greater proportions. This will include new buildings, machinery, etc.

Grading has been started upon the site to be occupied by the Second Regiment, National Guard of Penna., at Broad and Diamond Streets, and the building will be pushed forward to completion as fast as possible. It is now proposed to lay the corner-stone by December 11th of this year, the fifty-first anniversary of the organization. We have fully described this structure in a former edition of this journal.

Work is progressing on the Powers' Memorial Hospital at Chestnut Hill. This building is being erected by the widow of the late Mr. Powers, of the firm of Powers & Weightman, as a monument to his memory. Wm. C. Mackie is the contractor, and the plans were drawn by Furness, Evans & Co., 209 South Third Street, who supervise the work of erection. Steam heat, electric work and all modern improvements will be introduced.

James Mole, contractor, 1718 Cayuga Street, will shortly commence six two-story brick houses on the south side of Wayne Street, west of Cayuga. The dimensions of all the dwellings will be 14 feet front by 38 feet deep. The ground floor of one will be enlarged to suit store purposes. The best quality press brick, perfectly plain, will be used in the construction, and the interiors will all be furnished with modern conveniences.

William J. Scott, owner and builder, 1420 South Forty-seventh Street, intends the early erection of six handsome two-story brick houses on the west side of Wishart Street, south of Jasper. One of the buildings will be fitted up as a store

room, the dimensions being 13 feet front by 40 feet deep. The measurements of the remaining five will be 12 feet front by 28 feet deep. All modern conveniences are to be introduced in these dwellings.

The Property Committee of Board of Education will ask City Councils to condemn three adjoining properties to Spring Garden Hall for purposes of building the new Normal School now being projected.—P. H. Somerset, the contractor to whom the work of building the new school at Seventh and Dickinson streets was awarded, has notified the Board of Education that his bid was \$10,000 short, and the work could not be done; it was therefore resolved to readvertise for new bids at once.

It is definitely fixed upon by the Pennsylvania Railroad to erect an immense office building at Broad and Market Streets, which will accommodate all their departments now located upon Fourth below Walnut Street. This is contingent, however, on the experiment now being tried in their New Jersey City depot, as to vibration when trains are moving through the lower floors, and if no inconvenience is noticed plans will at once be adopted to construct a building extending from Broad to Fifteenth and Market to Filbert Streets.

The commission appointed by the Secretary of the Treasury to select a site for the new Mint at Philadelphia has agreed upon a location, although it has not yet submitted a report. The Director of the Mint, E. O. Leech, who is the only person except the members who know the site selected, does not consider it to the interests of the Government to make that information public. Mr. Leech said to a correspondent that the site agreed upon by the commission will undoubtedly be adopted by himself and the Secretary of the Treasury, and an estimate of its cost be made in the department's estimates of appropriations required at the next session of Congress.

**Fall & Winter 1891**

During the present Fall and the coming Winter many of the readers of this journal will require furniture of some kind for their homes.

We have a few earnest words to say to you, as business men, whether you must buy a roomful or a houseful, the spirit of which we respectfully ask you to impart to your wives and daughters, whose tastes and opinions it is always best to consult beforehand.

You, like every other sensible business man, have no money to waste on sentiment. Hard dollars are hard enough earned, and the purchasing power of every dollar is to you, at least, an important factor in your art of buying.

We are ready with the best stock of reliable furniture of all kinds ever brought together under a single roof in this city. It is fresh from the hands of the best makers whose goods are "standard" in every furniture house in this country.

We want your custom when you get ready to buy, and, if after having bought from us, you are not convinced that we have saved you from twenty to thirty per cent. on the prices you must pay elsewhere for furniture of the same character, we will cheerfully call the sale off and return your money.

Do you require, can you obtain, a fairer proposition from any furniture house in this city? We would be greatly pleased to have you visit our stores. All are welcome.

At Camden, the contract for the erection of Messrs. Sitley & Sons grain elevator, has been awarded to Elwood Thompson, of Philadelphia.—Isadore Green will erect a brick dwelling.—Proposals are wanted until September 14th for street paving.—W. J. Aitken, builder, will erect a residence at No. 314 Linden Street which will contain fourteen rooms and cost about \$10,000. It will be of brick and brown stone. Its dimensions will be 21x60 feet, and contain all modern improvements.—Leonard Moore and others have incorporated the Home Building Co. with a capital stock of \$100,000.—An ordinance has been passed by City Council to pave Vine Street, from Fourth to Fifth Streets; Line Street, between Sixth and Seventh Streets; and Elm Street, between Point and Second Streets.

### Through Delaware.

At Leipsic, Kent Co., the corner-stone for the erection of the new Methodist Episcopal Church will be laid on Sunday, September 13th.

At Wilmington, John B. Johnson has been awarded the contract for the erection of a new building at No. 307 King Street for E. B. Frazer. Louis R. Springer is the architect.—Contractor Reed has about finished his contract for the foundation of the new post office building.—The walls of the new Equitable building at Ninth and Market streets have reached the second floor.—The owner of the property Nos. 715 and 717, where it was intended to erect the new Catholic hall, have sold property No. 715 King street to the trustees of the Central Presbyterian Church for \$12,400. This leaves only 20 feet front for the hall.—Many sites are proposed for the erection of the new bridge over the Brandywine. The Levey Court will consider all sites before building. The court has in hand plans for several different structures. The general opinion seems to be in favor of a double decked bridge, which would cost about \$100,000. A petition containing 2200 names has been presented to the Levey Court asking that the bridge be located at Washington street.

At Dover, Kent Co., bids were received last week for the work at the new colored college. The prices bid were much higher than was expected, H. S. Christie, of Wilmington, being the lowest bidder. It was decided to erect the house, college and work-house, providing the contractor agreed to erect part of the buildings at the price bid. The president's house will not be erected at present. Architect Springer has been instructed to make a few alterations in the plans of the new buildings.—Architect E. L. Rice is preparing plans for the erection of the Episcopal Church at Cape Henlopen City.

### Through Maryland.

At Baltimore the most important building permits issued to date are as follow: To August Degenhard to erect four two-story brick dwellings; to George Plitt to erect eight two-story brick dwellings; to John H. Batler to erect three two-story brick dwellings; to James B. Wheeler to erect three two-story brick dwellings; to Jacob Heath to erect two two-story brick dwellings; to J. C. and G. A. Davis to erect two two-story brick dwellings; to St. Mary's P. E. Church congregation to erect a three-story stone and frame

parsonage on Roland Avenue, near Cold Spring Lane; to M. E. Dougherty to erect three two-story brick dwellings; to S. D. Price to erect nine three-story brick dwellings.—George Bunnecke & Son has the contract for the erection of the six-story warehouse on lots Nos. 108 and 110 S. Sharp Street for John J. Thomson from plans prepared by Architect Jackson C. Gott, as before reported.—Contractor John Haswell has commenced work on the 24x60 feet frame addition to the Samuel Ready Orphan Asylum on E. North Avenue. It will be two stories and mansard roof.

### Washington, D. C.

Plans have been prepared by Architect J. G. Myers for a three-story basement and attic structure, to be erected on New Hampshire Avenue and Sunderland Place. Dimensions, 67 x 110 feet. To be built of rock-face Hummelstown brown stone, slate roof, steam-heating, hard wood finish, tile floors, electric bells and lighting. A conservatory, constructed of copper, wood and glass, will be attached to and form part of the house. Cost about \$75,000.—The contract for a dwelling for H. C. Nevins, at 1708 Massachusetts Avenue, N. W., has been awarded to John S. Larcombe. To be built of press brick and brown stone, with copper cornice and tile roof. Four stories high. Dimensions, 43 x 84 feet. Modern interior. Cost \$40,000. Architect H. L. Page has prepared the plans.—The hotel property of J. Chamberlin, at Fifteenth and I Streets, N. W., will be remodeled and enlarged. A new four-story structure is contemplated. Pressed brick, with stone and terra cotta trimmings, tile roof and copper bays, electric lighting and steam heat. Cost \$10,000. Architect W. G. Hale, of Philadelphia, has prepared plans.—A new school and chapel building will be erected on Eleventh Street, between I and K Streets, N. W. Rev. J. G. Dulancy, pastor.—Jacob Jones, contractor, will erect a residence for himself at 926 G Street.—Architect A. P. Clark, Jr., will shortly open bids for the construction of the Eastern Presbyterian Church, at Sixth Street, and Maryland Avenue, N. E. The same architect has drawn plans for three dwellings for Daniel Birtwell. F. G. Obold has the contract.—Architect N. T. Haller has prepared plans for a dwelling on Elm Street, Le Droit Park.—Chas. Volland, contractor, will erect two dwellings at 1223 First Street, N. W.—S. S. Daish & Son will construct a dwelling at 118 Fourth Street.—Francis Leonard will build a number of dwellings on H Street, between First and Second Streets.—Seven small dwellings will be constructed by Geo. R. Arrington on Trinidad Avenue, Long Meadows.—An addition will shortly be added to Wicker's Hotel, at 725 Fifteenth Street.—The National Zoological Park will shortly construct three new animal dens from plans prepared by Architect Glenn Brown. They will be constructed of stone and have tile roofs. The same architect has plans on boards for two stone and wooden bridges.—The Builders' Exchange will shortly commence the improvements to their building. The exhibition hall on the first story will be newly fitted with combination gas and electric light fixtures and steam heating radiators; also, to be refloored. The hall on the second floor will be provided with opera chairs, thoroughly renovated and fitted up for general meeting purposes. It has a seating capacity of 800. The improvements will cost about \$8000.

Post Office, Court House, &c., building at Baltimore, Md., until 12 M., on the 22d day of September, 1891, for all labor and materials required to fit up a prisoners' room in the fourth story of the above named building, in accordance with the drawing and specification, copies of which may be had on application at this office, or the office of the supervising architect, Treasury Department, Washington, D. C. Each bid must be accompanied by a certified check for a sum not less than 2 per cent. of the amount of the proposal. The department will reject all bids received after the time herein stated for opening the same; also bids which do not comply strictly with all the requirements of this invitation. Proposals must be enclosed in envelopes, sealed and marked, "Proposals for fitting up a prisoners' room in the U. S. Post Office, Court House, &c., building, Baltimore, Md.," and addressed to W. W. Johnson, Custodian.

Sealed proposals will be received by the Property Committee of the Board of Education, at the office of the secretary, Broadway School House, until 7.30 o'clock P. M., Monday, September 15th, for the following: A seven-foot white pine board fence, with cedar posts, at the rear and sides of lot on which the C. A. Bergen School is erected, on Mount Vernon Street below Fifth. Fence to have 2 x 4 rails and No. 2 fence boards; posts to be set in stone base. Also for grading and paving around C. A. Bergen School Building. Work to be done with best Philadelphia paving brick. Bids to specify the amount per 1000 bricks. Also for a stone wall three feet high and twelve inches thick on west side of lot. Also for an iron fence in front of building. The committee reserves the right to reject any or all bids. Each bid to be plainly marked "Bids for work at C. A. Bergen School." Any desired information can be obtained by applying to Fred W. George, Chairman Property Committee, Broadway and Mt. Vernon Street, Camden, N. J.

W. J. Edbrooke, Supervising Architect Treasury Department, Washington, D. C., wants proposals until September 15th for all the labor and materials required for new sidewalks and repairs to areas at the U. S. Court-House, at St. Louis, Mo. Also, until September 24th for all the labor and materials required for certain miscellaneous repairs and decorative painting to the U. S. Court-House at Charleston, S. C. Also, until September 28th, for all the labor and materials required for iron stairs, iron work, etc., of elevator shaft for the U. S. Court-House and Post Office Building at Denver, Col. Also, until September 21st, for furnishing and erecting, complete, one electric passenger and freight elevator in the U. S. Court House, at Wheeling, W. Va. Also, until September 29th, proposals for all the labor and materials required for the approaches to the U. S. Court House, at Chattanooga, Tenn. Also, until September 25th, all the labor and materials required for the

U. S. Court House and Post-office Building at Slatesville, N. C.

Sealed proposals will be received by the Committee on Property, at the office of the Board of Public Education, 713 Filbert street, Philadelphia, until 3 o'clock P. M., Tuesday, September 15, 1891, for the erection of new public school houses at the following locations, viz.; First Section—Dickinson street, below Seventh Street. Twenty-fourth Section—Jefferson, west of Forty-second street. And for the following repairs: Twenty-fourth Section—New Fence and Iron Railing, Belmont School; Storm Doors, Haverford School. Said work to be done in accordance with the plans and specifications of the Architect and Supervisor of School Buildings, to be seen at the office of the Board, between the hours of 2 and 4 P. M. All bids must be upon blanks and enclosed in envelopes for this purpose. No bid of \$500 or over will be considered unless accompanied by a certificate from the City Solicitor that the provisions of ordinance approved May 25, 1860, have been complied with. The Committee reserve the right to reject any or all bids, and also to require security for the faithful performance of any work, as they may deem necessary. By order of the Committee on Property. H. W. Halliwell, Secretary.

Department of Public Works, Bureau of Surveys, office, 418 City Hall. Sealed proposals, indorsed "Bids for Bridges," "Main Sewers," "Branch Sewers," and "Footway Drainage," and addressed to the undersigned, at the office above mentioned, will be received, until 12 o'clock noon, on Tuesday, September 15, 1891, for: 1. Masonry bridge on Norristown Branch of Philadelphia and Reading Railroad, over Penn Street. 2. Bridge on Kensington Avenue, over Frankford Creek; superstructure all iron, or all steel. 3. Main sewers. 4. Branch sewers. 5. For labor and materials necessary in draining objectionable footway gutters during the year 1891. Specifications and blank forms upon which bids must be made will be furnished upon application by the Chief Engineer and Surveyor. Bidders must be skilled and regularly engaged in the class of work bid for. No bid will be considered unless accompanied by a certificate from the City Solicitor that the provisions of an ordinance requiring proposal bonds when the bids exceed in amount five hundred dollars, approved May 25, 1860 (p. 81 West), have been complied with. The Director reserves to himself the right to reject any or all bids as he may deem best for the interests of the city. James H. Windrim, Director.

**OPINIONS OF THE PRESS.**

[From the Northwestern Architect.]

MINNEAPOLIS, MINN.

"As is compatible with this progressive period, even wall plaster has succumbed to inventive genius, and 'the day is nearly done' when our handsomely decorated walls and ceilings shall be ruined by reason of the utter unreliability of the old style mortar. To meet this demand for a non-porous plaster, Adamant has appeared on the market, and is now being manufactured in nearly every State in the Union."

[From the Scientific American.]

"Some of the advantages Adamant possesses above the other plaster is the extreme hardness of the wall. It will neither crack nor crumble. It is a strong support to a building. It does not swell timbers by an absorption of the moisture, as the material itself absorbs most of it. It dries so quickly after it is applied to the wall, that in a few hours frost will have no effect on it. We are convinced that this Adamant is destined to revolutionize the business of house plastering."

[From the Baltimore Commercial.]

"Adamant makes a wall as hard as marble, at a slight cost."

[From the Leader and Herald.]

CLEVELAND, O., March 22, 1889.

"The problem has been to provide a substitute that would not only produce a perfect wall, but be comparatively cheap and easily applied as well. Repeated tests, under the most exacting conditions, clearly prove that such a happy combination has at last been secured in the plastering material called 'Adamant,' now being so extensively introduced in this city."

[From the Builder, Decorator and Wood-Worker.]

PHILADELPHIA, PA.

"Nothing in house building has so long withstood the 'march of improvement,' notwithstanding it has failed to give a substantial wall, while many houses become defaced and old in a few months on account of broken walls and ceilings. 'Adamant' obviates all this, and is the coming plaster."

[From the New York Commercial News.]

"There is not the least doubt about 'Adamant' wall plaster will last as long as the building upon which it is used."

PHILADELPHIA, WED'Y, SEPT. 16, 1891.

*For the convenience of members of the Master Builders' Exchange, we have secured Box No. 199 at that place, where any communication for publication may be left.*

DAVIS' Architects and Builders Directory of this city for 1892 is to be improved in many respects with the view of making it even more useful than ever before. Mr. James T. Davis is now making a personal canvass for advertisements and data, and the success of the directory for next year is already assured. James T. Davis & Co. are the publishers. Office, Master Builders' Exchange.

It seems a travesty upon municipal management that 3000 of our boys and girls are to be shut out from school, notwithstanding the many millions of dollars that have been annually expended to run the city. A liberal amount of the eighteen millions to be raised by taxation next year should be set aside for new school houses. According to the "Philadelphia Record," the First, Nineteenth, Twenty-fifth, Twenty-sixth and the Twenty-ninth are the most crowded sections in the city, and the rejections for the want of room are simply enormous.

**Architects Notes.**

Geissinger & Hales, architects and contractors, 1200 Chestnut Street, are to begin the erection of a large factory Lawrence, north of Lehigh avenue, to be two stories high and 58 x 500 in dimensions. The structure will be fitted with steam, electric light and all modern conveniences.

Metter Bros., architects, 819 Marshall Street, Philadelphia, have completed plans for considerable alterations to Odd Fellows Hall, Third and Brown Streets. Among these will be a new front and a number of additional rooms, ante-rooms and various minor conveniences not now in the structure. Work will likely be started at an early day.

Minerva Parker, 14 S. Broad Street, has been engaged to draw plans for the erection of a new macaroni factory at Seventh and Marriott Streets. The structure will be five-stories high,

and fitted with all modern improvements and machinery adapted to the purposes. A freight elevator, electric work and steam power will be placed. The above is the property of Razzio & Guaneo.

Frank R. Watson, architect, 518 Walnut Street, Philadelphia, having completed all the plans for the Centenary M. E. Church, of Camden, N. J., will at once place them on boards for estimates. They are very ornate, displaying a fine stone structure, with tower of same material, stained and plate glass windows and best of church furniture. All modern improvements will be introduced for lighting and heating the edifice.

Yarnall & Goforth, 14 S. Broad Street, have completed plans for a residence for M. E. Ingalls, President of the Chesapeake and Ohio Railroad, at Hot Sulphur Springs, Va. To be stone and frame, three stories high. First floor will be in hard wood, and of fine workmanship. Four bath and toilet rooms, besides lavatories in all parts of the structure, electric bells and light throughout, and all modern improvements. It will be colonial in design.

J. Elvin Jackson, architect, 804 Walnut Street, Philadelphia, as noted in our last issue, placed upon boards for estimates the completed plans for a new four-story building at southeast corner Sixth and South Streets for M. S. Leopold, all estimates made having been declared off on account of being beyond the limit of money to be expended. New ones are being offered without any modification of the drawings as made originally. Mr. Jackson is at present quite busy upon drawings preliminary and otherwise for the coming season of the fall months.

Otto Wolf, architect, 1345 Arch Street, has made plans for an office building, to be erected at Second Street and Girard Avenue for the owner, Christian Schmidt. It will be erected of Indiana stone and brick, with iron beams and columns, and first floor will be fitted for banking purposes. The front will be ornamental in design, interior fitted with vaults for safes, electric work, steam heat, spiral iron stairs. Stained glass will be used in some of the smaller windows and plate glass in the larger ones. All modern conveniences will be introduced. The ice manufactory in rear of the office building, and owned by the same person as the above building, will be greatly altered, and have new boilers and machinery added. Estimates are being made upon the work.

A meeting of the Executive Committee of the World's Fair Commission was held on the 9th inst., and it was decided to authorize the Executive Commissioner, when elected, to advertise for plans and specifications for the Pennsylvania buildings in Chicago. It was decided also to offer a prize of \$1000 for the best plans: \$500 for the second best, and \$300 for the third; the plans submitted to be the property of the committee. The report of the sub-committee, which visited Chicago, was read and accepted. It contained recommendations regarding dimensions of building site and other particulars. When the Commission was called to order the report of the Executive Committee was submitted by Benjamin

Whitman, the chairman, and ordered filed. The report suggested that the first and most important business is the exciting of public interest in the Fair. The site chosen for the Pennsylvania buildings is convenient to the railroad centres at the northeast corner of Fifty-seventh Street and Park Drive, adjoining the New York and Connecticut buildings. The buildings proposed to be erected are to cost not more than \$75,000, and to occupy from 6000 to 7000 square feet. Messrs. Farquhar, Bradley and Guffey were appointed an auditing committee.

**Building and Real Estate Notes.**

John C. Haines, 4804 Penn Street, will build two fine houses on east side of Foulkrod, southeast of Large Street. These will be of brick, with ornate fronts and all modern conveniences inside.

J. J. Cassidy, builder, Moyamensing Avenue and McKean Street, will at once erect fifteen two-story houses on McKean Street, East of Moyamensing Avenue. All to be of brick, stone facings and modern conveniences.

The Convent of the Sacred Heart, at Torresdale, is erecting a large water tank, boiler-house and other machinery, for supplying the convent with water. Thomas Reilly, 2152 Ridge Avenue, is the contractor for all the work.

Robert Kilbough, builder, 1207 S. Twenty-first Street, is about to start an operation of twenty-three fine three-story houses on north side of Wolf, west of Fourth Street. All will be of press brick, with stone facings and modern improvements.

Alexander Cougan, builder, 2123 Tasker Street, will at once begin the erection of twenty-eight dwellings on Wolf, east of Fifth Street. All to be of press brick, stone trimmings and best of modern conveniences. Size of each will be 14x 38 feet.

Henry Frorer, carpenter, 825 North Twentieth Street, has received a contract to erect a handsome country house at Villa Nova for Dr. Da Costa, a full description of which has been given in architectural notes of this journal in a former number.

J. E. and A. L. Pennock, 305 Walnut Street, have been awarded the contract for the erection of the Power House for the W. & G. R. R. at Washington, D. C., for \$299,787, with an additional \$3000 for temporary roof, making in all \$302,787.

An operation of twenty dwellings will be at once erected by James Lilley, owner, 1222 Snyder Avenue, upon a number of lots south side of Jackson, east of Fourth. These are to be of press brick, stone trimmings, and modern conveniences.

W. J. Gruhler, contractor, 46 Herman Street, Germantown, has a contract to erect at once an amusement hall on south side of Haines Street, East of Germantown avenue. It is to be one-story high, of brick, stone trimmings, 55 x 75 feet in dimensions.

Porter Thompson, contractor, 2037 Filbert Street, will at once start the erection of a large livery stable on north side of Brandywine, west of Broad Street. It will be 30x75 feet, and the latest and most approved improvements in stabling be introduced.

L. P. Simpson, builder, Nineteenth and Wharton Streets, will erect thirteen two-story houses on east side Sixteenth, south of Mifflin Street, and six more of the same kind on the west side. All to be of press brick, with stone facings and best of modern conveniences.

James M. Seabury, builder, 802 Preston Street, will at once break ground for forty-eight two-story dwellings in the vicinity of Viola, Columbia Avenue and Fifty-second Street. These will be of press brick, ornate fronts with stone trimmings, and best of modern conveniences.

George F. Payne & Co., contractors, 401 South Juniper Street, have received the contract to erect the new store of A. B. Kirschbaum, at 726, 728 Market Street. It will be remembered the plans for this structure were prepared by Frank R. Watson, architect, 518 Walnut Street, and who will supervise the work of construction.

The work of building the new bath house at Ninth and Mifflin Streets will now be commenced, as all questions concerning the matter have been settled between the Department of Safety and that of Public Works. Excavation for the pool will be begun at once. A full description of structure was given in a previous edition of this journal.

Quite a large stable addition is being made by the proprietors of the Tatterstalls stables and salesroom at Twentieth and Market Streets. These will run along the line of Barker Street between Twentieth and Twenty-first Streets, and the work is being done by B. Ketcham & Son, 1029 Brown Street. Ground has been broken for the structure.

The great freight sheds and offices of the Philadelphia and Reading Railroad, at Front and Willow Streets, are now progressing. These will be 46½ x 241 feet. The structures will be of brick, with red mortar, one story high. Cofrode & Evans are the contractors in general. G. N. Leister of the P. and R. is the supervisor on behalf of the road.

Mr. Samuel McIlvaine, builder, 1345 Arch Street, will build during the fall season about twenty-one two and three story houses on Joyce and Tioga Streets, adjoining his former operations. They will all be press brick, stone facings and best of modern improvements. These houses are on a line with the projected elevated railroad and in a choice location.

Post No. 2, Grand Army of the Republic, have purchased the Church of the Disciples of Christ, on Twelfth Street, near Melon, for \$15,000. It is proposed to at once take measures to alter the structure so as to adapt it to the uses of a club building as well as for society purposes. A committee for this purpose has been appointed, to whom any communications can be addressed for the present at old hall, Thirteenth and Spring Garden Streets.

George C. Thomas and wife, jointly, will erect a fine parish building for the P. E. Chapel of the Holy Communion, at Twenty-seventh and Wharton Streets, in memory of J. B. Moorehead and John W. Thomas, the fathers of each of the donors. They propose to erect such a structure as will accommodate Sunday-school and Bible classes, gymnasium and kitchen, as well as other minor rooms. Mr. Thomas is the Superintendent of the Sabbath-school of the P. E. Church of the Holy Apostles. In connection with the above work the congregation will in the near future make some alteration and addition to the chapel.

Certain city officials and others interested in land development formed the North Twelfth Street Land Association last June, and, being

incorporated in July, put on the market a number of building lots, embraced in 43 acres of ground, formerly belonging to the Whitman estate, between Twelfth and Broad Streets and Godfrey and Sixty-fifth Avenues, in the Twenty-second Ward. The tract is between Fern Rock and Logan Stations, on the New York Division of the Philadelphia and Reading Railroad. Up to the present time, it is reported, 175 lots have been sold, mostly at the rate of \$10 per month. The officers of the association are Frederick Wagner, President; Dr. J. B. Mayer, Treasurer; and A. Lincoln English, Secretary. Among the directors are Naval Officer Powers, Deputy Coroner Dugan, Albert Webster, John B. Lukens, Edward Froesch, John S. Kelly and E. Lawrence Fell.

A matter of general interest to all contractors and those interested in making estimates and among builders generally, is a letter which has been received by Stacy Reeves, the contractor, written by William H. Sayward, the secretary of the National Association of Builders, and which has been posted in a conspicuous place in the Builders' Exchange, Seventh Street, below Market. The matter spoken of in the communication establishes a valuable precedent in all cases concerning the invitation for building bids and the award of contracts to the lowest bidder. It is of consequent interest to the building fraternity in general. The facts of the case are briefly as follows: Suit was recently brought by a Boston firm, MacNeill & Bros., against the Chamber of Commerce of that city for \$14,500 damages. The firm was one of the invited bidders on a contract to be awarded by the Chamber of Commerce, and submitted the lowest estimate by several hundred dollars. In the face of this fact the contract was not awarded to MacNeill & Bros., but was given to one of the highest bidders, who possessed some political influence. The suit was therefore brought, and in the lower courts the damages were granted the firm. The judge of the court, however, uncertain as to the right of the committee of the chamber to make the award, carried the case to the Supreme Court of Massachusetts. This body, from the decision of which there is no appeal, affirmed the ruling of the lower court, and decided that the \$14,500 damages must be paid MacNeill & Bros. by the Chamber of Commerce. This virtually renders imperative the award of a contract to the lowest bidder, and waives the right heretofore claimed by those who advertise for bidders to reject any or all bids. Notwithstanding the fact that this suit was brought and won in the courts of Massachusetts, it is of paramount importance here, and virtually constitutes a precedent in this State as well as in the former. The various Master Builders' Exchanges of Pennsylvania, and especially this city, have been waiting for the finale of this litigation, which was instituted about a year ago, before bringing to bear the same kind of a test case. Now that a favorable decision has been made, the builders of this city will immediately take action looking toward the same end.

# Fall & Winter 1891

During the present Fall and the coming Winter many of the readers of this journal will require furniture of some kind for their homes.

We have a few earnest words to say to you, as business men, whether you must buy a roomful or a houseful, the spirit of which we respectfully ask you to impart to your wives and daughters, whose tastes and opinions it is always best to consult beforehand.

You, like every other sensible business man, have no money to waste on *sentiment*. Hard dollars are hard enough earned, and the purchasing power of every dollar is to you, at least, an important factor in your *art of buying*.

We are ready with the best stock of reliable furniture of all kinds ever brought together under a single roof in this city. It is fresh from the hands of the best makers whose goods are "*standard*" in every furniture house in this country.

We want your custom when you get ready to buy, and, if after having bought from us, you are not convinced that we have saved you from twenty to thirty per cent. on the prices you must pay elsewhere for furniture of the same character, we will cheerfully call the sale off and return your money.

Do you require, can you obtain, a fairer proposition from any furniture house in this city? We would be greatly pleased to have you visit our stores. All are welcome.

Competitions.—Plans and specifications are invited for the group of buildings of the Carnegie Library, to cost \$700,000. Drawings and specifications must be delivered at the office of Jas. B. Scott, President of Board of Trustees, No. 122 Second avenue, Pittsburgh, Pa., before noon on the first day of November, 1891. The competitor furnishing the designs adopted by the trustees will, if he desires, be employed to furnish the working and detail drawings and specifications, and to superintend the erection of the building, for which he will receive five per cent. on the cost of the building, except as noted below, said five per cent. to cover all expenses connected with the services usually rendered by an architect in a first-class building, including daily supervision of the work as it progresses, and in case of his inability to give constant supervision, the architect will employ a competent representative for such purpose at his own cost. The five per cent. commission shall not include the cost of work or materials outside of the architect's designs, and which he will not be called upon to design or supervise. To the competitors furnishing the six sets of drawings adjudged next in merit to the selected plans, the trustees will pay the sum of two thousand dollars (\$2000) each, it being understood that no one competitor will receive more than one premium. All rejected drawings, and those receiving the cash premiums, will be returned to their authors within reasonable time after determination of successful competitor. Correspondence in connection with foregoing can be addressed to James B. Scott, President Board of Trustees, Pittsburgh, Pa.

**Architects Notes.**

Addison Hutton, architect, 400 Chestnut Street, Philadelphia, having made plans for an addition to the institution for Feeble Minded Children at Elwyn, Pa., and invited estimates upon them, is about to ask for new bids, as those made have proved unsatisfactory. We have described the structure in a previous number of this journal.

G. Knoek, an architect of New York City, has made drawings for what will be known as the "Isolated Ward" attached to the German Hospital at Corinthian and Girard Avenues. This structure will be on that portion facing Poplar Street. It is to be of brick, faced with Ohio stone, and the interior will be fitted in hard wood and all modern improvements.

John Frazer & Sons, architects, 413 Walnut Street, Philadelphia, have completed plans and specifications noted in this journal August 12, 1891, for the large six-story building to be erected at 917 Arch Street, for Stewart, Ralph & Co., and submitted the drawings to Board of Building Inspectors for approval. The above are for a building of brick, dark mortar and brown stone trimmings, elevators and freight lifts, steam heat, electric work and all modern conveniences.

Geissinger & Hales, architects and engineers, Twelfth and Chestnut Streets, Philadelphia, have completed plans for the new mills of the Horner Brothers at Lawrence Street and Lehigh avenue, and placed them on boards for estimates. They call for a two-story structure 64x50 feet, and to be built of brick, stone and iron, with a flat slag roof. The interior will be fitted with steam heat and power, and machinery will be placed for manufacturing Nottingham lace. The contract will be awarded shortly after the 23d inst.

William Getty, architect, 404 Crown Street, Philadelphia, has drawn plans for a store building to be erected at 620 South Third Street for C. Seyman, who will also erect a similar one at 308 Gaskill Street. These will be three stories high, of brick, and relieved by stone and terra-cotta work. Interior will have all modern improvements. The same architect has completed plans for a restaurant at Centreville, Camden Co., N. J., for John F. Betz & Son, to be of brick with terra-cotta and marble trimmings.

D. K. Dean & Son, architects, Erie, Pa., have plans on boards for two three-story stores to be erected for Mr. George D. Reavley at Erie. The estimated cost is \$20,000. Also, plans for a church to be erected at Jackson, Miss. The same architects have completed the following work: Stores and office building for M. J. F. Downing, cost \$150,000; St. Catherine's R. C. Church at Du Bois, Pa., cost \$50,000; residence for R. T. Mullen, Bishop of Erie, cost \$30,000; school for Very Rev. T. A. Casey, of Erie, cost \$50,000; factory for Metric Metal Co., cost \$50,000.

J. Elvin Jackson, architect, 804 Walnut Street, Philadelphia, has made complete plans for a fine residence for R. P. Robbins, M. D., to be built at Twenty-second and Granville Streets. The structure will be four stories high, of brick and stone, very ornate front and roof of slate and tile, stained windows and plate glass as well, best of sanitary plumbing and electric bells. All modern conveniences will be on interior. Mr. Jackson has awarded to Charles Lam, 619 Commerce Street, the contract to erect the new building on S. E. corner of Sixth and South Streets for M. S. Leopold, and which has been fully described in previous issues of this journal.

William L. Bailey and Arthur Truscott, architects, 138 South Fourth Street, are preparing the plans in detail for the alterations and additions to Queen's new store, 1010 Chestnut Street, which will, when completed, be quite a model structure. On the rear two new stories will be added, while one will be placed about the centre of building. Much new interior work will be done by addition of elevator service, electric work, steam power and heat, lavatories and toilet-rooms, private offices and counting-room, and all modern conveniences are included in the specifications. The same architects have also on boards nearing completion plans for a mission chapel for the P. E. Church of St. James in Camden, N. J., to be of brick with stone steps and trimmings, slate roof, hot-air heating, gas pipes, plumbing, etc. Also plans now completed for a house for Mr. Samuel Fox at Bryn Mawr, on main line of P. R. R., to be three stories high, first of stone and remainder of timber and shingle work, interior to be wired for electric light and bells, also gas fitting and best sanitary plumbing. Ceiling of the first floor will be what is termed a beam ceiling. Hot-air heat will be introduced and all modern conveniences.

**Building and Real Estate Notes.**

J. S. Kelly, owner, 624 Erie Avenue, will build thirteen houses on Front Street, north of Westmoreland, to be of brick, stone facings and good conveniences.

Stewart Bros., contractors, 2527 North Fifth Street, will erect ten dwellings, two stories high, on Carlisle Street, north of Clearfield, to be of the same class as other operations in that vicinity.

A large incubating house is about to be erected at Fifty-second Street and Eastwick Avenue. Its capacity will be the largest of any in the country. It will be 12 x 60 feet, and fitted with the necessary apparatus.

Robert Stroud, contractor, 2131 Vine street, will at once begin the repairs to the burned paper warehouse of Elliott & Co., at Sixth and Jayne Streets. This will principally consist of inside work on lower floors.

Improvements involving an outlay of more than \$300,000 are going on at League Island in constructing dry docks, shop-basins and several cottages as well as other minor work. The cottages will cost about \$5000 each.

Lewis R. Elliott, contractor, 1700 North Eighteenth Street, has received a contract to make additions to the building known as Smith's Malt House on Edward Street, east of Second. The work will include new floors and other minor work.

Jacob and Fred. Maish, 2511 North Street, are about to begin an operation of eleven dwellings, three stories high, on north side of Indiana Avenue, west of Rosehill Street, all to be of press brick, stone trimmings and best modern conveniences.

J. F. Louder, Sixth and Market Streets, also of Sixth Street and Montgomery Avenue, is about to erect a factory building on Marshall, south of Berks Street, 40 x 100 feet and five stories high, fitted with steam power and heat as well as elevator service.

C. C. Moore, owner and builder, 2001 North Broad Street, is about to begin an operation of eighteen two-story dwellings, south side of Birch, east of Frankford Road. These will be of brick, stone trimmings, and interiors to have all modern improvements.

F. Cox, 2350 East Dauphin Street, will at once erect a factory 50 x 122 feet, three stories high and a boiler house 18 x 39 feet on southeast corner of Cambria and Ormes Street. These will be of brick, stone trimmings, and fitted on interior with steam power and heat.

The contract for the Calvary P. E. Church, to be erected at Manheim and Pulaski Avenues, Germantown, has not been awarded on account of the present plans calling for too large a building. A revision of the drawings will be made and new bids asked in the near future.

Bureau Brothers, founders of brass and bronze metals, are to erect a one-story addition to their establishment at Twenty-first Street and Allegheny Avenue. It will be used as an engine and machine shop. The work has been given to Arthur Hindle, 1522 North Twenty-first Street.

John Loughran, builder, 1331 York Street, has just purchased a large piece of ground from Harry R. Shoch, at Sixteenth and Cumberland Streets, upon which he will continue the extensive building operations of the past two years in that locality. The block is 831 x 550 feet in dimensions, and for which \$110,000 was paid.

Michael Smith, builder, 1015 West Norris Street, will erect an immense boarding and livery stable on south side of Diamond Street, west of Tenth. It will be of brick, three stories high,

and will have stabling for about one hundred horses. It will be fitted with best of sanitary and other accommodations.

John Wolf, contractor, 4110 Terrace Street, has a contract to erect a public hall 30 x 52 feet, two stories high, on Fleming Street, south of Lyceum. It will be of stone and fitted with the usual hall trappings and furniture.

The contract to erect the file factory for the McCaffrey Bros., at Fifth and Berks Streets, has been awarded to Thomas McCarty, 1935 North Seventh Street. A full description of structure has been given in architectural notes of a previous number. P. A. Welsh, architect, 429 Walnut Street, drew the plans and will supervise the construction of the work.

A. Pratt & Brother, manufacturers, are about building a four-story L-shaped annex to their present plant on Main Street, below Shur's Lane, Manayunk. It is to be of stone, fitted with steam heat and power for machinery used in making woollens and cotton hosiery yarns. Joseph Sykes is the contractor and the plans were prepared by the firm.

A. M. Greene, contractor, 331 West Cheltenham Avenue, Germantown, has a contract to erect a structure for the People's Passenger Railway on Rittenhouse Street, north of Wissahickon. This will be a car-house and stables jointly, of stone, the former two stories high, whilst the latter will be but one. These will both be fitted with all modern conveniences for the business of rail-roading.

C. O'Neill, contractor, 1216 South Broad Street, will at once commence the erection of a fine schoolhouse, 51 x 164 feet in dimensions and three-stories high, on west side of Twenty-first Street south of Moore, to be of brick and stone, and fitted in the usual manner with school furniture, etc. The structure will be wired for electric bells and have all the recent improvements for school purposes.

The Philadelphia Market Co., headed by Joseph J. Martin, has purchased property adjoining the present market house at Thirtieth and Market Streets, on the west and south, making in all about seven and one-half acres, upon which it is the intention to erect quite an addition, which will, it is said, be the largest concern of the kind in the world. It will be covered by a series of railroad tracks and furnished with quite a large number of elevators for raising and lowering freight and produce. Also passenger elevators and electric work will be plentifully supplied all through the structure, as well as other minor conveniences. The architect of the present market was Adam Feldspaugh, P. R. R., and he will likely continue the unfinished portion above described.

City Council Committee on Schools, at a meeting on the 15th inst., resolved to present an ordinance to the higher body condemning for school purposes the three properties 1313-15-17 Spring Garden Street. These, when purchased, will be added to the corner lot on which the new Normal School will be erected. Also the question of purchasing ground at Hermitage and Washington Streets was referred to a sub committee consisting of Messrs Horn, Ford and Adams. The offer of the lot at Fox Chase by the citizens headed by W. H. Rhawn, Esq., was turned over to the Board of Education for acceptance. The bids for erection of the school house on Dickinson below Seventh Street, were opened, the lowest being \$48,458 for brick; but as stone is preferred, the matter was postponed, as were also the bids for the schoolhouse to be erected on Jefferson, west of Forty-second Street.

Among the large operations now in process of erection at various stages are the John F. Betz office building at Broad and Penn Square; Hotel Metropole, Broad and Locust Streets, as well as the apartment house of J. D. Fox in the immediate vicinity at Broad and Spruce Streets; also a large additional stable for the Tattersall's Auction Market, east of Twentieth Street; the new store for A. B. Kirschbaum & Co., 726-8 Market Street, has been started, and a new wing to the County Prison at Holmesburg by J. E. & A. L. Pennock. The large stables of the Traction Co. at Twentieth and Wharton Streets is well advanced. The excavation for the Terminal Market and Train Shed is about completed, when the superstructure will at once be started. Dunlap & Clarke's building, Filbert, above Twelfth Street, is under roof. The large printing house of the National Publishing Co., on Cherry, below Eighth Street, is being pushed with vigor. A large number of operations of dwelling houses, noted in recent issues of this journal, are in various stages of completion in all parts of the city. Building generally seems to have received a new impetus.

### Through Pennsylvania.

*When any of the following are not post office towns they will be so designated.*

—At Hughesville, Lycoming Co., the corner stone of the new Methodist church has been laid.

—At Mansfield, Allegheny Co., four handsome dwellings will be erected for Mr. Joseph Paul by E. J. Schultz.

—At Pottsville, Schuylkill Co., the Pottsville Water Company will lay two miles of pipe from Deep Filling to St. Clair.

—At Laury's Station, Lehigh Co., it is said a new hotel will be erected before next season. E. B. Byington can give information.

—At Northumberland, Northumberland Co., W. P. Burke will erect a large dwelling on Duke Street. Jacob Paul has the contract.

—At Ebensburg, Cambria Co., the Ebensburg Fair Society will erect an additional building on the Fair grounds. It will be 40 x 100 feet.

—At Coatesville, Chester Co., the congregation of the Presbyterian church will erect a parsonage. Rev. H. A. McKubbin is the pastor.

—At Uniontown, Fayette Co., the foundation walls for the erection of the new hotel on Main Street are about ready for the superstructure.

—At Chester, Delaware Co., eight dwellings will be erected by James C. Pierce, the contractor. Five will be erected on Penn Street and three on Washington Street.

—At McConnellsburg, Fulton Co., the Eagle Hotel, owned by George W. Cooper, has been sold to Augustus Rexroth, of Chambersburg, Pa. Improvements will be made to cost about \$1500.

—At Washington, Washington Co., Dr. Scott will erect a handsome brick residence, to be finely finished and to contain modern improvements. The plans have been prepared by J. M. McCollum.

—At West Chester, Chester Co., the School Board is considering the subject of erecting an annex to the colored school building. The estimated cost is \$6000.

—At Orwigsburg, Schuylkill Co., a meeting will be held by the members of St. Paul's Lutheran Church on September 26th, to vote upon the question of the erection of a new church.

—At Kennett Square, Chester Co., a meeting of Orthodox Friends has been held to consider the matter of erecting a new meeting house to cost about \$3000. The structure will be of brick, 35 x 50 feet.

—At Media, Delaware Co., the bid of William R. Supplee for the new post office has been accepted, and work will be begun in a short time in adapting the Supplee wheelwright shop for post office purposes.

—At Norristown, Montgomery Co., the Adam Scheidt Brewing Co., of Norristown, has purchased the porter and ale brewery of Abraham R. Cox. Extensive alterations will be made and various improvements introduced.

—At Lenape, Chester Co., the bridge will be extended so as to reach from the mill to the electric railway station. The County Commissioners—Samuel D. White, I. Harrison Rennard and D. Moyan Cox—have the matter in charge.

—At Allegheny City Mr. William J. Horrick will erect a handsome two-story brick dwelling from plans prepared by G. W. Ott, 112 Federal Street, Allegheny. It will contain nine rooms, all handsomely finished, and modern conveniences will be introduced. The estimated cost is \$6000.

—At Eddystone, Delaware Co., the Methodist congregation will erect a handsome church edifice. The Building Committee visited Wayne last week to see the new Methodist church at that place, and it is probable some of the interior arrangements will be similar to those of that structure.

—At Doylestown, Bucks Co., the wheel factory is an assured fact, the stock save a few shares being all taken. The site has not yet been selected, but it is thought that it will be near the railroad. The present works, operated by Worstell & Carl, on State Street, will be demolished as soon as the new works are completed.

—At Pottstown, Montgomery Co., H. A. Shenton, the proprietor of the South Hanover Street marble and granite establishments, has had plans drawn by Edwin F. Bertolette, of Philadelphia, for a new front to his place of business. A quantity of handsome glass will be used. The roof of a proposed extension will be covered with tiles and galvanized iron trimmings.

—At Greensburg, Westmoreland Co., a gun works is to be established on the farm of Lyman Hillis. Also, a plant for the manufacture of smokeless explosives. There is talk of an electric railway extending from Southwest Greensburg to the works, which will be known as the Emmens' Works, Dr. Stephen Emmens being the inventor of the explosives to be manufactured.

—At Downingtown, Chester Co., G. F. Guthrie, contractor, has been given the contract to erect seven dwellings on Washington Avenue. Each dwelling will contain six rooms. Work will be begun at once.—Mr. J. T. Ash contemplates the erection of a dwelling at Stuart and Pennsylvania Avenues.—J. T. Carpenter, Esq., also expects to erect a dwelling on Jefferson Avenue.

Fisher will erect a two-story frame dwelling.—Mrs. Rachel Hatnick will erect a two-story frame dwelling on Washington Street.—W. H. Walker will erect a three-story brick dwelling on North Main Street.

—At Bethlehem, Northampton Co., the Board of Directors of the First National Bank have decided to remodel the bank's property on Main Street, and work will be begun as soon as possible. The present front will be taken out, and a handsome one of Indiana limestone substituted. It will be finely carved and finished. Another story will be added, which will be used for a large hall and offices.

—James A. Chambers, formerly of the firm of Chambers & McKee, of Jeannette, will, so it is said, form a new company for the manufacture of window glass. Messrs. Reed, of Detroit, Kimberly, of Chicago, and Dhrew, of St. Louis, all well-known window glass dealers, will be in the new company. The site of the new plant has not been selected, but it will probably be on the Monongahela River.

—At Rutledge, Delaware Co., Thomas J. Hunt has awarded the contract to John A. Jackson for the erection of three frame cottages on President Avenue, below Morton Avenue. They will be handsomely finished on the interior and contain modern improvements, including electric lights. The estimated cost is \$15,000.—A. C. Lewis will begin work in a short time on the erection of Calvary Presbyterian Church, at Sylvan and Morton Avenues. It will be of stone and handsomely finished.

—At McKeesport, Allegheny Co., plans have been prepared for a hospital which will be erected by a number of enterprising citizens. The building will be 48 x 60 feet, with wings 32 x 90. There will be a corridor 100 x 15 feet. All modern conveniences will be introduced, including the best of heating and ventilating.—Owen Farley will erect a dwelling to cost \$2000. Daniel Stratton is the contractor. The same contractor has been awarded the contract for the erection of a handsome residence for George Lysle, on Shaw Avenue, at a cost of \$10,000. It will be handsomely finished and will contain all modern improvements.

—At Johnstown, Cambria Co., work has been begun on the excavations for the Y. M. C. A. building.—Mr. J. L. Smith, the marble dealer, has begun work on a residence for himself on Somerset Street on the lot purchased from Mrs. M. J. Kennedy.—Smith & Robinson, architects, have prepared plans for a Queen Anne cottage, to be erected for Mr. A. J. Haws, on Westmont Avenue, the cost to be about \$3000. The contractor is George Kreuger.—The same architects have prepared plans for a three-story brick business building for Stephen Quirk, to be erected on Washington Street at a cost of \$9000. Christ Hornick is the contractor; also plans for an armory for the city guard; a three-story business building for the heirs of James J. Murphy; and a two-story double frame dwelling for E. H. Porch, on Haynes Street.

—At Pittsburg Mr. F. J. Torrance, of the Standard Manufacturing Co., will erect a row of dwellings from plans prepared by W. S. Fraser.

—The Adams Express Co. will erect a four-story stone and brick building at Eleventh and Liberty Streets.—It is said that a company has been organized in the East End to erect a natorium.—Thomas H. Shepherd will erect a row of six brick dwellings on Kellar alley, in the Sixteenth ward. The estimated cost is \$16,000.

—John E. Williams has purchased eighteen lots at Hazelwood, and will erect a number of dwellings.—The War Department at Washington, D. C., has approved the plans presented by the Upper Bridge Co. for the construction of a bridge, 58 feet high and 370 feet long in the clear, across the Monongahela River.—Dr. Hiatt will erect a three-story brick dwelling at 59 Crawford Street, to cost \$4000.—A handsome dwelling will be erected by P. Moran on Fairmount Street, Twentieth Ward, at a cost of \$10,000. It will be handsomely finished and will contain all modern conveniences. William Kerr & Sons are the builders.—Rose & Fisher have been given the contract for the erection of a large school house on Allen Avenue, Thirty-first Ward, for which plans were drawn by J. P. Bailey. It will be of brick, two stories high, mansard roof, and 100 x 145 feet in dimensions. The estimated cost is \$45,000.—Mrs. Henderson will erect a two-story frame dwelling, to cost \$4100. T. A. Curry is the builder.—Mrs. Margaret Blum will erect a brick three-story dwelling, to cost \$4000.—L. T. Yoder will erect a handsome two-story brick and stone dwelling on Murray Hill Avenue, to cost \$18,000.—Chas. W. Bier will erect two frame dwellings, to cost \$4000.—Harry B. Chess will erect two cement two-story dwellings on Aiken Avenue, Twentieth Ward. Slate roof and modern improvements. Cost \$14,000. John Davidson, builder.—John C. Shaffer, the Fifth Avenue jeweler, has purchased a lot on Oakland Avenue, 25 x 130 feet, on which he will have erected a handsome stone dwelling.

#### Through New Jersey.

At Holly Beach, Cape May Co., Mrs. Worthington contemplates the erection of a cottage.

At Newark, City Engineer Jacobsen has planned for a considerable new sewerage work.

At Asbury Park, Monmouth Co., the Evangelical Lutheran congregation contemplate the purchase of a lot upon which to erect a chapel.

At Orange, Essex Co., the City Council has rejected all bids of the outlet sewer line, and new bids have been asked for to be opened October 5.

At Centreton, Salem Co., the Salem County Board of Freeholders has appropriated \$20,000 for the construction of a new drawbridge at Centreton.

At Princeton, Mercer Co., ground has been broken for the erection of the new college building to be known as Commencement Hall. It will be 145x105 feet in dimensions.

At Wildwood, Cape May Co., Messrs. Washburn and Van Horn will erect cottage.—B. F. Ladd, editor of the *Vineland Journal*, has accepted plans for the erection of a cottage.

At North Plainfield, Union Co., the Borough Council has granted a franchise to the Plainfield Water Supply Co. to extend its pipes into North Plainfield and to give the borough a fire extinguishing service.

At Highland Beach, Monmouth Co., the Board of Chosen Freeholders of Monmouth Co. met at Long Branch on September 2d, and completed arrangements whereby the Freeholders and the Central Railroad of New Jersey will jointly construct a drawbridge across the Shrewsbury River, from Highland Beach to the Highlands of Navesink.

At May's Landing, Atlantic Co., deeds have been recorded by which the Calwell estate, of over 100,000 acres, has been deeded to a syndicate of New Yorkers. The consideration was \$3,199,000. The village of Weymouth and Mr. Calwell's residence is not included in the sale. The syndicate will at once begin the erection of large mills and manufactories. The lands cover nearly one-third the area of Atlantic Co.

At Camden the building committee of the Centenary M. E. Church, at a recent meeting, suggested some changes regarding the windows which will improve them considerably. \$30,000 has been subscribed for the building. Rev. A. B. Richardson is the pastor.—The construction of the proposed Masonic Temple and opera house will be begun early in the spring. The material for the front will be Indiana sand stone, with other walls of brick. The design is somewhat similar to that of the Empire Theatre, at Broad and Locust Streets, Philadelphia, which was designed by the same architect, Angus S. Wade.—The President of the Camden National Bank, Mr. Zophar Howell, has contracted for the erection of forty-two brick dwellings at Emerald and Fourth Streets, Centreville, N. J. They will be two stories high, modern conveniences, marble trimmings, etc. Work will be pushed on this operation as rapidly as possible.

#### Through Delaware.

At New Castle, New Castle Co., the large plant of the Delaware Iron Co. was destroyed by fire on September 12th, involving a property loss of \$300,000. The plant is valued at \$1,500,000. Stephen P. M. Tasker, of Philadelphia, is the president of the company.

At Georgetown, Sussex Co., the building and stock of The Sussex Manufacturing Co. was destroyed by fire on September 18, at a loss of about \$15,000. A large amount of machinery was destroyed. The burned building was the property of the Farmers' Bank of Georgetown.

At Wilmington, at the last meeting of the school board, the committee on school No. 26 was authorized to hire an architect and secure bids for building a stone wall and steps in front of that school. The committee on school No. 8 was authorized to secure bids on curtains. The Levy Court has viewed a number of sites for the proposed bridge across the Brandywine, but no decision has as yet been reached.

At Kentmere, New Castle Co., The Roman Catholic Society has purchased an entire block of

ground by Shallcross, Grant, Gilpin and Bayard Avenues. The property is 300 x 300 feet, and the cost \$14,000. It is the intention of Bishop Alfred A. Curtis to use the site for the erection of a large convent to be known as the Convent of the Visitation, and its community will be Sisters of the Order of St. Francis de Sales. No plans have yet been prepared, but will be in a short time. The contracts will probably not be awarded for the construction of the building until early next Spring.

### Through Maryland.

# Fall & Winter 1891

During the present Fall and the coming Winter many of the readers of this journal will require furniture of some kind for their homes.

We have a few earnest words to say to you, as business men, whether you must buy a roomful or a houseful, the spirit of which we respectfully ask you to impart to your wives and daughters, whose tastes and opinions it is always best to consult beforehand.

You, like every other sensible business man, have no money to waste on sentiment. Hard dollars are hard enough earned, and the purchasing power of every dollar is to you, at least, an important factor in your art of buying.

We are ready with the best stock of reliable furniture of all kinds ever brought together under a single roof in this city. It is fresh from the hands of the best makers whose goods are "standard" in every furniture house in this country.

We want your custom when you get ready to buy, and, if after having bought from us, you are not convinced that we have saved you from twenty to thirty per cent. on the prices you must pay elsewhere for furniture of the same character, we will cheerfully call the sale off and return your money.

Do you require, can you obtain, a fairer proposition from any furniture house in this city? We would be greatly pleased to have you visit our stores. All are welcome.

Competitions.—Plans and specifications are invited for the group of buildings of the Carnegie Library, to cost \$700,000. Drawings and specifications must be delivered at the office of Jas. B. Scott, President of Board of Trustees, No. 122 Second avenue, Pittsburg, Pa., before noon on the first day of November, 1891. The competitor furnishing the designs adopted by the trustees will, if he desires, be employed to furnish the working and detail drawings and specifications, and to superintend the erection of the building, for which he will receive five per cent. on the cost of the building, except as noted below, said five per cent. to cover all expenses connected with the services usually rendered by an architect in a first-class building, including daily supervision of the work as it progresses, and in case of his inability to give constant supervision, the architect will employ a competent representative for such purpose at his own cost. The five per cent. commission shall not include the cost of work or materials outside of the architect's designs, and which he will not be called upon to design or supervise. To the competitors furnishing the six sets of drawings adjudged next in merit to the selected plans, the trustees will pay the sum of two thousand dollars (\$2000) each, it being understood that no one competitor will receive more than one premium. All rejected drawings, and those receiving the cash premiums, will be returned to their authors within reasonable time after determination of successful competitor. Correspondence in connection with foregoing can be addressed to James B. Scott, President Board of Trustees, Pittsburg, Pa.

### Miscellaneous.

At Roanoke, Va., the Monitor Steam Generator Manufacturing Co. will erect a brick warehouse, 60 x 200 feet. Also, a three-story office building, 40 x 40 feet.—G. W. Gaddard has organized a stock company for the erection of a rolling mill.

At Taunton, Bristol Co., Mass., the plans for the new court house have been completed by the architect, Frank Irvine Cooper, of Taunton. It will be a granite structure, 156 x 103 feet, three stories high, with a tower 167 feet high. The basement will contain cells for prisoners, lavatories, heating apparatus, etc. The corridors will have tile floors and marble wainscoting, and the stairways will have marble heads, with marble hand rails, and the rotunda will be finished in pink Tennessee marble. The hardware will be of bronze. The estimated cost is \$200,000.

### Architects Notes.

M. J. Snodgrass, Turnersville, Pa., reports the following: Plans for brick store and dwelling for Mr. John Kircher, two stories high, 44 x 66 feet, slate and tin roof, hot-air heater, electric work, dumb waiters, hardwood finish, grates and mantels. Cost, \$6000.

Will H. Decker, architect, has removed from 1407½ Chestnut Street to the Hale Building, Chestnut and Juniper Streets, third floor, where he has fitted up a suite of rooms commensurate with his needs. Increasing business compelled him to seek new quarters.

Addison Hutton, architect, 400 Chestnut Street, Philadelphia, has made plans and specifications for alterations and additions to the mills of the Campbell Manufacturing Co., at Manayunk. These will be quite extensive, and estimates upon the work will no doubt be asked in a few days.

Quite a number of architects in Philadelphia are preparing preliminary sketches for a proposed building for the Loyal Legion of the United States to contain club rooms and library. It will also be utilized for general purposes of meetings of that body, so that it will be quite a feature in the way of public institution.

John F. Stuckert, architect, 524 Walnut Street, will make some alterations and modifications to the plans of the "Hotel Vendig," to be erected at Twelfth and Market Streets, after which new bids will be invited. For reasons known to the projectors of the enterprise, the former estimates were declared off. Hence the delay in the matter.

W. Frisby Smith, architect, northeast corner of Broad and Arch Streets, Philadelphia, has made plans for six dwelling houses, one store and a dwelling house to be erected at Vanpelt and Dauphin Streets, by Robert Buchanan, builder. These are to be of press brick, two and three stories high, stone trimmings and all modern improvements.

John Fraser & Son, architects, 411 Walnut Street, Philadelphia, having completed all plans for the Stewart, Ralph & Co. store to be erected at 917 Arch Street, have placed them on boards of general contractors for estimates, and the contract will, it is expected, be awarded in a few days. This structure has been fully described in previous issues of this journal.

Yarnall & Goforth, architects, 14 South Broad Street, Philadelphia, have completed plans for the alteration of the Lochiel Hotel, at Harrisburg, Pa. These contemplate interior and exterior work. The office will be remodeled and beautified. Many of the rooms, parlor and dining hall will be embellished. A new kitchen with all modern conveniences will be included, and other minor work done.

Geissinger & Hales, architects and engineers, 1200 Chestnut Street, have completed plans for a weave shed for E. T. Steel & Co., to be erected at Bristol, Pa. The structure to be of brick, two stories high and skylight to be upon each section. It will have steam power and heat, electric wiring and all modern conveniences. Estimates are now being received, and will be closed at noon October 2d, 1891.

W. C. Root, architect, Kansas City, Mo., has prepared plans for an immense car house for the Washington and Georgetown Railroad Co., D. C., and these have been placed on boards of a few contractors of this city for general estimates. They are now busy at work upon their calculation. The structure will be of brick, stone and iron, and have all modern conveniences, electric wiring, bells, etc.

Will H. Decker, architect, 1407½ Chestnut Street, has revised the plans for the building of the National Publishing Co. on Cherry, east of Eighth Street. The new structure will duplicate the one burned in many ways, and will be six stories high, instead of five as proposed before. An immense water tank will be placed on roof, elevators and electric work will be introduced, together with all modern conveniences.

Charles W. Bolton, architect, 1510 Chestnut Street, has made plans for a church to be erected at Ford City, Pa., to be of stone, 60 x 75 feet, one story high, to have slate roof and a seating capacity of about 350 persons; heated by furnace heat, and the interior will be fitted in neat style. The same architect has made plans for extensive alterations to the store of Henry Becker, at 1516 Chestnut Street, and upon which work has been started.

Furness, Evans & Co., architects, 209 South Third Street, Philadelphia, have been engaged to prepare entirely new plans for the new stable of Frank P. Thomson, Vice-President P. R. R., at Merion, Pa. The new structure will be of stone and timber work, with slate roof, two-and-a-half stories high, with all the latest improvements, quarters for coachmen, stabling for about fifteen head of horses, improved carriage house, complete feed and harness rooms, etc. These plans are now under way.

Thomas P. Lonsdale, architect, Manhattan Life Building, Fourth and Walnut Streets, has made plans for a Methodist Episcopal church at Eddystone, Pa. The structure will be of Leipsville stone and furnished in good style. Seating capacity, about 400 persons. Contract has been let. Also plans for a parsonage for the Presbyterian Church at Coatesville, Pa. The first story will be of stone and the remaining two of frame. Interior will have modern conveniences. The same architect is engaged upon several projects, the plans for which will not be complete for some time.

Moses & King, architects, 431 Walnut Street, Philadelphia, have been engaged to prepare plans for the rebuilding of the Shelbourne Hotel at Michigan and Pacific Avenues, Atlantic City, N. J. They propose to enlarge the present area of ground covered. The new structure will be five stories high, and will have all the recent appliances for hotels, inclusive of electric bells and lights, steam heat, elevator service and freight lift. The sanitary properties will be of the most scientific description, and special attention given to ventilation, as this hostelry is to be open the entire year. Plans not complete. No contracts let.

As noted in our issue of September 16th, estimates have been asked for the work on the new Centenary Methodist Episcopal Church, of Camden, N. J., for which plans have been drawn by Frank R. Watson, 518 Walnut Street, Philadelphia, and who will supervise the work. The plans call for a structure Gothic in style, and built of Trenton brown stone with handsome tracery windows. The tower will have a fine stained glass window, and the main auditorium will be separated from the vestibule by a screen of polished hardwood, containing glass of the newest design. The seating capacity will be seven hundred, and the seats will be arranged in amphitheatre style. The interior finish will be of oak, and the roof construction will be exposed. There will be a loft for the choir and pipe organ. The estimated cost of the structure exclusive of the site is \$60,000. Rev. A. B. Richardson is the pastor in charge. Benj. F. Archer is the President of the Board of Trustees. The other trustees are W. F. Rose, H. M. Sharp, Albert D. Armbruster, Wm. Bleakley, Geo. A. Frey, John Turner, G. S. White and C. P. Bowyer.

### Building and Real Estate Notes.

Rev. Joseph Wood, Jr., has bought a lot on Earham Street, near Pulaski Avenue, for purposes of building. It is 27 x 100 feet.

Mrs. Mary E. Widdis has bought of the Wistar estate the lot 4662 Knox Street, west of Queen, and will likely make some improvement upon it at an early day.

Howard R. Yocum, contractor, 410 Lyceum Avenue, has been given the contract to build a church at Pechin and Rector Streets, and will at once begin work.

At Frankford, Philadelphia, Joseph Taylor has purchased two lots on Tacony below Frankford Street, from the Broomhead estate. The price paid was \$1200. They will be built upon in the spring.

Joseph S. Hagan, builder, 2901 N. Third Street, will at once begin erecting twenty-one two-story houses on Indiana Avenue, west of American Street, to be of brick with stone facing and modern conveniences on interior.

PHILADELPHIA, WED'Y, SEPT. 30, 1891.

*For the convenience of members of the Master Builders' Exchange, we have secured Box No. 199 at that place, where any communication for publication may be left.*

DIRECTOR OF PUBLIC WORKS JAMES H. WINDRIM and Chief Commissioner Bullock of the Highway Bureau, have completed a set of specifications regulating asphaltum paving and various other matters relating to street paving in general. These new rules require among other things that contractors shall give a five years' guarantee instead of three years, as has hitherto been exacted, and in addition a deposit of 10 per cent. and a real estate guarantee equal to 50 per cent. is demanded. A new rule has also been adopted by Chief Bullock, instructing Assistant Commissioners to report to the Bureau all ten days' notices served on railway companies to repair the streets on their line of roads. If this notice is disregarded an immediate report is to be made to Chief Bullock. If these rules are faithfully and vigorously enforced the condition of the streets of Philadelphia should be materially improved.

From present indications two important proposed improvements are making creditable progress toward success—the Bourse and the Boulevard. The former as a business exchange (something which has long been needed by Philadelphia), and the latter as a grand Boulevard, extending from City Hall to Fairmount Park. Postmaster-General Wanamaker's address at the Manufacturers' Club, last week, had the effect of stirring up some considerable thinking on the subject of the Bourse by those who have the best interest of the city at heart; and this was followed by a discussion of both projects at a meeting of the Master Builders' Exchange on the following day; and after the routine business had been disposed of a short speech was made by John S. Stevens, ex-President of the Exchange, in favor of the Boulevard. Subsequently a resolution was passed that the members of the Exchange commend the movement to the favorable consideration of City Council. There is no doubt that the construction of these proposed improvements would give a healthy

impetus to building operations, besides adding much to the business importance and beauty of the city.

### Building and Real Estate Notes.

William H. Rhawn, President of the Bank of the Republic, has offered to give the city one acre of ground at Fox Chase, provided the city will erect a school-house on the site. The Board of Education has accepted the proposition.

Geo. W. Roydhouse, contractor, Master Builders Exchange, has been given the contract to erect the new office building and ice machine factory for Mr. Christian Schmidt, at Second and Girard Avenue, noted in full in previous number of this journal.

The Powelton Electric Light Co. has awarded the contract for its new plant to John W. Leamy, 528 South Forty-second Street, and work upon the structure will be started at once, supervised by Porter Coates, architect, 110 South Fourth Street, who drew the plans.

A. S. Tourison, carpenter, 5541 Germantown Avenue, has been given a contract to erect a stable for Thomas McKean, at Pulaski Avenue and Apsley Street. He will also erect the U. S. Naval War College at Harbor Island, Newport, R. I., having been notified to that effect.

W. W. Rea & Sons, 1815 Francis Street, will build a factory at Broad and Race Streets, to be known as the Dunn establishment, and which has been fully noted in previous issues of this journal. The structure will be fitted with elevators, electric work and all modern conveniences.

At Torresdale, Philadelphia, the Convent of the Sacred Heart has purchased land adjacent to the convent, upon which an engine house and water tank will be erected. The dimensions will be 47 x 20 feet. One or more pumping engines of large power will be placed in the engine room.

John M. Sharp, builder, 1936 South College Avenue, will at once erect twelve two-story houses, 15 x 46 feet, on Cambria Street, East of Ninth, all to be press brick, stone steps and trimmings, with good sanitary work and ornamentation on interior, as well as all modern conveniences.

E. F. Flood & Co., contractors, 940 Belmont Avenue, will erect the eight-story structure of the Order of the Iron Hall on west side of Broad Street, above Arch. Work on excavation will begin at once. F. S. Newman, architect, of Springfield, Mass., drew the plans, and will supervise the construction.

C. B. Prettyman, builder, 25 North Juniper Street, will at once begin the erection of a fine operation of fifteen two-story houses on Seigel and McClellan Streets, east of Nineteenth and west of Eighteenth, respectively. These will be of press brick, with stone trimmings and all modern improvements.

Chas. O'Neill, contractor, 3609 Haverford Street, will build the new school-house at Seventh and Dickinson Streets; and Wm. R. Dougherty, also contractor, 1604 Sansom Street, has been awarded contract to erect the new school house at Forty-

second and Jefferson Streets, for both of which previous estimates had been set aside.

George W. Zane, builder, 2127 Camac Street, will at once begin excavation for quite a number of dwellings to be erected upon the ground formerly occupied by the Schimmel Preserving Factory on Eighth, Berks and Franklin Streets. All these will be of the better class of three-story houses, press brick, brown stone steps and facings; fine interior work, with best modern conveniences.

A. S. P. Roberts & Co., of the Pencoyd Iron Works, have received the contract to erect all the iron work in the New Market House of the Reading Terminal at Twelfth and Arch streets. Mr. McCaul, the contractor for the foundation work, is now receiving estimates from sub-contractors for the construction of the market house and train shed up to the first floor of the car tracks. The contract for the roof and trusses has not yet been awarded.

Hudson & Dillon, carpenters, 1211 Sansom street, will at once begin the erection of twelve fine three-story houses on north side of Thompson, between Thirty-second and Natrona streets. These are to be of press brick, dark mortar and ornamental fronts, hard wood finish on interior, and best of modern conveniences will be introduced. These will stand adjacent to the recent operations of Pemberton & Co.

The members of the State Commission having in charge the selection of a site for the proposed asylum for the chronic insane, met at the office of Wharton Barker, Philada., a short time since, and it is understood that the Committee favor a site at Wernersville, in the Lebanon Valley, nine miles from Reading. A site at Bellwood, seven miles from Altoona, is also much favored, but the Wernersville site is supposed to be the first choice.

The Twenty-seventh Sectional School Board on Tuesday night, 22d inst., at a meeting passed a resolution asking immediate action upon the question of erecting the proposed school-house at Mount Moriah. It seems that a lot was purchased over one year ago for this structure, but subsequently condemned because of inadequate drainage, and a new one offered in lieu thereof by J. W. Power, provided he be granted a bonus of \$4000 upon the trade as permitted by the general board. Action has not been taken. Hence the resolution of the sectional board.

Extensive improvements will be made to the Manufacturers' Club Building, on Walnut Street. It is proposed to erect a roof over the present Summer garden, and convert it into a permanent dining-room. The sides will be enclosed by plate glass. The roof will be of light wrought iron trusses, to span the entire width of the building, and supported by iron pilasters, giving an unobstructed floor space. The ceiling will be divided into panels, which will be decorated, and the whole will be finished in white pine, tinted in light colors. The floor will be of hard wood and oiled, and the whole thoroughly heated. Walter T. Bradley, a member of the club, has the matter in charge. About one-half of the money needed for the proposed improvement has been subscribed, and contracts for the work will be awarded as soon as the remainder is subscribed.

### Through Pennsylvania.

—At Bridgeport, Montgomery Co., a fire company has been organized, with William Rennyson as president. The building to be used for the apparatus, which will consist of a hose carriage, will be located on Depot Street.

—At Jenkintown, Montgomery Co., Samuel K. Aiman will erect two dwellings on his property near the Wharton Switch Works.—Mr. Kates has begun work on a dwelling on Wyncote Heights, near Jenkintown.

—At Reading, Berks Co., it is understood that the First Baptist Church congregation will erect

new church at Fifth and Chestnut Streets on the property recently purchased by Levi Focht. There is talk of the erection of a large hotel on Neversink Mountain.

—At Glen Lock, Chester Co., seven acres of ground have been sold by S. L. Tennis, and it is rumored that the purchase has been made by Philadelphia parties, with a view of erecting a large hotel on site, similar to Devon Inn. The price paid was about \$600 per acre.

—At Pottsville, Schuylkill Co., M. B. Heffner will erect a brick dwelling to cost about \$8000, from plans prepared by W. D. Hill. Contract not let.—An appropriation has been made for the construction of a bridge over the Schuylkill River. President Chrisman, of the Borough Council, can give information.

—At Fort Washington, Montgomery Co., three building lots have been sold by Real Estate Agent Charles K. Aiman to N. Grant Funk, on Washington Avenue, for \$1200. It is said Mr. Funk will erect a handsome dwelling on the site.—T. Frank Miller, architect, of Philadelphia, has purchased a dwelling at Summit and Prospect Avenues from J. Parker.

—At Ambler, Montgomery Co., at a meeting held a few days since, for the purpose of organizing a Presbyterian Church, Joseph Haywood, Edward F. Nevin, Richard L. Tyson and John S. Buchanan were appointed a committee to procure a charter and to take steps toward the erection of a permanent building. The church has a fine building site on Butler Avenue.

—At Scranton, Lackawanna Co., a meeting of the Citizens Bridge Co. was held on September 22d for the purpose of discussing the erection of several new bridges. A sub-committee was appointed, consisting of Messrs. Moore, Williams, O'Boyle, Lauer, Dale and Price, to arrange for a meeting of citizens for the purpose of bringing the matter before the public. The estimated cost of the undertaking is \$250,000. Colonel J. A. Price can give information.

—At Norristown, Montgomery Co., John Jamison, contractor and builder, has purchased a tract of land, bounded on three sides by Knox, Lafayette and Stanbridge Streets, for \$4800. Mr. Jamison will erect thirteen dwellings on the site. The same builder has purchased a tract containing sixteen building lots for \$4550. This tract will be improved early in the spring by the erection of dwellings.—Glenn & Co., 555 North Seventeenth Street, Philadelphia, have offered to purchase 350 acres in Moreland Township, and including five farms. It is rumored that the Swedenborgian Society is back of this deal, and that the site is desired on which to erect a large church and school.—A Philadelphia syndicate has purchased the farm of Hiram Potts, containing 62 acres, and will cut it up into building lots, containing an acre or more.

—At Pittsburg, Mary E. Sewart will erect five brick two-story dwellings in the Twenty-second Ward at a cost of about \$29,000. W. D. Beathy is the contractor.—H. L. —At Wayne, Delaware Co., J. H. Jeffries has just broken ground on Windermere Avenue for a house to cost \$10,000. It will be built of Avondale stone and will be ready for occupancy next spring.—Waldo M. Claffin, of Philadelphia, has just purchased a tract of five acres on which he proposes to erect a handsome residence.—John Fraser & Sons have completed the plans for the new Presbyterian church which it is said will cost \$30,000. The contract has not yet been given out.—The Methodists contemplate building a parsonage on the lot adjoining their church presented by Drexel and Childs.—Waldo Claffin has purchased four acres of ground and J. M. Fronefield, Jr., one acre for building improvements.—The contract has been awarded to Henry Berkenbine, civil engineer, for the construction of a reservoir to contain a million and a half gallons of water.—Wendell & Smith, the builders who have done so much to beautify Wayne, report sales brisk and building prospects good.

—At Spring City, Chester Co., a meeting has been held for the purpose of taking steps toward the formation of a public park and picnic grounds. Egolf's Woods, on the northern border of the town, has been suggested as the proper locality. The proposition is to organize a stock company. The committee appointed to take the matter in charge is composed of the following gentlemen: S. H. Egolf, Milton Lalshaw and J. A. Guss.—Mrs. Ida Latshaw has had plans prepared for a double brick dwelling to be erected in Snyder's addition.—Godshall & Custer expect to add two stories to their property on North Main Street. The upper floor to be used for banqueting purposes.—Harry Wagoner will erect a four-story brick building on Main Street, adjoining the residence of John Gilbert. It will be 36 x 75 feet in dimensions. The first floor will be fitted up as store rooms, and the remainder of the building as dwellings. The front will be of press brick, and modern improvements will be introduced.

### Through New Jersey.

At Gloucester, Camden Co., a collection was taken up in St. Mary Roman Catholic Church to purchase a chime of bells. The estimated cost is \$3000.

At Peapack (not a P. O. town), near Englewood, Bergen Co., a son of Hon. William Walter Phelps, has awarded S. W. Kirkbride the contract for the erection of a number of buildings.

At Long Branch, Monmouth Co., Richard Mears will make extensive improvements to Seaboro, including an addition which will double its present capacity. Mr. Mears is also proprietor of the Hotel Royal, New York City.

At Camden, the Bridge Committee of the Board of Freeholders has condemned the bridge across Cooper's Creek at Federal Street, and the structure will be repaired. The committee will ask the Board of Freeholders for an appropriation for a new bridge. The committee consists of Messrs. Martin, Young and Thompson.

At Asbury Park, Monmouth Co., a general improvement in the paving of avenues and streets can be looked for soon, as the Board of Trade at a meeting held last week discussed the question with much favor.—The corner-stone of the new Methodist Episcopal Church, to be erected in West Park, will be laid this week.

At Perth Amboy, Middlesex Co., steps have been taken by Common Council to secure an adequate supply of water by utilizing Tenant's Creek in Madison Township, Middlesex Co. This stream is about five miles from South Amboy, and capable of supplying 200,000 population. Over six miles of pipe must be laid, including crossing the river.

At Paterson, Passaic Co., a number of main sewers will be put in. City Surveyor Ferguson

can give information.—A school-house will be erected at North Fifth and Jefferson Streets. It will be 72 x 105 feet, of brick and stone, tin and slate roof, stone and iron fence and modern improvements. The estimated cost is \$22,000. M. Houman has prepared the plans.

At Elmer, Salem Co., a handsome new building is to be erected for the *Times*. The material will be brick, with stone trimmings. Modern improvements will be introduced. The first floor will be used for business office, press room, stock room, engine and folding machine room and mailing department. The second floor will be utilized for composing room and private editorial rooms.

At Camden, articles of incorporation have been filed in the County Clerk's office by the New Jersey Grate Bar and Manufacturing Company. The object of the company is the manufacture of iron grate bars and other metal work, and to carry on a general foundry and machine business. The capital is \$15,000. The incorporators are George B. Norgrove, Frank H. Treft, Watson Ryder and Albert Emery, of Philadelphia, and Nelson Johnson, of Camden.

At Jersey City, the Board of Trade, at a meeting held September 21st, passed the following resolutions: *Resolved*, That the proper municipal authorities of our city be requested to take immediate action to the end, that a new supply of potable water may be procured as speedily as possible, and to this end we request such authorities to advertise at once for a new water supply to be furnished by gravity to the Bergen reservoir, such bids to contain a proviso that the city may, at some specified time, purchase such water plant at a stipulated price. Dr. Leonard J. Gordon is chairman of the committee having the matter in charge.

#### Through Delaware.

At Middletown, New Castle Co., a company has been formed with a capital of \$100,000, for the construction of a railroad between Middletown and Odessa. It will be three miles long. William Taylor, of Middleton, is the president of the company.

At Dover, Kent Co., plans have been prepared for the College for Colored People, to be erected at Dover, by Architect S. Springer. The structure will be 46 x 88 feet, two stories high, brick and stone, slate roof, electric lights, plate glass windows, steam heat and all modern conveniences and improvements.

#### Through Maryland.

At Catonsville, Baltimore Co., B. N. Baker will erect a handsome dwelling from plans prepared by Griffin & Randall. William Gerwig is the builder.

At Baltimore, Rev. J. A. Morgan can give particulars as to the proposed additional building to Loyola College.—The Maryland Screw Co. will erect a two-story brick warehouse.—Messrs. Becker, Brother & Son will erect a four-story brick factory and warehouse.—The most important building permits issued to date are as follows: To Joseph M. Cone, to erect a seven-story brick warehouse; to John J. Thompson, to erect a six-story warehouse at No. 106 Hopkins Place; to Messrs. Scott, Payne & Bro., to erect two four-story brick warehouses at Nos. 362 and 364 Gay Street; to J. W. Hoffacker, to erect twenty-one two-story brick dwellings; to A. L. Gorter, to erect four four-story brick dwellings; to H. M. Reinhart, to erect twenty-one three-story brick dwellings; to the Fulton Avenue Presbyterian Church congregation, to erect a one-story stone chapel; to the North Avenue Railway Co., to erect a two-story brick building; to the Baltimore Cold Storage and Warehouse Co., to erect a four-story brick warehouse at No. 110 Eutaw street; to John O'Neill and Henry Stephen, each to erect a two-story brick dwelling; to Mrs. M. J. Thomas, to erect a green

house.—Jesse Hilles and others have incorporated the Western Maryland Railroad, Land and Improvement Co. with a capital stock of \$500,000.

#### Washington, D. C.

A. P. Clark, Jr., 605 F street, N. W., is preparing plans for a dwelling to be erected at Fifteenth and T street. It will be of press brick and Hummelstown brown stone, and will be fitted with all modern conveniences and improvements. The same architect has prepared plans for a dwelling, to be erected on R street, between Fourteenth and Fifteenth streets. It will be of press brick and Hummelstown brownstone, and will contain all modern conveniences. The owner of both dwellings is the Joshua Pierce estate.—Robert Head, 610 F street, N. W., is preparing plans for a large office building, which will be erected in the spring on Ninth street, near the Interior Department. It will be eight stories high, of Ohio stone and buff brick and ornamented with architectural terra cotta. Its interior will be handsomely finished in hard wood and provided with steam heat, electric light and bells, elevator, mail chute, speaking tubes, etc. The estimated cost is \$150,000. The same architect has prepared plans for some alterations to the Glover building on F street, near Fifteenth.—A mortuary chapel will be erected in Glenwood Cemetery, from plans prepared by Glenn Brown. It will be of red brick and Hummelstown brownstone, with red tile roof and cathedral glass windows.—N. T. Haller, 614 Eleventh street, N. W., has prepared plans for a block of five dwellings, which will be erected at the southeast corner of First Street and Massachusetts Avenue. They will be of brick and Hummelstown brownstone, iron steps, galvanized iron cornices, cabinet mantels, electric works, white pine trimmings, etc.—Francis Schuman will erect two dwellings from plans prepared by Leon E. Dessez.—Julius Germauer is preparing plans for three dwellings to be erected on P Street.—Mullett & Co. have prepared plans for a dining room to be erected at River View. It will be frame, 60 x 35 feet, with a porch 20 feet wide around the entire building. A brick mantel, 17 feet high, will be put in, and the whole will be wired for electric lights.—G. W. Lambden, builder, will erect six brick dwellings on Maple Avenue, Le Droit Park. They will be of brick, three stories high, tin and slate roofs and modern improvements. Cost \$25,000. Barnes and Weaver are the owners.—The Comptroller of Currency has received application from A. A. Cadwallader, of Bryn Mawr, Montgomery Co., Pa., and others, asking for authority to organize a National Bank at West Superior, Wis.

**Fall & Winter  
1891**

During the present Fall and the coming Winter many of the readers of this journal will require furniture of some kind for their homes.

We have a few earnest words to say to you, as business men, whether you must buy a roomful or a houseful, the spirit of which we respectfully ask you to impart to your wives and daughters, whose tastes and opinions it is always best to consult beforehand.

You, like every other sensible business man, have no money to waste on sentiment. Hard dollars are hard enough earned, and the purchasing power of every dollar is to you, at least, an important factor in your art of buying.

We are ready with the best stock of reliable furniture of all kinds ever brought together under a single roof in this city. It is fresh from the hands of the best makers whose goods are "standard" in every furniture house in this country.

We want your custom when you get ready to buy, and, if after having bought from us, you are not convinced that we have saved you from twenty to thirty per cent. on the prices you must pay elsewhere for furniture of the same character, we will cheerfully call the sale off and return your money.

Do you require, can you obtain, a fairer proposition from any furniture house in this city? We would be greatly pleased to have you visit our stores. All are welcome.

## A Few Quiet Words with House Builders and Owners.

If the kitchen of your house is small, you need to economize room. You can do this by using a range with elevated boiler, such as the

### "FIDELITY."

It will reduce the cost of plumbing also. We make them with seven inch or eight inch boiler holes, ovens on right or left of fire, with or without hot closets, and also to heat an upper room. Splendid bakers. Hot water in abundance. The latest and best of their class.

FIDELITY HOT AIR RANGE WITH HORIZONTAL BOILER.

Excelsior Double Oven Range.

If the kitchen is roomy and large, cooking capacity is sought. You will want a brick-set range with a vertical circulating boiler, set in the usual way. The

### "EXCELSIOR RANGES"

are acknowledged all over Philadelphia, in which city and vicinity some 75,000 have been sold as the standard brick-set range. They are furnished with ventilated ovens, oven-door pedals, rocking grates, and all modern improvements. Made in seven and eight inch sizes; single, double and hot-air ranges. Send for descriptive pamphlet, entitled "PERFECT COOKING."

## ANY CLEVER MAN

Who keeps his weather eye open for chances, and who possesses energy enough to read the weekly pointers in this journal as to who must buy the goods he deals in, can reap a rich harvest of profit, provided, of course, that he is neither too lazy nor too fat to see the man who is looking with keen eyes for the best things that enter into construction work.

COME, BROTHER; you have borrowed your neighbor's paper too often and too long already. BE A MAN and send us the Five Dollars you already owe us and we will send you a subscription for one year.

### Architects Notes.

Hillman & Shirk, architects, Brown Building, Fourth and Chestnut Streets, have completed plans for alteration and addition to residence for David M. Shirk, at Beverly, N. J. These consist of interior work mainly. Contract has been let.

At Wheeling, West Virginia, Joseph Leiner has prepared the plans for a handsome dwelling to be erected by F. Grimm. The estimated cost is \$10,000. It will be finely finished on interior, and will contain modern improvements. No contracts let.

Bailey & Truscott, architects, 138 S. Fourth Street, have placed the plans for alteration and addition to Queen's new store, 1010 Chestnut Street, upon boards of contractors for estimates. These are very comprehensive, and have been fully noted in previous issues of this journal.

Robert K. Marple, architect, 1237 S. Fifteenth Street, has made plans for a fine residence to be erected at 1220 S. Broad Street for Samuel S. Blackburn. Structure to be of stone, three-story high, and finished on the interior in hard wood, electric work, and all modern conveniences. Mr. Marple will supervise the work of erection.

F. Miles Day, architect, 925 Chestnut Street, has prepared plans for alteration of the old Stock Exchange, located at Third, Walnut and Dock Streets, which, when completed, will be occupied by the Spreckles Sugar Refining Co. These are mainly interior work, and will cost about \$12,000. Estimates are being received by the architect from several general contractors. Mr. Miles will supervise the work until complete.

M. Bean, architect, Lansdale, Bucks Co., Pa.,

is engaged on plans for a fine residence to be built for Mrs. Robert Smith, widow of the late Magistrate Smith, to be erected at North Wales. Also, making plans for a fine stable for Banker Frank Hart, of Doylestown, Pa. The structure will be upon the seminary ground lately purchased by Mr. Hart from Prof. Gosman. A gymnasium has been torn down, and upon this site Mr. Hart will erect a fine, large boarding house for summer visitors. The size of the stable will be 28 x 60 feet.

Thomas P. Lonsdale, architect, Manhattan Life Building, Fourth and Walnut Streets, has made complete plans for a new club house for the Gambinus Sangerkranz, at Thirtieth and Master Streets. They have been accepted by the society, and contemplate a structure three-stories high, 50 x 160 feet, of buff brick with red sandstone trimmings. It will be lighted by electricity, have steam heat, and all modern conveniences. Also, have bowling alley, ladies parlors, a billiard room, gymnasium, dining room, concert hall, and various committee rooms and offices.

Wilson Bros., architects and engineers, Drexel Building, have now placed on boards of general contractors the plans for the great Terminal Depot, at Twelfth and Market Streets, for estimate. It will be seven stories high; material of buff brick, stone and iron all resting upon massive stone and iron foundations. A great number of large elevators will be placed in this structure. It will be well lighted with electricity and have every modern device for the comfort of the patrons of the road. A large number of toilet rooms and minor offices will be included in the structure, but the plans for the major portion of the latter are not yet complete, and may be subject to considerable change.

Edwin F. Bertolette, architect, 257 S. Fourth Street, has just completed plans for a fine residence for August W. Dotterer, at Pottstown, Pa. The structure will be of brick with stone trimmings, slate roof, furnace heated, and finished on interior with hard wood, stained and plate glass windows and doors, as well as all modern conveniences. No contract let. Also, plans for a large store and residence to be erected on Front Street, Camden, N. J., for L. F. Shuster, to be three-story brick with mansard roof of slate, the front relieved with gables, arches and metal dormers. Also, plans for remodeling the Baptist Church at Pottstown, Pa. These include a new Sunday-school room library and pastor's room; vestibule and stairways to be executed in broken range work of masonry, with octagon tower on corner of King and Charlotte Streets.

P. A. Welsh, architect, 429 Walnut Street, is at work upon alterations to St. Malachy's Church, Eleventh and Master Streets, as well as supervising the work upon parochial residence of St. Agatha, Thirty-eighth and Spring Garden Streets. Mr. Welsh also reports the contract for alteration and additions to St. Mary's Roman Catholic Church as complete in plans and details; and that the contract will be likely awarded in a few days. The interior work will be upon a grand scale, both as to style of architecture and ornamentation. Also, plans are finished for Gilbert Griffin for a hotel at Lazaretto, on the Delaware River, east of Chester, Pa., and estimates are being received for the work. The same architect is engaged on plans for a row of houses for E. P. Albright, which are ready for estimates, and will be located at Sixtieth Street and Springfield avenue. These will be finished in very superior style on interior and exterior.

PHILADELPHIA, WED'Y, OCTOBER 7, 1891.

*For the convenience of members of the Master Builders' Exchange, we have secured Box No. 199 at that place, where any communication for publication may be left.*

THE action of Street Commissioner Brennan of New York City, in having twenty-five persons arrested for throwing waste paper and rubbish in the streets is to be commended highly and worthy of imitation by those having authority in such matters. A walk early in the morning or at about closing time in the evening is suggested as a good time to see more than twenty-five persons use the streets of Philadelphia for the purposes of a garbage and ash barrel.

GREAT SCOTT!!! Are there no cedars in Lebanon? Must coals be carried to Newcastle? Have the stone quarries of the United States been worked out? If not, why should Europe be visited in quest of stone for the Equitable Building to be erected in Baltimore at a cost of \$1,000,000? An exchange says that Messrs. John B. Sisson and Architect Charles L. Carson, of Baltimore, who went to Europe in August for the purpose of selecting stone for the Equitable Building, have returned home, and that while abroad they purchased the stone of which they were in quest and visited several celebrated quarries in England.

**Architect Notes.**

Angus S. Wade, architect, 20 South Broad Street, has been engaged to prepare plans for an auditorium for the Universal Peace Society, at Mystic, Conn.—President, Alfred H. Love, of Philadelphia. It will seat about 4000 persons, and be fitted with retiring rooms for speakers, bed rooms, lavatories, cook rooms, dining rooms, electric wiring for lights and all modern conveniences. Plans for the Masonic Hall and Theatre to be erected in Camden, N. J., are progressing. Work upon the structure will not be commenced until March, 1892.

**Building and Real Estate Notes.**

John Trainor, builder, 2012 Hancock Street, will erect six back buildings to fronts already built from 2308 to 2318 Hancock Street. All of brick, and furnished with modern conveniences.

J. F. Moss, builder and owner, 2408 North Fifteenth Street, will at once begin the erection of seventeen two-story houses on south side of Herman Street, west of Thirty-first. All to be of brick, stone trimmings and good modern conveniences.

Michael Baranski a Roman Catholic Polish minister, has taken title to the old German St. Presbyterian church property on German Street, between Second and Third Streets, and, as it has long stood neglected, it will need more or less alteration and repair. Title to all Catholic churches is generally vested in the archbishop who presides over the diocese, but in this case it has been taken by the above named minister.

R. W. Strode, carpenter, 6 N. Eighteenth Street, has been given the contract to make the alterations to the new home for the Society for Protection of Children from Cruelty, at 217 S. Broad Street, and will commence work at once. It will be fitted with bath rooms, play and exercise rooms, sleeping dormitories, toilet rooms and all modern comforts and conveniences.

Director Windrim appeared before the Water Committee of City Councils, on the 29th inst., and stated that he would ask that an unexpended balance in his hands be authorized by Councils to be used to purchase a pumping engine; improvements to Spring Garden Water Works and upon the new Roxborough reservoir. The total amount to be transferred for the above purposes is \$245,000. The request has been reported with an affirmative recommendation.

L. Cassanova, of Havana, Cuba, interested in building interests in that country, is at present in Philadelphia making a critical examination of building material used here, and for sale chiefly in the Builders' Exchange, with a view of making large purchases in the near future for a syndicate of which he is the accredited agent and a stockholder. It is their purpose to take all advantages offered by the new treaty under the law of reciprocity between the United States and Spain.

Bills were passed by City Councils at their meeting on the 1st inst., as follows, and only await the sanction of the Mayor to become a law: Accepting a deed of dedication of a lot of ground in the Thirty-fifth Ward for school purposes; authorizing the purchase of a lot for school purposes on Hermitage Street, Manayunk; authorizing the purchase of a lot and building thereon for school purposes at Washington and Hermitage Streets, Manayunk; authorizing the purchase of three lots, Nos. 1313, 1315 and 1317 Spring Garden Street, for school purposes; to lay water pipe on certain streets.

The commission appointed to select a site for a new mint to be erected in this city has furnished a report of the work done, and recommended to Secretary of the Treasury Hon. Charles Foster

the site bounded by Sixth, Seventh, Sansom and Walnut Streets. It is probable that a special message will be sent to the next Congress, asking confirmation of the above action, and an appropriation for the purchase of the ground and erection of the structure. The site selected meets with general approval, and possesses many features advantageous for such an institution. The commission consists of A. J. Drexel, Edwin H. Fitler, Col. A. K. McClure, William M. Singerly, Col. O. C. Bosbyshell, James H. Windrim and Samuel G. Thompson.

The Cramp Shipbuilding Co. will at once begin operations upon piling, grading and construction of their new shipyard, located upon ground purchased more than one year ago on the Delaware River below Mifflin Street, and extending to what is known as the Salt Manufacturing property. This will give them 1200 feet of river front, and about 3000 in depth, verging on two railroads, the Baltimore and Ohio as well as the Pennsylvania. It is proposed to build several fine piers, and erect the largest dry-dock in the United States, and which will be capable of holding two steamships at the same time. The largest pier will be erected with a view of railroad accommodations as well as those of the company, and will be the joint operation of the Baltimore and Ohio Railroad and the Shipbuilders Improved Machinery Co. Electric work and all modern conveniences will be introduced, all plans being made by the company's engineers for the plant.

**Through Pennsylvania.**

When any of the following are not post office towns they will be so designated.

—At Ridley Park, Delaware Co., Edward Seddon will erect a stable.

—At West Chester, Chester Co., M. Braunstein will erect four dwellings in the spring.

—At Ebensburg, Cambria Co., the Ebensburg Fair Society contemplates the erection of additional buildings.

—At Williamsport, Lycoming Co., a bill has been signed by Mayor Kellar appropriating \$25,000 for house and storm water sewers in various streets.

—At Elizabeth, Allegheny Co., the heirs of James Wylie have offered fifteen acres of ground to a company of Pittsburg and Eastern capitalists who wish a site for a steel mill.

—At Media, Delaware Co., Messrs. Reynolds & Richards, lawyers, will erect a brick building for office purposes. The new building will also be used as headquarters for the Media branch of the Pennsylvania Railroad Co.

—At Norristown, Montgomery Co., the Executive Committee has been put in charge of the matter of procuring a steam pump and a reservoir for distributing the water throughout the buildings of the insane asylum.

—At Eddystone, Delaware Co., the committee to solicit contributions for the erection of the pro-

posed Methodist Episcopal church consists of William Fields, Rev. Vincent Nichols, Mr. and Mrs. John Armstrong, Mrs. Harry Parkman and Mr. and Mrs. R. D. Miller.

—At Quakertown, Bucks Co., at a special meeting of Council held last week, President Reinhart made a proposition to purchase a lot located in the centre of the town, and to erect thereon a building to be used as a storehouse for the fire apparatus, council meetings and other public purposes.

—At Phoenixville, Chester Co., Denithorne & Son have been awarded the iron work for four new bridges to be erected over the Brandywine, north of Downingtown; over Valley Creek, in West Whiteland Township; over Stony Run, in East Vincent Township; and over Buck Run, connecting the townships of Highland and East Fallowfield.

—At Scottdale, Westmoreland Co., the Scottsdale Brewing Co. have purchased the planing mill property of Zearley & Poole, adjoining their present plant. The planing mill will be converted into a cooper shop, storage room and wash house. Plans are also in preparation for the erection of a three-story fire-proof stock house, 70 x 30 feet, with a capacity of 4000 barrels.

—At Spring City, Chester Co., John Halteman will erect a dwelling on Arch Street in the spring.—J. Walter Rheeler contemplates the erection of a dwelling.—A. F. Tyson has awarded the contract for a dwelling to Bower & Hoffman. It will be located on Arch Street.—A handsome double brick dwelling will be erected on Yost Avenue for Mrs. Hanna Shalkop. Jacob Geiger has been given the contract for the erection.—A lot has been purchased on Arch Street by Oliver B. Hickson.—The Evangelical Menonites expect to erect a church at an early day. It will be situated on Yost Avenue.

—At Royersford, Montgomery Co., it is said that a new public school building will be erected in the spring.—B. B. Brant will erect two cottages on Summer Street. Mr. Brant will also erect a handsome stable.—Frank H. Carl has purchased four lots from John S. Pennypacker.—A subscription is being taken up for the construction of a boardwalk from the dwelling of Mrs. Stauffer, on Walnut Street, near Sixth Avenue, to Fernwood Cemetery, a distance of one mile. The estimated cost is \$2000.—John S. Pennypacker has been awarded the contract for the erection of four dwellings for Hannah A. Ralston.—S. B. Latshaw has sold a lot to Milton D. Yerger, also one to Edward H. Cook.

—At Chester, Delaware Co., the Globe Beef Co. will remodel its store at Third and Parker Streets. This will include considerable interior work and a new front of plate and cathedral glass.—The congregation of Trinity Episcopal Church think something of erecting a new church as the present structure is becoming too small for the needs of the congregation. The trustees drew up plans some time since for a proposed enlargement of the church, by the erection of a chapel for Sunday school purposes; but there is a growing sentiment that a new church is needed, and that it would be unwise to expend money in enlarging the present building.—The congregation of the Lutheran Church contemplate the erection of a chapel. About \$2000 has been paid in toward the new building, and a location is being sought suitable for the purpose. Rev. Dr. Schaffer, of Philadelphia, is interested in the matter.—J. D. Nelson will erect three dwellings on Eighth Street.—The Chester National Bank contemplates the erection of a handsome bank building next year at the northeast corner of Third and Market Streets. This property is now held by John McGoldrick, of the Franklin House, Third and Wilson Streets. It is likely some of the adjoining property will be required.

—At Pittsburg, Butz & Kauffman, 606 Smithfield Street, are at work preparing plans for a large

office building to be located in the lower part of the city, on Sixth Avenue or Fifth Street. The structure will be of brick, iron and granite, twelve stories high, handsomely finished on the interior, and all modern improvements will be introduced. The estimated cost is \$400,000.—William H. Sims 908 Penn Avenue, has prepared plans for a stone and brick residence to be erected for Dr. Evans, on South Negley Avenue. It will be 51x46 feet, two stories high, slate roof, hardwood finish and modern improvements. The cost will be \$24,000. The contractor is W. J. Brown. The same architect has prepared plans for a dwelling for O. K. Gardner, to cost about \$15,000. It will be of brick, with trimmings of sandstone, tin roof and modern improvements. No contracts let. Also plans for three frame dwellings to be erected for J. H. Aaron on Terrace Street, Oakland (Pittsburg). They will be 22x46 feet, slate roof and contain modern conveniences. Also plans for a handsome frame dwelling to be erected for Dr. L. E. Davis on Oliver Terrace, Hazelwood. It will be two stories and attic, slate roof, have all modern improvements. No contracts let. Also plans for a frame dwelling to be erected at same place for Dr. E. B. Howarth, at a cost of \$7000. It will be handsomely finished on the interior in hardwood, have modern conveniences and improvements. No contracts let.—Work has begun on the new school house in the Twenty-first Ward. It will be of brick and stone, slate and tin roof and all modern improvements. The contract has been awarded to Thomas S. Nicholl for \$57,182.—St. George's Roman Catholic Church will erect a dwelling three stories high, of brick, on Allen Avenue, Thirty-first Ward, to cost \$10,000. Bentz Brothers are the builders.—J. Walker will erect a five-story brick hotel building, to cost \$15,000. Bentz Bros., contractors. The same builders will erect a dwelling for R. Moore, to cost \$5000; and also a two-story brick office for the U. S. Glass Co., to cost \$10,000. Also, a dwelling for Andrew Waters, to cost \$5500.

#### Through New Jersey.

At North Spring Lake, Monmouth Co., Thomas A. Fahy will erect a cottage to cost about \$4000.

At Millville, Cumberland Co., ground has been broken for the new Fourth Methodist Episcopal Church.

At Haddonfield, Camden Co., James Roder has broken ground for a new residence at the corner of Park and Centre Streets.

At West Creek, Ocean Co., the dwelling and store of Isaac W. Dawson were destroyed by fire on October 1 at a cost of \$5000.

At Asbury Park, Monmouth Co., the corner stone of the new Methodist church, at West Asbury Park, was laid last week. The church will cost \$5000.

At Merchantville, Camden Co., Edward Nash has broken ground for a dwelling on Maple Avenue, near Centre Street.—It is probable from appearances that the contemplated electric railway from Merchantville to Camden will be an accomplished fact by the summer of '92. The company has promised that this will be the case if five thousand dollars are raised by the citizens of Merchantville.

#### Through Delaware.

At Wilmington, at a recent meeting of the School Board, the Committee on Health and the Visiting Committee were instructed to see about new and improved water closets for School No. 16. Dr. James H. Morgan and Dr. John Palmer, Jr., can give information.—George H. Hollis, Superintendent of Construction of the new post office, has received the plans in detail, from Washington, of the superstructure of the structure. These plans and specifications will be placed on exhibition at the Builders' Exchange,

and bids will be asked for the completion of the building. The acceptance of bids will close on November 2d. The drawing shows a very handsome building with an entrance ornamented with columns, etc. A cement pavement, 12 x 28 feet, will be in front of the main entrance, with a pavement of cement, 12 feet wide, around each end, extending to a cement roadway 14 feet wide at the wings, and 24 feet wide at the rear entrance. The pavement and roadways will be bordered with granite coping and galvanized iron railing. The first floor will be occupied by the post office, postmaster's office and an elevator room. The floor, 18 feet wide and 101 feet long, will be laid in tile. The second floor will contain fourteen apartments. The third floor will contain the Federal offices. The first story will be of stone, and the two upper stories of light colored brick. The cornices will be of copper, and the roof of slate. The interior will be handsomely finished in hard wood, and all modern improvements and conveniences will be introduced.

#### Through Maryland.

At Baltimore, at a recent meeting of the stockholders of the Builders' Exchange, Messrs. Baldwin & Pennington, architects, of No. 1 West Lexington Street, were chosen to prepare plans for the proposed new building to be erected at the northeast corner of Charles and Lexington Streets. The work of demolishing the present buildings occupying the site will be commenced next spring.—The most important permits issued to date are as follow: To John C. Knipp, to erect a six-story brick warehouse at No. 218 Clay Street. To R. Walzl to erect one three-story brick dwelling. To Mary S. Amer to erect one three-story brick dwelling.—The Mayor has signed an ordinance appropriating \$2500 for the erection of a house for the crew of Fireboat No. 16.—Thomas Albert Hulme and others have incorporated the Cotton Oil Refining Company with a capital of \$25,000.

#### Washington, D. C.

Mullett & Co. have prepared plans for a block of six dwellings, which will be erected at Sixth and D Streets, N. E., for G. L. Schaffert. They will be of brick and Ohio stone, iron steps, slate mantels, and modern improvements. The estimated cost is \$18,000.—C. W. Meyers will erect a frame dwelling at Brightwood, D. C., from plans prepared by J. G. Meyers, 711 Ninth Street, N. W. It will be provided with furnace, gas machine; pumps operated by gas engine, and will be finished on interior in natural wood.—Mrs. M. A. Newhouse will erect a dwelling on Twenty-first Street, between N and O Streets, at a cost of \$6000, from plans prepared by C. A. Diddin, 709 Thirteenth Street, N. W. It will be of press brick and Hummelstown brownstone, copper cornice, tile vestibule, cabinet mantels, hardwood finish, etc.—T. F. Schneider, 933 F Street, N. W., has prepared plans for remodeling the dwelling of David D. Stone, at 2021 Massachusetts Avenue.—George S. Cooper, 39 St. Cloud Building, has prepared the plans for a block of five dwellings which will be erected at the southeast corner of Fourteenth and U Streets. They will be of press brick and Hummelstown brownstone, modern improvements, etc.—The same architect has prepared plans for a block of eight three-story brick dwellings to be erected at Twenty-second and F Streets at a cost of about \$25,000.—E. A. Ridgeway will erect two dwellings on Third Street, between E and F Streets, N. W. They will be of press brick and Ohio stone, with ornamental wrought iron porches, interior trimmings of oak, cabinet mantels, tile vestibules, open fire places, steam heat, etc. The cost is estimated at \$5000. Mr. Henry F. Blount has purchased the property known as the Linthicum Home-

stead. A portion of the ground has also been purchased as a site for the erection of a home for the aged and infirm by Mrs. Bessie J. Kibbey. A building to cost \$20,000 will be erected for the purpose. Mr. Dent has purchased a site on the same estate, upon which he will erect a handsome residence.—It is said that the son of the late Senator Hearst contemplates the erection of a building in a central location, to be used by newspaper correspondents. Mr. Widderman is Mr. Hearst's agent in Washington.

# Fall & Winter 1891

During the present Fall and the coming Winter many of the readers of this journal will require furniture of some kind for their homes.

We have a few earnest words to say to you, as business men, whether you must buy a roomful or a houseful, the spirit of which we respectfully ask you to impart to your wives and daughters, whose tastes and opinions it is always best to consult beforehand.

You, like every other sensible business man, have no money to waste on sentiment. Hard dollars are hard enough earned, and the purchasing power of every dollar is to you, at least, an important factor in your art of buying.

We are ready with the best stock of reliable furniture of all kinds ever brought together under a single roof in this city. It is fresh from the hands of the best makers whose goods are "standard" in every furniture house in this country.

We want your custom when you get ready to buy, and, if after having bought from us, you are not convinced that we have saved you from twenty to thirty per cent. on the prices you must pay elsewhere for furniture of the same character, we will cheerfully call the sale off and return your money.

Do you require, can you obtain, a fairer proposition from any furniture house in this city? We would be greatly pleased to have you visit our stores. All are welcome.

Department of Charities and Correction. Blockley Almshouse, Philadelphia, Oct. 1, 1891.—Sealed proposals for the construction of a stone wall on these grounds will be received at the office of the Superintendent until 12 o'clock M. on Monday, October 12, 1891. The bids will be opened at the office of the Department of Charities and Correction, No. 312 Exchange Place, at 3 o'clock P. M. same date. Specifications and all information may be had on application to the Superintendent at Blockley Almshouse. Robert Laughlin, President.

Cameron, Tex.—Bids for the erection of a two-story stone and brick bank building for First National Bank of Cameron, Tex., according to plans and specifications prepared by Larmour & Watson, will be received, to be opened on the 7th of November, building to be completed by February 1, 1892. Each bid must be accompanied by a certified check for \$500, payable to the Cashier of First National Bank of Cameron. Plans and specifications can be seen at the office of the bank, in the city of Cameron, and at the office of the architects, Austin, Tex. John M. Hefley, President. J. C. Reese, Chairman Building Committee.

Sealed proposals will be received by the Highway and Sewer Committee of the Councils of the city of Williamsport, Pa., until 12 o'clock noon, Thursday, October 15, 1891, for the construction of approximately 17,500 feet of pipe sewers from 8 inches to 24 inches diameter, and 700 feet of circular brick sewers, double ring, 30 inches and 36 inches in diameter, in accordance with plans and specifications on file in the City Engineer's office. A certified check, payable to the city of Williamsport, for ten per centum of the amount or amounts bid must accompany each proposal, said sum to be forfeited to the city in case the successful bidder shall fail to execute the contract or contracts for the construction of the work. The city reserves the right to reject any or all bids. J. J. Galbraith, City Clerk. H. C. Reeder, City Engineer.

War Library and Museum.—Military Order of the Loyal Legion of the United States. 723 Walnut Street, Philadelphia, Sept. 14, 1891. Architects are invited to present preliminary sketches for a proposed building for the War Library and Museum, to be located in Philadelphia. The building should offer accommodations for the Commandery of the State and the Commandery in Chief, Meeting, Banquet Halls and space for Library and Museum. Sketches must include at least two plans and a perspective view, showing the front and one side of the building and plotted at the scale of  $\frac{1}{8}$  inch to the foot or more, must be rendered in black and white only, pencil or ink, no color. A nominal remuneration is offered to those competing. For the first choice \$100, for the second choice \$75, for the third choice \$50. A written description may accompany each sketch, but there must be no name of competitor on them, only a mark or design for recognition. Those accepted to be the unreserved property of the Board of Governors, others to be returned on application and proof of ownership.

J. P. Smith, Mayor of Fort Worth, Texas, wants proposals until October 19, 1891, for two 8,000,000 gallon vertical triple-compound pumping engines, each to pump against 285 feet head, complete on foundations. Four horizontal tubular boilers, 66 inch by 18 feet long, with fronts, fittings, etc., connected to engines, boiler feeder, injectors, etc. A smoke stack, 26 feet at base, 10 feet at top, 144 feet high. One stone building, 112 x 126 feet, with iron truss roof, two stone foundations for the pumps, brick work for setting the boilers, etc. For drilling twelve 8-inch wells, 1000 feet deep, cased with heavy flush joint casting, or for a flow of 8,000,000 U. S. gallons of water in twenty-four hours. One intake well, 16 x 32 feet, with 4-foot wall, one timber crib,

12 x 34 feet, with copper screens, gear, etc. One steel standpipe, 20 x 130 feet, complete on foundations. 448 fire hydrants. Cast iron pipe, double gate valves and boxes. 208 tons of pig lead. 15 tons of hemp packing. For trenching, back filling and laying about 48 miles of pipe. Also, setting fire hydrants, valves and boxes. One 55,000,000 gallon reservoir, 500 x 1000 feet by 32 feet deep.

Sealed proposals will be received at the office of the Supervising Architect, Treasury Department, Washington, D. C., until 2 P. M., November 2, 1891, for all the labor and materials required for the stone, brick, iron, copper work, approaches, etc., of the superstructure of the U. S. Court House, Post Office, etc., buildings at Wilmington, Del., in accordance with the drawings and specifications, copies of which may be had at this office or at the office of the Superintendent, at Wilmington, Del. The plans and specifications are at the Builders' Exchange. For further information apply to George H. Hollis, No. 9 E. F. urth Street. Each bid must be accompanied by a certified check for a sum not less than 2 per cent. of the amount of the proposal. The department will reject all bids received after the time herein stated for opening the same; also, bids which do not comply strictly with all the requirements of this invitation. Proposals must be enclosed in envelope, sealed and marked: "Proposals for the stone, brick, iron, copper work, approaches, etc., of the superstructure of the U. S. Court House, Post Office, etc. Building, at Wilmington, Del.," and addressed to W. J. Edbrooke, Supervising Architect.

W. J. Edbrooke, Supervising Architect, Treasury Department, Washington, D. C., wants proposals until October 16, 1891, for all the labor and materials required for the approaches to the U. S. Post Office, etc., at Dayton, Ohio. Also, until October 12th, for all the labor and materials required for putting in place complete the steam heating and ventilating apparatus for the U. S. Court House and Post Office Building at Portland, Me. Also, until October 19, 1891, for all the labor and material required for the trench excavation, concrete foundation, cut stone and brickwork, iron and wood floor, and roof construction, roof covering, approaches, etc., of the U. S. Post Office Building, at Canton, O.

#### Miscellaneous.

At Fernandina, Nassau Co., Fla., an iron foundry and machine shop will be erected by C. E. Johnson, of Macon, Ga.—The Amelia River Packing Co. will erect a shingle mill.

At Springfield, Mass., the main building of the new factory to be erected for the Foster Machine Co. will be 150x50 feet. The new works are to be operated by water power.

At Columbiana, Shelby Co., Ala., the citizens propose to donate \$40,000 and the necessary land and tenement houses for the erection and establishing of a \$100,000 cotton mill.

At Houston, Harris Co., Tex., the Board of Education has recommended that an appropriation of \$100,000 be made for the purpose of erecting two additional school buildings.

At Richmond, Va., three school-houses will be erected from plans prepared by Albert L. West. One will be erected on Wall Street, at a cost of \$20,000; one in Fulton District to cost \$12,000; the other will cost \$28,000.

At Roanoke, Va., work will begin in a few days on the erection of the Roman Catholic Orphan Asylum, which will be erected on the grounds of St. Andrew's Church. The estimated cost of the building is about \$100,000.

At Foxborough, Norfolk Co., Mass., plans have been prepared by Brigham & Spafford for a state asylum for inebriates. There will be four large buildings, and a large boiler house and laundry. The estimated cost is \$100,000.

At Zanesville, O., Schultz & Co. will erect a business block from plans prepared by H. C. Lindsay. It will be of brick and stone, electric lights, elevator, steam heat, plate and stained windows, balcony, etc. The estimated cost is \$30,000.

At Victoria, Victoria Co., Tex., Gordon & Laub, of San Antonio, have been awarded the drawing of plans for the new court house. The building will be of stone, three-stories high, tile roof and modern improvements. The cost will be \$65,000.

At Utica, N. Y., M. H. Hubbard has prepared plans for a summer residence to be erected for C. W. Lee at Charlotte Resort, Ontario Lake, N. Y., at a cost of \$8000. It will be of frame, shingle roof, cathedral glass windows and modern improvements.

At Dorchester, Suffolk Co., Mass., in the parish of All Saints, a movement is on foot for the erection of a large stone church, to be located near Ashmont Station. No definite arrangements have been made, but the movement is being favorably considered.

At Jacksonville, Fla., T. Tugby, owner of the Tremont Hotel which was destroyed by fire, has decided to erect a handsome four-story brick hotel on the corner of Forsyth and Main Streets. It will contain one hundred and ten rooms, a number of baths and all modern improvements.

At Toledo, O., Dr. Hipp will erect a dwelling on Broadway from plans prepared by A. Liebold. The same architect has prepared plans for a dwelling for George Eckhardt.—J. A. Beck has prepared plans for a residence for St. Mary's Parish; also plans for dwelling for L. Hemple.

At Brookline (station of the Boston P. O.), Boston, Mass., George L. Osgood, the musical director, will erect a handsome residence on the Summer Road.—Messrs. Chadwick & Stilling have purchased ground at Beacon and Summer Streets, on which they will erect a block of five dwellings.

At Andover, Essex Co., Mass., Mrs. John Byers will erect a handsome dwelling from plans prepared by Longfellow, Alden & Harlow, of Boston.—A new dormitory is to be erected at Phillips Academy. It will be three stories high, and will be fitted with modern improvements and conveniences.

At Martinsburg, Berkeley Co., W. Va., it is reported that Albert Oigueski, representing a syndicate of capitalists, among whom, it is reported, Claus Spreckles is interested, is investigating with a view of organizing a \$450,000 stock company for the purpose of establishing a beet sugar refinery at that place.

At Milwaukee, Wis., it is reported that J. M. Hoyt and others have purchased from Timothy Dore eleven acres of land on Kinnikinnic Avenue, south of the Clinton Street bridge, for \$70,000; and that the purchasers will improve the same and erect thereon a large woolen mill. The entire improvements will cost about one million dollars.

At North Cambridge, Middlesex Co., Mr. Sands, the brick manufacturer, has begun work on a handsome residence. The contract has been let to Wellington. Fillmore & Co.—Rev. John Flatley, of the Roman Catholic church, has bought six lots adjoining the Catholic church. They will be used as a site for a large parochial school which will be erected in the near future.

## A Few Quiet Words with House Builders and Owners.

If the kitchen of your house is small, you need to economize room. You can do this by using a range with elevated boiler, such as the

### "FIDELITY."

It will reduce the cost of plumbing also. We make them with seven inch or eight inch boiler holes, ovens on right or left of fire, with or without hot closets, and also to heat an upper room. Splendid bakers. Hot water in abundance. The latest and best of their class.

FIDELITY HOT AIR RANGE WITH  
HORIZONTAL BOILER.

Excelsior Double Oven Range.

If the kitchen is roomy and large, cooking capacity is sought. You will want a brick-set range with a vertical circulating boiler, set in the usual way. The

### "EXCELSIOR RANGES"

are acknowledged all over Philadelphia, in which city and vicinity some 75,000 have been sold as the standard brick-set range. They are furnished with ventilated ovens, oven-door pedals, rocking grates, and all modern improvements. Made in seven and eight inch sizes; single, double and hot-air ranges. Send for descriptive pamphlet, entitled "PERFECT COOKING."

### Miscellaneous.

At West Roxbury, Mass., the Unitarian congregation will erect a church from plans prepared by Longfellow, Alden & Harlow, of Boston. The cost will be about \$8000, and the seating capacity about 250.

At Boston, Mass., the Harbor and Land Commissioners have approved the plans submitted to them by the City Engineer, for the proposed new bridge to connect the city proper with South Boston Flats to the extension of L Street. It will be a pile structure 931 feet long and 60 feet wide, with an iron draw 40 feet in the clear. The City is to do the work and the State will pay 40 per cent. of the cost of the structure.—Vinton G. Sears will take \$25,000 of the capital stock of the Great Barrington Hotel Co., who propose to erect a \$40,000 hotel on Berkshire Heights.

At Cincinnati, O., Thomas W. Keeveny has had plans prepared for the erection of ten handsome dwellings by W. W. Franklin. They will be of frame, with stone foundations, handsomely finished on interior, and will contain modern improvements. The same architect has prepared plans for a residence to be erected at Wyoming,

O., for Josiah Kirby. It will be of press brick, with stone foundation and trimmings, modern improvement, fine interior finish. The estimated cost is \$12,000.—J. W. McLaughlin has made plans for a stable for Mrs. M. Reeves, of Richmond, Ind. It will be of brick and stone, and will cost \$6000.

At Chicago, Ill., E. R. Krause has prepared plans for a dwelling to be erected for Miss Sherwood, near Cottage Grove Avenue. It will be of press brick and stone, slate roof, fine interior finish, modern conveniences. The estimated cost is \$12,000.—A four-story warehouse will be erected on Johnson Street by George D. Morgan from plans prepared by Cass Chapman. It will be of brick and stone, and will cost \$20,000.—The Illinois Central Railroad Co. has issued invitations to a few prominent architects to submit plans for a new railway station, to be erected at a cost of \$1,000,000. The work is to be begun within sixty days.—A handsome residence will be erected by S. M. Fischer on Drexel Boulevard, near Fifty-first Street, from plans prepared by Charles S. Frost. It will be of dark Tennessee marble. The interior will be elaborately finished in hard woods of various kinds, and all modern

conveniences and improvements will be introduced. A stable will be erected in the rear at a cost of \$5000.—Charles W. Purdy will erect a dwelling on Twentieth Street, near Prairie Avenue, from plans prepared by Thomas & Rapp. It will be of brown stone and brick, known as obsidian Roman brick. The interior will be finished in hard woods and steam heat will be introduced. The cost will be \$15,000. The same architects have made plans for a four-story building for Mr. Wachsmith, to be erected on Stanton Avenue, at a cost of \$25,000. It will be of brick and stone and hard wood finish; also plans for two factories for George Enger, to cost \$50,000.—L. B. Dixon has prepared plans for a handsome residence to be erected for P. Walker, at 3213 Calumet Avenue. It will be of stone, with interior finish of hard wood, steam heat. The estimated cost is \$18,000; also plans for a shoe factory, to be erected at Dixon, Ill., by C. H. Fargo, at a cost of \$30,000.—J. M. Van Osdel & Co. have prepared plans for an apartment house to be erected at the northeast corner of Leavitt and Flournoy Streets, by Mrs. P. B. Weore. It will be of brick and stone, three stories high, hard wood interior finish, modern improvements. The cost will be about \$25,000.—S. A. Wright will erect a four-story apartment house on St. Lawrence Avenue from plans prepared by D. S. Pentecost. The cost will be about \$45,000.—A fine site has been assigned for the building to be erected by Utah at the Exposition. It will be of iron and glass, and \$100,000 has been appropriated for the purpose. Commissioner Lannon, of Salt Lake City, has the matter in charge. The government of Salvador has appropriated \$10,000 for the erection of a building on the Exposition grounds, and Mr. Baruch, the Consul General, in New York, will have plans drawn and superintend the construction. Henry Ives Cobb has prepared the plans for the building which will be erected by Indiana.

**OPINIONS OF THE PRESS.**

[From the *Northwestern Architect.*]

MINNEAPOLIS, MINN.

"As is compatible with this progressive period, even wall plaster has succumbed to inventive genius, and 'the day is nearly done' when our handsomely decorated walls and ceilings shall be ruined by reason of the utter unreliability of the old style mortar. To meet this demand for a non-porous plaster, Adamant has appeared on the market, and is now being manufactured in nearly every State in the Union."

[From the *Scientific American.*]

"Some of the advantages Adamant possesses above the other plaster is the extreme hardness of the wall. It will neither crack nor crumble. It is a strong support to a building. It does not swell timbers by an absorption of the moisture, as the material itself absorbs most of it. It dries so quickly after it is applied to the wall, that in a few hours frost will have no effect on it. We are convinced that this Adamant is destined to revolutionize the business of house plastering."

[From the *Baltimore Commercial.*]

"Adamant makes a wall as hard as marble, at a slight cost."

[From the *Leader and Herald.*]

CLEVELAND, O., March 22, 1889.

"The problem has been to provide a substitute that would not only produce a perfect wall, but be comparatively cheap and easily applied as well. 'Repeated tests, under the most exacting conditions, clearly prove that such a happy combination has at last been secured in the plastering material called 'Adamant,' now being so extensively introduced in this city.'"

[From the *Builder, Decorator and Wood-Worker.*]

PHILADELPHIA, PA.

"Nothing in house building has so long withstood the 'march of improvement,' notwithstanding it has failed to give a substantial wall, while many houses become defaced and old in a few months on account of broken walls and ceilings. 'Adamant' obviates all this, and is the coming plaster."

[From the *New York Commercial News.*]

"There is not the least doubt about 'Adamant' wall plaster will last as long as the building upon which it is used."

*For the convenience of members of the Master Builders' Exchange, we have secured Box No. 199 at that place, where any communication for publication may be left.*

#### Architect Notes.

Cope & Stewardson, architects, 324 Walnut Street, have completed plans for the erection of a rectory at White Marsh, for P. E. Church at that place. The building will be of Newtown red stone, two stories high, slate roof, seating capacity about 400 persons. Roof will be of gable ends.

J. William Shaw, architect, 233 South Fourth Street, residence Wayne, Delaware Co., Pa., has made plans for a dwelling for H. H. Sawyer at Ridley Park. The structure will be English in style of architecture, first story stone, remaining two of stucco work, interior fitted in good shape, with all modern conveniences.

Frank R. Watson, architect, 518 Walnut Street, is engaged on plans for making alteration and addition to "The Brighton," at Ocean City, N. J., for Mr. Richard Sooy, proprietor. The main structure will be raised, and one wing added. Also, many minor details will receive consideration in the way of additional comfort. The plans are yet incomplete, and no contracts have been let.

Geissinger & Hales, Architects, 102 S. Twelfth Street, have completed plans for a large addition to mills of Ivins, Deitz & Magee, at southwest corner of Marshall Street and Lehigh Avenue, and have placed them on boards for estimates. The structure will be three-stories high, tin roof, built of brick with stone trimmings, steam heat and power fittings, good sanitary plumbing and all modern accommodations, etc.

The Keneseth Israel Temple corner-stone will be laid on the 20 inst., with great ceremonies by the Grand Lodge Free and Accepted Masons of Pennsylvania, also certain Hebrew rites will be celebrated. The architects will be present and

aid in the work. They have prepared plans for a stage 30 x 60 feet for the singers and invited guests. Louis C. Hickman and O. Frotcher, jointly, prepared the plans and will supervise the work of construction.

Isaac Pursell, architect, 119 S. Fourth Street, has made revised plans for the new church to be erected by Calvary P. E. Church, of Germantown, and they have been adopted by that body. The drawings will now be placed for estimate by contractors, and they contemplate a handsome structure of German brownstone trimmed with Ohio sandstone, interior to be finished mainly in hard wood, timber-truss roof, seats for about 600 persons, with a very handsome pulpit and chancel.

W. C. & F. B. Pritchett, architects, 1430 S. Penn Square, have on boards plans for a residence for W. S. Gleine, at Lancaster, Pa. Also, residence, stable and carriage house at Jamestown, R. I.; extensive alteration to dwelling at Willingford, Pa., with a structure for billiards, servants, etc., for William C. Downing. Also, plans for ten dwellings at St. Alban's, N. J., and plans for Atlantic City Jockey Club, at Absecon, N. J. These will comprise grand stand, pavilions, stable, paddocks, etc.

John T. Windrim, architect, 132 S. Third Street, has prepared plans for a residence for Mrs. K. E. Hurste to be erected at Beverly, Maine. It will be of stone and fitted throughout in the best manner of workmanship, having electric work, steam work, steam heat, and all modern conveniences. It will cost \$50,000 when complete. Same architect has made plans for six fine houses at Twenty-fifth and Poplar Streets, for the Girard estate, to be of brick and brownstone with all modern improvements on interior.

Henry D. Dagit, architect, 122 S. Second Street, has purchased a house 678 N. Fifteenth Street, and prepared plans for building an entirely new structure upon the site. These contemplate a very artistic front, parlor to be a model of beauty, dining and other rooms in hard wood, Romanesque in style of finish, electric work throughout, new stairways in quartered oak, and the bath is to be of the best sanitary work, walls tiled to ceiling, and that of bevelled glass. A Turkish bath will be attached. Jacob Wenzelberger, carpenter, 260 Bridge Street, has the contract.

Hazelhurst & Huckel, architects, 410 Walnut Street, have just completed plans for the addition to the Children's Homeopathic Hospital, to be erected on Carlisle Street, below Girard Avenue, and heretofore noted in this journal. The drawings have been placed on boards for estimates by contractors. The structure is to be 46 x 60 feet; front, press brick and brown stone, four stories high, and fitted with all modern conveniences, including elevator service, electric work, best of sanitary plumbing and culinary arrangements. The contract will be announced at an early day.

Hazelhurst & Huckel, architects, 410 Walnut Street, have in course of preparation plans for a new church for the Central Methodist Episcopal Church of this city. It will be Romanesque in architectural style, a tower ninety feet high will be at the corner, interior will be in amphitheatre style. Seats for 1200 persons will be the capacity of the structure, inclusive of gal-

lery. Also plans on boards for remodeling of the skating rink at Twenty-third and Chestnut Streets for a riding school. The first floor will be utilized for stables, while the second will contain two circular rings for practice. No contracts have been let in either case.

Geissinger & Hales, architects, 102 South Twelfth Street, have made plans many months since for additional mills which E. T. Steel & Co. will erect at Bristol, Pa., adjoining the plant purchased by them of Joseph Peirce, and the drawings will in a short time be placed upon the boards for estimates. A weave shed will be erected, 250 x 220 feet, filled with looms, steam heat and power. Another wing will be 30 x 120 feet, two stories high. This structure will be for cloth finish and have steam heat and power. A new 350 horse-power engine will be placed on plant. There will be electric work throughout and all modern conveniences introduced.

The Columbia Avenue Presbyterian Church will at an early day erect a new church at the southeast corner of Twenty-first Street and Columbia Avenue, from plans drawn by J. W. Shaw, whose address is not given. The plans contemplate a rough rock-faced marble, range work. The style of architecture will be Romanesque floor, to have a pitch from front of building, tower upon corner, with two doors for entrance to church; heating done by steam, slate roof. Parlors and vestry rooms will be upon the main floor, and the old church will be joined to the new one by an arcade, and used as a Sunday school. All modern accommodations will be introduced, making a handsome as well as comfortable structure. The pastor is the Rev. William H. Hodge.

F. Miles Day, architect, 925 Chestnut Street, has made complete plans for the building for the Camden Trust and Safe Deposit Co., of Camden, N. J. They contemplate a handsome structure. The banking-room will be 59x40 feet, and will have a mosaic floor, with the finest hard wood fittings for office, also vaults for safes and electric work, best of sanitary plumbing. The same architect has made plans for a residence for Mr. Frank Pyle, at Wilmington, Del., to be of brick and English redstone, first floor in hard wood quartered oak, hot water heat and best of plumbers work, electric wiring and bells. Also plans for alterations to interior of 1813 Pine Street for Mrs. Maria Baltz. These will be very thorough, and will include every modern comfort for a home.

Samuel R. Turner, architect, 915 Ninth Street, northwest, Washington, D. C., has made complete plans for a fine 64-room hotel at Mountain Spring Park, Terra Alta, W. Va., for Mr. N. W. Fitzgerald. The building covers a space of 90x64, and is elevated on the top of the mountain at the highest point, on the line of the B. & O. R. R. in the Allegheny Mountains. It will be three stories high, and is provided with a 14x14 observatory, giving a full view of the mountain for miles around. The interior finish will be in hard wood, and furnished with electric lights, steam heating, hot and cold baths and all other modern improvements to give comfort. The water supply from springs has been pronounced the purest water at

any point of the B. & O. R. R. Samuel R. Turner, architect, who has the construction under his supervision, has been instructed to spare nothing to make this hotel and the surroundings attractive. With the new road station being built to accommodate the guests, fine hunting, pure air and water, it will unquestionably be a famous resort. The work must be completed by June, 1892.

### Building and Real Estate Notes.

Joseph E. Brown, metal roofer, 114 North Thirteenth Street, will soon erect a business place on Arch Street, near Thirteenth.

John A. Maguire, contractor, will at once begin the construction of the public bath house at Eighth and Mifflin Streets, heretofore noted in this journal in full.

Work upon the Metropole Hotel, on Broad, below Locust Street, will be discontinued until the early spring of 1892, this being necessary to allow the foundations to settle.

William N. Read, roofer, 55 North Seventh Street, is endeavoring to negotiate for a property on Seventh Street, west side, above Market, upon which he will erect a fine building.

The congregation of Mantua Presbyterian Church at Aspen and Preston Streets has decided to continue work on the building, and will begin to erect the main auditorium at once.

John Priestly, builder, 1808 Juniata Street, will begin the erection of eight two-story houses on east side of Wayne Street, south of Cayuga, all to be of press brick, stone trimmings and best modern conveniences.

Geo. W. Sherman, 2259 North Twenty-second Street, will at once erect eighteen two-story houses 15 x 42 feet on Clifford Street, south of Montgomery. All to be of brick, stone facings and best modern conveniences.

George F. Payne & Co., contractors, 409 S. Juniper Street, have received the contract to make alterations and additions to 1010 Chestnut Street for Queen & Co. Bailey & Truscott, architects, 138 S. Fourth Street, drew the plans and will superintend the work.

Clifford Pemberton, builder and operator, Drexel Building, has purchased additional lots in the vicinity of Thirty-first and Montgomery Avenue, upon which he will erect houses at an early day, all in keeping with his previous operations in that neighborhood.

Thomas Rush, contractor, 4839 Mulberry Street, Frankford, is about to erect a handsome residence on south side of State Road, east of township line. It will be of brick and stone, ornamental front and sides, interior to be fitted with steam heat, electric bells and light, as well as all modern conveniences.

Arthur H. Williams & Sons, 402 Tenor Place, have been awarded the contract to erect the Centenary Methodist Episcopal Church of Camden, N. J., by F. R. Watson, architect, 518 Walnut Street, who will supervise the construction. A full description of this structure appeared in previous architect notes.

Immense piers will shortly be erected at Marcus Hook on the Delaware River by the Philadelphia and Reading Railroad, and facilities for shipment provided for quite a large traffic in heavy freight. It is believed a connection will be made with the above road and Baltimore and Ohio at junction near Grays Ferry in this city.

John J. Cassidy, builder, Moyamensing Avenue and McKean Street, has just taken title to additional ground in the vicinity of Snyder Avenue and Front Street upon which he will extend his operations at an early day. This property formerly belonged to the Lewis estate, and has now been made available by the large interests of Mr. Cassidy in that direction.

The firm of David S. Cresswell, iron founders, intend erecting on Ruffner Street, above Pulaski, Norcetown, a large foundry. This will take the place of the one recently destroyed by fire on Race above Eighth Street. The area to be built upon is 60x184 feet and the buildings will be from one to three stories high. Material to be of brick, stone and iron, also fitted with steam power and machinery.

Thomas H. Parks, builder, Eighteenth and Diamond Streets, has under way a handsome house for Mr. George W. Allen, the Chestnut Street hatter, at 1524 N. Seventeenth Street. It will be one of the finest houses in the northern part of the city when complete, and reflect credit upon both builder and owner. The interior will be in hard wood and fitted with electric appliances and best of sanitary plumbing as well as all minor modern conveniences.

C. W. Bergner, of the Bergner and Engle Brewing Co., is about making great improvements to his country residence at Ambler, Pa., by the erection of an immense hot house which will cost about \$15,000, the contract for which has been given to Hitchings & Co., of New York City. As Mr. Bergner has just taken title to considerable adjoining land it confirms his intention of a recent date to enlarge and remodel his present house, and perhaps erect an entirely new one. The dimensions of the rose house will be 23 x 40 feet; potting and boiler house 22 x 35 feet; four houses 18 x 40 feet, one house 40 x 50 feet, and palm house 26 feet high. All will be fitted in the most approved manner, best of glass and heat arrangement.

—At Ashbourne, Montgomery Co., on Thursday, October 8th, the large general store of John Hennig was destroyed by fire. The building was the property of R. J. Dobbins. The loss was about \$5000.

—At Titusville, Crawford Co., the school board has passed a resolution instructing the building Committee to negotiate for the purchase of Kuntz tannery, together with 100 feet of ground adjoining, as a site for a new school house.

—A charter has been issued for the construction of a railroad from a point on the north bank of the Youghiogheny River, in Huntingdon Township, in Westmoreland Co., to Jeannette, same county. The capital stock of the company is \$150,000.

—At Doylestown, Bucks Co., a lot 200 x 235 feet on West State Street has been purchased as a site for the wheel factory of the Worstall & Carl Wheel Co. As soon as the charter is received the contracts will be awarded for the erection of the building.

—At Chambersburg, Franklin Co., E. W. Washbaugh has sold his present residence and will erect a new one on Leitersburg Street. William C. Hull has purchased a building lot on Kennedy Street. An effort is being made to secure a system of sewerage.

—At Pittsburg, Allegheny Co., the Sisters of Charity will erect a new Catholic Foundling Asylum. Charles Donnelly, Vice President of the McClure Coke Co., has donated \$20,000 for the purpose, and promised to raise an additional \$20,000. The institution will also be endowed by Mr. Donnelly.

—At Lansdowne, Delaware Co., H. C. Stewart has broken ground for a pair of cottages of frame and stone, modern improvements, etc. The plans were drawn by William H. Free, of Philadelphia. The contract for the erection has been awarded to Frank Riggs, of Lansdowne.

—At Oxford, Chester Co., the Oxford Land and Improvement Co. has purchased the William Wright farm. The company has also called a meeting of lot owners for the purpose of discussing the number of dwellings to be erected, and the advisability of building them of a uniform character.

—At Conemaugh, Cambria Co., the Pennsylvania Railroad Co. agrees to maintain the new bridge to be erected, except the approaches and the river span, which they insist shall be maintained by the boroughs of Conemaugh and Franklin. The structure will cost about \$40,000. Engineers have located the bridge piers.

—At Allegheny, Allegheny Co., John Young, of the Allegheny Heating Co., has returned from Europe, where he has been investigating the subject of fuel gas. This has been done in view of the fact that the natural gas may not hold out. It is probable that the company will erect a plant for the purpose of manufacturing fuel gas.

—At Manheim, Lancaster Co., it has been decided to put a chime of ten bells in the tower of Zion Lutheran Church, now in course of erection. The chime is in memory of Baron Henry William Stiegel, who founded Manheim in 1762, and gave the lot to the Lutheran congregation on consideration of the yearly payment of one red rose. A circular stained glass window will also be put in, containing a red rose on stained glass.

—At West Chester, Chester Co., ground has been broken for two dwellings to be erected adjoining the Rectory of Holy Trinity Church on S. High Street.—Luman Beidler has purchased a lot at Hillside and Prospect Avenues, and has offered the same to the congregation of the Methodist church as a site for a new parsonage.—Dr. Heston and Truman Moore contemplate the erection of dwellings.—J. B. Cohen has had plans prepared for a three-story bottling establishment to contain office, elevator, etc. He will also remodel his dwelling and put in modern improvements.—J. B. Cohen will erect a three-story bottling establishment.—John Barry will erect a three-story brick dwelling.

—At Washington, Washington Co., a new gymnasium will be erected by the college as soon as sufficient money has been secured for the purpose. About \$15,000 has been raised, but \$30,000 will be required for a structure such as has been proposed and for which plans have been prepared. These call for a building of press brick, with foundation and trimmings of Ohio stone and slate roof. The dimensions are 66 x 110 feet. In the basement, which will have seven feet above ground, will be placed a plunge bath, bowling alley, lockers and heating apparatus. The main floor will contain the gymnasium, running track, etc. There will be a number of rooms for directors, etc. The building is so arranged that it can be turned into a large audience room, seating 1200.

—At Pittsburg H. S. A. Stewart will erect nine two-story brick dwellings on Hays Street at a cost of \$45,000. They will have slate roofs, and the interiors will be handsomely finished in hard wood. All modern conveniences and improvements will be introduced.—Mrs. McCloskey will have three two-story brick dwellings erected on Carnegie Avenue, at a cost of \$3600. Wm. Sliona is the builder.—John Armstrong will erect a two-story brick dwelling on Kirkpatrick Street, at a cost of \$5000.—Dr. L. E. Davis will erect a two-story frame dwelling, to cost \$4000.—Bell & Caldwell will erect two two-story brick dwellings on Friendship Street, to cost \$7000.—A dwelling will be erected by Captain

J. J. Vandergrift on Oakland Avenue, at a cost of \$6500. Thad. Stuchell is the builder. The same builder has been given the contract to erect a handsome dwelling for W. H. Stevenson, on Dithridge Street, at a cost of \$10,000. It will be two stories and attic, slate roof, interior finish of hard wood, modern conveniences and improvements.—Anthony Walker has been given the contract to erect a three-story brick dwelling for Mrs. Sarah Connolly, on Seventh Street, at a cost of \$3500.

### Through New Jersey.

At Elmer, Salem Co., a new office and newspaper will be erected by the Times.

At Berlin, Camden Co., the Camden and Atlantic Railroad Co. will erect a new station.

At Englewood, Bergen Co., the Englewood Field Club contemplate the erection of a club house to cost about \$9000.

At Long Branch, Monmouth Co., over 7000 barrels of Portland cement will be used in paving Broadway, Long Branch.

At Cramer Hill, Camden Co., James H. Gordon has broken ground for the erection of eight dwellings on Penn Avenue.

At New Brunswick, Middlesex Co., H. V. Butler can give information as to the establishment of a sash and blind factory.

At Hoboken, Hudson Co., Messrs. Johnson & Byrnes have received the contract for the erection of the new post office building. Price, \$38,000.

At North Spring Lake, Monmouth Co., a lot has been purchased on Washington Avenue by James F. Middleton, of Newark, N. J., who will erect a cottage at an early day.

At Egg Harbor City, Atlantic Co., a water-works and electric light ordinance has passed a first reading at a meeting of City Council. The plant will be established by a company of which William Taylor is the head.

At Avalon, Cape May Co., a cottage will be erected by W. R. Lebrez, manager at Yates & Co., Thirteenth and Chestnut Streets, Philadelphia. The cost will be about \$2500. At time of writing no architect has been engaged.

The Central Railroad of New Jersey has closed its traffic over that part of the road connecting Highland Beach and Sandy Hook. Plans have been completed to have the boats run to Atlantic Highlands, where the company will construct a 2800 foot dock, after which a track will connect Atlantic Highlands with Highland Beach. A drawbridge 1000 feet long will be constructed across the Navesink River.

At Camden, Camden Co., work has been begun on the new chapel for the St. James Mission to be erected at Front and North Streets.—George Hall will erect twenty-four brick dwellings on Chambers' Avenue, between Washington and Berkley Streets. It is reported that the same builder will erect a number of fine residences on Sixth Street, opposite the Cooper Hospital.—The Bridge Committee of the Board of Freeholders has condemned the bridge across Cooper's Creek at Federal Street, and the Committee will ask the Board for an appropriation for the construction of a new bridge.

### Through Delaware.

At Wilmington the Board of Directors of the Young Men's Christian Association, at a special meeting held a few days since, decided to appoint a committee to consult an architect in regard to plans for a new building suitable for the association. The committee appointed consists of Job H. Jackson, J. Taylor Gause, Joseph Pyle and Alfred Gawthrop. General Secretary J. R. King was directed to procure the plans of

various other association buildings in order to inspect them.—It is probable that some changes will be made in the specifications for the new Federal building so as to secure a granite structure instead of one composed of granite and red brick. Superintendent George H. Hollis has received letters recommending the change from United States Senators Higgins, Gray and others. The stone suggested for use is the lightest colored Brandywine granite, to be rock faced. The architectural design will not be changed by the substitution of the granite for the brick.

### Through Maryland.

At Baltimore, the Martin Luther English Evangelical Lutheran Church congregation will erect a new church. Rev. D. E. Snapp can give particulars.—The Vorwaerts Turn Association will erect a building to cost about \$6000.

—The most important permits issued to date are as follows: To Messrs. Jarvis & Conklin, to erect a seven-story brick and stone building on Lexington Street, between North and Davis Streets; to John Herget, Jr., to erect five two-story brick dwellings; to L. M. Reynolds, to erect three three-story brick dwellings; to Mary G. Otto, to erect a three-story brick dwelling.—The mayor has signed an ordinance to provide for the construction of a bridge over James' Falls, and appropriating \$35,000 for the same.

### Washington, D. C.

Plans are being prepared by Frederick B. Pyle, 1003 F Street, N. W., for five frame cottages which will be erected at Paeonian Springs, Va. They will be two stories high, with shingle roof, and finished handsomely on the interior. The cost of the operation will be about \$10,000. The same architect is preparing plans for a dwelling which will be erected at 1130 Fifteenth Street for Mrs. Dr. Cook. It will be of press brick and Hummelstown brownstone, hardwood interior finish, etc.—A handsome residence will be erected on the ground of Columbia College for Dr. Benjamin Lippincott. The contract for the erection has been given to Emmert & Heisley. The structure will be of press brick and Hummelstown brownstone, with slate roof. The interior will be finished in hard woods, and all modern conveniences will be introduced. The estimated cost is \$10,000.—William Weaver will have a dwelling erected on the Tennallytown Road to cost about \$8000. The contract for the erection has been given to August Gatz.—S. H. Walker will have a dwelling erected at 421 B Street at a cost of \$5000. James L. Parsons is the contractor. Plans are being prepared.—Glenn Brown, 607 Louisiana Avenue, has prepared plans for a number of buildings to be erected at the National Zoological Park. They include six deer houses and a one-story addition to the Carnivora House.—John Miller will erect twenty small dwellings in South Washington at a cost of about \$20,000. The plans have been prepared by Philip N. Dwyer, 508 Sixth Street, S. W.—C. Graham & Son, 600 F Street, N. W., have prepared plans for a number of frame cottages to be erected for Denison & Sands, at Metropolis View. The estimated cost is \$10,800. They will have shingle roofs, handsome interior finish, modern improvements, etc.

**Fall & Winter**  
**1891**

During the present Fall and the coming Winter many of the readers of this journal will require furniture of some kind for their homes.

We have a few earnest words to say to you, as business men, whether you must buy a roomful or a houseful, the spirit of which we respectfully ask you to impart to your wives and daughters, whose tastes and opinions it is always best to consult beforehand.

You, like every other sensible business man, have no money to waste on sentiment. Hard dollars are hard enough earned, and the purchasing power of every dollar is to you, at least, an important factor in your art of buying.

We are ready with the best stock of reliable furniture of all kinds ever brought together under a single roof in this city. It is fresh from the hands of the best makers whose goods are "standard" in every furniture house in this country.

We want your custom when you get ready to buy, and, if after having bought from us, you are not convinced that we have saved you from twenty to thirty per cent. on the prices you must pay elsewhere for furniture of the same character, we will cheerfully call the sale off and return your money.

Do you require, can you obtain, a fairer proposition from any furniture house in this city? We would be greatly pleased to have you visit our stores. All are welcome.

## A Few Quiet Words with House Builders and Owners.

If the kitchen of your house is small, you need to economize room. You can do this by using a range with elevated boiler, such as the

### "FIDELITY."

It will reduce the cost of plumbing also. We make them with seven inch or eight inch boiler holes, ovens on right or left of fire, with or without hot closets, and also to heat an upper room. Splendid bakers. Hot water in abundance. The latest and best of their class.

FIDELITY HOT AIR RANGE WITH HORIZONTAL BOILER.

Excelsior Double Oven Range.

If the kitchen is roomy and large, cooking capacity is sought. You will want a brick-set range with a vertical circulating boiler, set in the usual way. The

### "EXCELSIOR RANGES"

are acknowledged all over Philadelphia, in which city and vicinity some 75,000 have been sold as the standard brick-set range. They are furnished with ventilated ovens, oven-door pedals, rocking grates, and all modern improvements. Made in seven and eight inch sizes; single, double and hot-air ranges. Send for descriptive pamphlet, entitled "PERFECT COOKING."

### Architects Notes.

F. J. Amweg, contractor and architect, has made plans for alteration of 1432 South Penn Square, the site recently purchased by Lawyer John S. McKinlay.

A. W. Dilks, architect, 1001 Chestnut Street, is making plans for alterations and additions to residence of Wm. R. Hart, at Rosemont, Pa. These will be quite extensive when completed, both exterior and interior. All modern conveniences will be introduced.

Yarnall & Goforth, 14 South Broad Street, have been appointed architects for all the work for the Southern Improvement Co., at Warm Springs, Va. This will include considerable of hotel and cottage work, as well as casino and club houses. The plans are now in course of preparation.

Great rivalry is being displayed in the matter of presenting plans for the proposed State of Pennsylvania Building at the World's Fair. The commissioner in charge of the matter says that already about fifty competitive drawings are assured, and all of different ideas and style of architecture, so that no trouble will be experienced in choosing one well adapted to the purpose.

W. P. Lockington, architect, 926 Walnut Street, has under way plans for an ice storage house, 34 x 50 feet, stone clapboard and shingles, to be erected on the Remmey Stock Farm, Md. Also, plans for a fine residence, 42 x 65 feet, three stories high, to be stone, frame and shingle, with open fireplaces, a fine billiard room, large reception hall, finished in white oak, and all modern conveniences introduced—also to be erected in Maryland. Contracts for above will be awarded about November 1st.

W. Bleyden Powell, architect, 423 Walnut Street, is at present engaged on elaborate plans for two large ten-story buildings for the Metropolitan Traction Co., of New York City, where the structures will be erected. These will be the power houses, and one will be erected at Broad and Houston Streets, the other at Fifty-first Street and Seventh Avenue. The first is to contain a 4000 horse-power engine, the latter a 3500 horse-power, and both fitted with the most approved modern appliances for traction work. Material and general details for construction will be decided on at an early day. The owners of these two buildings are the proprietors of the Traction lines of Philadelphia.

Walter Smedley, architect, 435 Chestnut Street, has made plans for an addition to the Delaware County Jail at Media, Pa., which is to be utilized as a women's department. It will be two stories high, stone, brick and iron as material, steam heat and best sanitary plumbing will be introduced. Contract awarded to George C. Hoopes, of Media, Pa. Also, plans for remodeling of house E. G. Reyenthaler, at Cynwyd Station, P. R. R.

These will include interior and exterior work, plumbing, electric work and porches and other outside additions. Also, attached to the same house will be a laundry, coachman's house and stable. Also, a tank tower. Contract let to F. T. Sheldrake, of Bala, near Philadelphia.

Hazelhurst and Huckle, architects, 410 Walnut street, have on hand plans for a stone dwelling to be built near Elm, on main line of the P. R. R. Structure will be three stories high, finished in hard wood on interior, and have electric work throughout, as well as all modern conveniences. It will be erected for Mr. James Sullivan. Also, plans for a fine residence at Easton, Pennsylvania, to be erected on what is known as College Hill for Prof. Adamson Ballard, of Lafayette College. It will be stone and frame, three stories high, and fitted with electric bells and all modern conveniences. Also, plans for a fine three-story house for D. W. Garrigues; a railroad station and dwelling at Whitehall-on-the-Delaware. Also, plans are on boards for a parochial building for the Church of the Messiah, Huntingdon and Edgemont Streets, Rev. Lockwood Fulforth, Rector. It will be of stone and brick, three stories high, fitted with all modern conveniences. A gymnasium, vestry rooms, guild rooms and a library, as well as a Sunday-school room, will be upon first floor; second, a lecture room, with platform, and large seating accommodations will be a feature of the structure. Work will be started about early spring of 1892.

Joseph D. Austin, architect to Board of Education, 713 Filbert Street, has made preliminary drawings for the new Girls' Normal School to be erected at Thirteenth and Spring Garden Streets, and presented them to the members of the Board on the 13th inst. The plans in detail show a fine four-story structure of red stone and mottled Pompeian brick, covering an area of ground 178 x 150 feet, and having a front upon three streets. In addition, a fine basement will be part of the plans for heating system and storage of coal, etc. The first floor will contain the School of Practice. This will be divided into twenty-four small rooms; also, a large lecture hall, which will seat about 1000 persons. The second floor will be laid out in recitation and school rooms and a gymnasium, while the third floor will contain six large class rooms, a library and drawing room, as well as an immense assembly hall, which will seat about 1500 to 1800 persons comfortably. On the fourth floor six class rooms will be placed and rendered available by broad stairways. The exterior of the building will have two large iron stairways as means of exit in case of fire. These will be broad and well prepared for any emergency. Heating and ventilation will be upon the best methods, and the most approved sanitary plumbing introduced. An immense clock tower will rise from the corner of the building, which will contain the machinery of the timepiece now

in use upon the condemned hall. An ordinance will be presented to Councils asking a further appropriation of \$70,000 to erect this much-needed and magnificent addition to the educational facilities of our city.

Edw. K. Mull, architect, 403 Schuylkill Avenue, Reading, Pa., has just completed plans and specifications for the following buildings to be erected in that city, all of which are to be ready for occupancy by April next. A four-story stone and brick cigar factory, to be erected on the southwest corner of Eighth and Oley Streets, for Heere & Koch. The dimensions of the structure will be 40 feet front by 110 feet deep. Each story will be 13 feet in height. On the first floor will be two roomy and well-lighted offices, handsomely finished in oiled hardwood and provided with modern style office furniture. The entire building will be heated with steam. Gas and electric lights will also be placed throughout. Two of the latest improved freight elevators will be introduced; also fire escapes and iron window guards. Estimated cost of building, independent of lot, \$12,000. Five three-story brick dwellings, with stone trimmings and ornamental brick cornices, all to stand on the west side of Ninth Street, south of Robeson. The dimensions of each house will be 16 feet front by 60 feet deep. Steam heat, dumb waiters, skylights, best sanitary plumbing, etc., will be introduced. Charles Auer, baker, is the owner. Three three-story brick residences, with marble trimmings, to be erected on the south side of Buttonwood Street, east of Fourth, for Elijah F. Keever. Each building will have a frontage of 15 feet and a depth of 61 feet. The interior finish will be in oiled hard wood. Each building will be provided with all the latest improved modern conveniences. A three-story press brick store and flat, with Berks county brown stone trimmings and stoops, to occupy a site on the west side of Ninth Street, north of Elm. The structure will be 22 feet front by 80 feet deep, and finished throughout in hard wood. Thomas Pfaffmann is the owner. A handsome three-story residence, with ornamental brick front, to stand on the west side of Fourth Street, north of Chestnut, for James M. Hinkley. Dimensions, 20 x 50 feet. Five three-story brick dwellings, of modern architecture, to occupy ground on the west side of Rose Street, north of Washington, for Isaac Y. Spang. The buildings will have an aggregate frontage of 80 feet and a depth of 60 feet. Each house will be fitted with all improvements in lighting, heating, etc. A two-story brick store and residence, with mansard roof, 20 x 80 feet, to be erected on the southwest corner of Ninth and Robeson Streets, for Charles Auer, baker. Plate glass windows, electric lights, steam heating, hot and cold bath, skylight, dumb waiter, etc. Mr. Mull has also prepared drawings for extensive additions and improvements to be made to St. Peter's M. E. Church, South Fifth Street.

PHILADELPHIA, WED'Y, OCT. 21, 1891.

*For the convenience of members of the Master Builders' Exchange, we have secured Box No. 199 at that place, where any communication for publication may be left.*

WHAT has become of the project of a boulevard to Fairmount Park? If the interest in this matter is allowed to die out, Philadelphia should at once acknowledge that there is no life in her, and that she is a willing victim to dry rot. The city of St. Louis has determined to forge ahead in the matter of fine streets, and is about to establish twenty-three miles of handsome boulevards, varying in width from one hundred to two hundred feet, and ornamented in a manner similar to the celebrated boulevards of Paris. No time has been lost in useless bickering, but the necessary State legislation has been obtained, and arrangements have been made for securing the five or ten million dollars which will be necessary for the work. Thus, while Philadelphia has been getting ready to think about the matter, St. Louis has put the matter into shape, and without doubt her citizens will be enjoying her handsome new boulevards while the sedate citizens of the Quaker City jolt serenely over the cobble stones on their way to the Park.

#### Architect Notes.

F. R. Watson, architect, 518 Walnut Street, has completed all plans in detail for a Roman Catholic church at Girardville, Pa., to be frame and stone, finished on interior in white pine. Also plans have been made for a dwelling for Wm. Horrocks, and another for John Dewees, both of Frankford. Wilson, Milnor & Co. have the contract to erect both. They will be three stories high, Queen Anne style, and fitted with all modern conveniences.

Angus S. Wade, architect, 20 South Broad Street, has prepared plans for alteration to a factory at the southeast corner of Fifth and Spruce Streets, and estimates have been invited upon the work. The property belongs to R. Q.

Harrison & Bro. Home address, 711 South Seventeenth Street. Also prepared plans for alterations and additions to the Kensington Theatre, for John E. Jermon. They will include new staircases, lobby, box office, manager's office, etc.

#### Building and Real Estate Notes.

At Frankford, Philadelphia, a number of dwellings will be erected on the east side of Franklin Street by William B. Allen.

P. E. Costello, of Tacony, will build eight two-story houses on northeast side of Unruh, northwest of Tulip Street, to be of brick, stone facings and modern conveniences.

A committee of the Mercantile Club, Chestnut Street, above Twelfth, has been appointed to select a site for a new club house, and will report to that body at an early day.

Stacey Reeves & Sons, contractors, 1611 Filbert Street, will erect the new Presbyterian church at Bryn Mawr, and which has been noted in full in this journal in a previous issue.

Lewis Havens, contractor, is at work upon the alteration to the old Stock Exchange, being made for Claus Spreckles' Sugar Refining Co., and noted heretofore in this journal.

W. C. McPherson & Sons, contractors, 325 Cherry Street, has been engaged to erect a large boiler house and stack at the Mt. Airy Deaf and Dumb Asylum, and will begin work at once.

The Directors of the German Hospital will turn the sun parlor into a smoking room. This is done upon the recommendation of Sister Wanda Van Ortnen, who has just returned from a trip abroad.

Leonard and Guenther will at once begin the erection of fifteen two-story houses on Emily, east of Front Street. All to be of press brick, stone facings and steps, and all modern conveniences.

Wright & Prentzel, contractors, will erect at an early day fourteen two-story houses on Garfield Street, north of Germantown Avenue. All to be press brick, stone trimmings and best of modern improvements.

W. T. Bailey, builder, Camden, N. J., has started excavations for ten two-story brick dwellings on State Street, east of Sixth, in that city. These to be of brick, stone trimmings and all modern conveniences.

An immense stable is about to be erected by the Atlantic Refining Co. at Point Breeze. The structure will be 64 x 104 feet, and located on Passyunk Avenue, west of Twenty-eighth Street. Estimated cost will be \$15,000.

Alexander Balfour has started upon the erection of a large three-story paper mill on Tioga, east of Richmond Street. The structure will be 200 x 200 feet, and fitted with machinery for the manufacture of paper from wood.

The architect of the Board of Education, J. D. Austin, 713 Filbert Street, has on boards plans for addition to the school house at Wash-

ington and Jefferson Streets, Twenty-first section. It is to be two stories high, and will contain four rooms.

John F. Wolff, 633 North Forty-sixth Street, has received the contract to finish the erection of the Runnymede Club House at Lansdowne, Delaware Co., Pa., and for which W. H. Free made plans. Mr. Philip J. Walsh, of Burmont, is the president of the club.

Wm. R. Dougherty, carpenter, 1604 Sansom Street, has received the contract to erect the three-story school house to be built on Jefferson, west of Forty-second Street. It will be 66 x 131 feet, brick and stone, and school furniture will be placed when completed.

John J. Cassidy, builder, will build at once eleven fine two-story houses on McKean Street, west of Old Second. These will be in keeping with all the rest of Mr. Cassidy's operations in that vicinity—fitted with best modern improvements and exterior of best material.

The Order of the Royal Arcanum in Pennsylvania has under consideration the feasibility of erecting a general hall for meeting purposes in this city. As yet no definite plans have been agreed upon, and no report can be made upon the subject until the next meeting of the grand body in semi-annual session.

The First Moravian Church has just taken title to the site 1619-21-23 Fairmount Avenue, and will at once make arrangements to erect a church in lieu of the one recently disposed of to J. R. Applegate at Franklin and Wood Streets. The lot measures about 54 x 100 feet, rear on Olive Street. As yet no definite plans have been agreed upon.

Christian Brown, carpenter, Twelfth and Melon Streets, has the contract for alteration of and addition to the houses extending from Forty-first to Forty-second, Elm to Girard Avenue, and of which we gave quite an extended architectural note some time ago. The prime mover and one of the principal owners is William Trautwine, real estate operator.

George B. Newton & Co., coal dealers, will at once erect immense coal sheds upon newly acquired property at southeast corner of Thirtieth and Chestnut Streets. These will be 201 feet in length and one-story high, fitted with chutes and machinery for conveyance of coal from cars. This plant, when complete, will be one of the largest in this city.

Chas. McCaul, contractor, 20 North Eleventh Street, has secured the contract to erect the market house proper, which will occupy all the space covered by the excavation and foundation now nearing completion at Twelfth and Filbert Streets. It is expected to finish the structure by February next, after which work will be started upon the main building.

James Wood, builder, 212 North Twenty-third Street, will at once begin an operation of twenty-two three-story houses east side of Seventh, south of York Street, eleven more on north side of Oxford, east of Seventh Street, and twelve on west side of Marshall, near York Street. All to be of press brick, stone facings and modern improvements on interior.

Joseph P. Young, 2136 Sharswood Street, George W. Connell, 1425 Indiana Avenue and H. A. Bleyler, 980 N. Eighth Street, have been appointed a committee of the order of Red Men to consider the plans for erecting a home by that order for indigent and aged members. It is proposed to ask the co-operation of all the tribes in the jurisdiction of this State. Fifteen thousand dollars have been raised, and altogether the matter is considered in good shape and feasible.

The Junior Order American Mechanics, United Order of American Workmen, United American Mechanics, Sons of Veterans and Patriotic Order of Sons of Veterans are again agitating the question of building a temple on Broad Street or adjacent thereto on a principal street. As yet nothing definite in plans or site has been done, but a location on Broad Street seems to be the most desired by a majority of the above-named societies, and an eight or ten story structure reared.

Shoneman Bros., Eighth, above Arch Street, are about to make an addition to their present stores by building an "L"-shaped annex extending through to Cherry Street, thus giving them two fronts upon main streets. The structure will be two stories high and fitted with all the conveniences of their large emporium, with the addition of waiting and toilet rooms on a grand scale. Electric work and steam heat, as well as the money dispatch system, will be introduced. Beck & Conley, 115 North Seventh Street, have the contract for the entire work.

The Temple College, under the patronage of Grace Baptist Church, and of which the Rev. Russell H. Conwell, pastor of the church, is the president, intends, at an early day, to erect a new college on Broad Street, in the vicinity of the pastoral charge. This is to be accomplished by using the \$40,000 acquired from the sale of their old building to the First Church of the Disciples of Christ, and the patronage of a large class of our best citizens who are regular contributors to the college. Some minor improvements will be made to the old college property by the congregation who have just purchased it, so as to make it what it should be as a church structure. No contracts in either case have been let.

# Fall & Winter 1891

During the present Fall and the coming Winter many of the readers of this journal will require furniture of some kind for their homes.

We have a few earnest words to say to you, as business men, whether you must buy a roomful or a houseful, the spirit of which we respectfully ask you to impart to your wives and daughters, whose tastes and opinions it is always best to consult beforehand.

You, like every other sensible business man, have no money to waste on *sentiment*. Hard dollars are hard enough earned, and the purchasing power of every dollar is to you, at least, an important factor in your *art of buying*.

We are ready with the best stock of reliable furniture of all kinds ever brought together under a single roof in this city. It is fresh from the hands of the best makers whose goods are "*standard*" in every furniture house in this country.

We want your custom when you get ready to buy, and, if after having bought from us, you are not convinced that we have saved you from twenty to thirty per cent. on the prices you must pay elsewhere for furniture of the same character, we will cheerfully call the sale off and return your money.

Do you require, can you obtain, a fairer proposition from any furniture house in this city? We would be greatly pleased to have you visit our stores. All are welcome.

## A Few Quiet Words with House Builders and Owners.

If the kitchen of your house is small, you need to economize room. You can do this by using a range with elevated boiler, such as the

### "FIDELITY."

It will reduce the cost of plumbing also. We make them with seven inch or eight inch boiler holes, ovens on right or left of fire, with or without hot closets, and also to heat an upper room. Splendid bakers. Hot water in abundance. The latest and best of their class.

Excelsior Double Oven Range.

If the kitchen is roomy and large, cooking capacity is sought. You will want a brick-set range with a vertical circulating boiler, set in the usual way. The

### "EXCELSIOR RANGES"

are acknowledged all over Philadelphia, in which city and vicinity some 75,000 have been sold as the standard brick-set range. They are furnished with ventilated ovens, oven-door pedals, rocking grates, and all modern improvements. Made in seven and eight inch sizes; single, double and hot-air ranges. Send for descriptive pamphlet, entitled "PERFECT COOKING."

### Architects Notes.

M. B. Bean, architect, Lansdale, Pa., has on boards plans for a Lutheran church to be erected at Lebanon, Pa., and to cost about \$90,000.

Daniel S. Beale, architect, Hale Building, 1328 Chestnut Street, has prepared plans for alteration to an office building 1432 S. Penn Square, the property belonging to John S. McKinley, and work upon the structure will be started at an early day.

J. Franklin Stuckert, architect, 524 Walnut Street, has in course of preparation plans for a stone building for the Hebron Memorial Protestant Church at Twenty-fifth and Thompson Streets. Work upon this structure will not be commenced before the spring of 1892.

C. Hickman, architect, Penn Mutual Building, 925 Chestnut Street, is preparing plans for fitting an office in the above-named building in quartered oak. The upper parts will be in plate glass, bronze and gold casing. The floor will be of marble, interspersed with Mosaic work.

A. C. Wagner, architect and engineer, 514 Walnut Street, has made plans for a four-story brick brewery 38 x 58 feet for Frederick Freil. It will be erected at Fairhill Street and Susquehanna Avenue. The contract has been given to W. Ferklenberg, 1614 Cadwalader Street.

John T. Windrim, architect, 132 South Third Street, is preparing plans for six fine three-story houses to be erected on Poplar, east of Twenty-fifth Street. These will be fitted in good shape, with all modern conveniences. All to be of brick, stone trimmings, etc. They will be erected by the Girard Estate.

Hazelhurst & Huckel, architects, 410 Walnut Street, have on boards plans for a fine country residence for M. S. Knowel, at Shipton, Canada. The structure will be 56 x 64 feet, three-stories high, built of stone, slate roof, interior in hard wood, a large porch to extend upon two sides. All modern conveniences will be introduced.

The opening meeting of the "T Square Club," for the season of 1891-92, was held last week, when these officers were elected for the ensuing year: President, John Stewardson; Vice-President, Frank E. Mead; Secretary, C. Barton Keen; Treasurer, Albert Kelsey; Executive Committee, Frank Miles Day, Wilson Eyre, Frank A. Hays.

Early last spring an exhibition of sketches from nature was held at the Art Club, the drawings first being judged by a committee composed of Stanford White, Kenyon Cox, Charles E. Dana. The drawings were judged in New York, there being such a number as to fill the largest gallery in the National Academy of Design. The judges awarded prizes as follow. Gold medal, best general exhibition, to J. J. Bissegger; silver medal, for best water-color

sketch, to E. Baggs; silver medal, for best pen-and-ink sketch, Frank A. Hays; silver medal, for best pencil or crayon sketch, to Charles Klauder.

Thomas P. Lonsdale, architect, Manhattan Life Building, Fourth and Walnut Streets, having completed all plans for M. E. Church, at Eddystone, Delaware Co., Pa., has placed them on boards for estimate. Structure, one story, stone, slate roof and fitted in good style with church furniture. Seating room will be triangular in shape, and a fine tower will ornament the exterior of the building.

W. L. Plack, architect, 1403 Filbert Street, is now at work upon detailed plans for a building for the Frohsinn Singing Society, of Altoona, Pa., the structure to be of brick, stone, and terra cotta, and first floor will be utilized for library, parlors, smoking room, kitchen, dining room and lavatories. Basement will contain steam heating apparatus and bowling alley. The People's Theatre will be located upon the second and part of the third floors. This will be handsomely decorated, and will seat about 1100 persons, and will also have an individual electric dynamo and engine. And all modern improvements will be introduced. M. H. Mackie, of Altoona, will have the contract to erect the building.

Frank R. Watson, architect, 518 Walnut Street, is at work upon plans for alteration and addition to the residence of Gen. E. Burd Grubb, at Edgewater, N. J. The interior work will be quite elaborate in ornamentation, including wood-work, upholstery and painting as well as electric work. The bridal boudoir will be very handsomely fitted and all other work in keeping therewith. The same architect has been directed to prepare plans for a building for the Northeast Branch of the Young Men's Christian Association. The building will be four stories high, of brick and stone. It will contain assembly rooms, gymnasium, reading rooms, rooms for committee purposes, and each fitted in good style. Electric work and best of sanitary plumbing with steam heat will be added. No contracts let.

Benj. J. Price, architect, Lansdowne, Del. Co., Pa., is at work upon plans for alteration and addition of the old Fahnestock house, at southeast corner of Eighteenth and Arch Streets, for the Women's Christian Association. The structure will be eight-stories high, of brick, with stone trimmings, and made to accommodate about 250 persons, and will be arranged in wings that will afford each room a natural light. The basement will be fitted for kitchen, laundry, servants, trunk and janitors' rooms. Main entrance will be upon Arch Street into an immense corridor hall, off which will be the manager's room, reception room, and three parlors; also an employment office. Second and third floors will be utilized for library, gymnasium, assembly

room, etc. The remaining floors will be fitted with chambers and living rooms, these being fitted with all conveniences, and will be reached by elevator service, two of which will be introduced and a freight lift as well. It is considered probable that a roof garden will be one of the features.

W. H. Decker, architect, room 9, Hale Building, Juniper and Chestnut Streets, has made plans for a six-story building for Joshua R. Jones on the southeast corner of Cherry and Carman Streets, and intended for a manufacturing establishment. Structure to be of brick, with stone trimmings, metal cornice; inside to have all modern conveniences, including electric work, elevator, best of sanitary plumbing, etc. Considerable wrought and cast iron work will be used. Plans are now on boards of contractors for estimates. Contracts not included in the above will be boilers and engines, steam fitting and elevators. Same architect has made plans for alteration of the second floor of the restaurant of Boothby & Kugler, 1231 Chestnut Street. These will principally consist of fine carved wood work, of columns and mantels and hard wood ornamentation of sides of the walls, frescoing and introduction of electric work upon a magnificent scale. Luxurious furniture and upholstery will be part of the designs. Plans have been placed on boards for estimates upon the work.

### Building and Real Estate Notes.

The contract for the erection of the annex to the Schuylkill School building, in the Twenty-first district, has been awarded to H. C. Hayes for \$12,900.

The Managers of the Odd Fellows' Home, Seventeenth and Tioga, have concluded to make an addition to the buildings by erecting an annex, for which plans are now being prepared.

The Atlantic Refining Oil Co. will erect a two-story brick and iron filling house on Schuylkill River Road, near Passyunk Avenue. Size will be 25 x 65 feet, and work will be started at once.

Edward Morrell, 505 Chestnut Street, and others will make application to the Governor on November 11th for a charter for an electric light company to supply light and power in Lower Bensalem.

Armstrong & Printzinger, contractors, will erect a large stable, 60 x 80 feet, two stories high, on Chestnut, east of Thirtieth Street, to be of brick, stone and cement work; also fitted with all conveniences.

C. Bateson, builder, 4631 Lancaster Avenue, will at once begin the erection of ten dwellings on Indiana Avenue, east of Ella Street, to be of press brick, stone trimmings and best modern conveniences on interior.

## Building and Real Estate Notes.

Work upon the Northeastern Elevated Railroad was started at Tacony on the 22d inst. on property purchased by the company from John Glass. It is understood that amicable arrangements in regard to the necessary bond of \$100,000 will be made and the work pushed with vigor.

John J. Cassidy, builder, Moyamensing Avenue and McKean Street, will at once begin the erection of 56 houses on Howard Street, south of Snyder Avenue. Also 23 on Snyder Avenue, near Howard Street. All to be of brick, two story high, and all modern improvements on interior.

The Northeast Branch of the Young Men's Christian Association, Frankford Road, below Norris Street, will erect a frame structure to be used as a gymnasium and for other purposes. It is, however, only temporary, as they intend later on to erect a structure which will cost about \$50,000.

Stacey Reeves & Sons, contractors, 1611 Filbert Street, will at once begin the erection of a fine stable for Dr. Edwin H. Williams, at Rosemont, Delaware Co., Pa. The building will contain all the latest improvements in the way of stabling, and fitted with quarters for coachmen and quite a large stud of horses.

C. R. Kohl & Bros., 45 West Johnson Street, Germantown, are about to erect two fine stone residences on Mt. Airy Avenue, northeast of Sullivan Street, each to be 16 x 52 feet, three stories high and to be built of brown stone. Interiors will have hard wood finish, electric work and all modern conveniences.

It is indicated by the work now in progress at and about North Penn Junction that the depot of the P. R. R. at that place will be shortly re-

moved to a spot near where the former station stood some years since. This is done because of a change of grade in that locality. Also as a convenience to the patrons of the road.

John M. Sharp, owner and builder, 1936 South College Avenue, will at once begin the erection of ten dwelling houses on south side of Como Street, west of Eighth. All to be of press brick, ornamental fronts, and best of modern conveniences on interior. Nine more will be of the same character, and erected west side of Eighth, north of Cambria Street.

Preston J. Moore, proprietor of the Windsor Hotel, on Filbert Street, below Thirteenth, has just taken title to the property on the western side of that property, and, as indicated by this journal some months ago, the newly acquired property will be remodeled and joined to the main structure, as this hostelry has for some time been cramped for room. This will require considerable work and perhaps an entirely new structure.

It is more than likely from present indications that the Property Committee of the Board of Education will recommend the placing of two or more elevators in the new Normal School for Girls, which is to be erected at Thirteenth and Spring Garden Streets, and which has been fully described in last issue of this journal. As the plans stand at present the introduction of elevators is an open question, with opinions most decidedly in their favor.

It is reported that a movement is on foot for the purchase of about 350 acres of land extending from Second Street Pike to Woodside Station and through to Olney. The farms offered are those of Charles Yerkes, Charles Halt, Clark King, Jacob Probert and Mary Ann Shelmire. It is believed that the Swedenborgian Society are the parties wishing to secure the land, as they have purchased the farm of Amos Yerkes and Crosdale King in the same locality. It is further reported that the society will form a colony, and erect a school and church.

The united efforts of the Baptists in this city are likely to culminate in their building at an early day a new hospital. For some time past a building has been used at Broad and Ontario Streets, but from lack of funds it has been closed temporarily, but the work is about to be revived by an effort brought about by Rev. R. H. Conwell, as president, and Dr. William G. Howell, secretary of the new organization. It is understood that a new piece of ground will be purchased, and a building erected which will receive the support of the denomination in general, and be known exclusively as the Baptist Hospital.

At present the status of the Philadelphia Bourse Co. is about as follows: The total amount subscribed to the stock is to date \$262,050, and the organization capital is to be \$112,000. 646 names now appear on the company's books, and the prospects are bright at present for all the money needed to be raised. Before commencing operations the company proposes to increase its capital to \$600,000, and subscriptions are invited from the general business public. Shares are to be \$50 each. No subscription to be due until the

whole amount has been taken, when twenty-five per cent. of the amount will be called for. Subscribers to four shares will be entitled to all the rights and privileges of membership without any further payment therefor and the use of the floor of the entire General Exchange. Nothing definite has been done as to the location, plans or building of the structure.

The Councils' Committee on City Property, in conjunction with the Director of Public Safety, have considered the appropriation to the Bureau of City Property for next year, and agreed to insert the following items: For granite curbing and the improvement of Jefferson Square, \$10,000; for the purchase of the Second Regiment Armory, \$65,000; curbing and improving Passyunk Square, \$10,000; erection of a sub-police station at Chesnut Hill, \$10,000; erection of a bath house in Germantown, \$9000; for a mounted police station in the Thirty-fourth Ward, \$4400; for a mounted police station in the Twenty-fourth Ward, \$5500; for the purchase of a lot and the erection of a police station in the Thirty-first Ward, \$40,000; purchase of a lot and erection of a fire station in the First Ward, \$40,000; purchase of a lot and the erection of a fire station in the Thirtieth Ward, \$22,000; for granite curbing and improved pavement in Fairhill Square, \$9000; purchase of a lot and erection of a truck house in the Nineteenth Ward, \$20,000; purchase of a lot and erection of a patrol station in the Twelfth Police District, \$30,000.

## Through Pennsylvania.

—At Seranton, Lackawanna Co., City Councils has passed an ordinance providing for an increase of the city indebtedness of \$250,000 for the purpose of constructing a number of bridges.

—At Lock Haven, Clinton Co., Dr. George Eadie has purchased a lot on West Main Street, and will erect a handsome residence thereon. Messrs. Lasher & Martin have the contract.

—At Woodbourne, Bucks Co., the large barn belonging to the estate of Caleb N. Taylor was destroyed by fire last week. It was a stone and frame structure and insured in the Langhorne Insurance Co.

—At Erie, Erie Co., the Shaw Piano Co. have let the contract for their new factory to be erected at the corner of Twelfth and Raspberry Streets. It will be of brick, 50 x 80 feet, and three stories high.

—At Mifflintown, Juniata Co., a charter has been granted to a company for the construction of water works to cost about \$30,000. The president of the company is F. R. Gilbert, of Millersburg.

—At Kittanning, Armstrong Co., the plants of the Kittanning Electric Light Co. will be increased by a 1300 T. H. incandescent dynamo, a 150 horse-power engine and a 50-light arc dynamo.

—At Chester, Delaware Co., a new fire company has been formed with W. L. Bagshaw as president and Lewis Ladomus as secretary. A place for an engine house will probably be secured on Walnut Street.

—At Oxford, Chester Co., the school board has decided to procure a room, which will be fitted up for a primary school to relieve the overcrowding in the primary department. A new building may be erected later.

—At Latrobe, Westmoreland Co., it has been decided that the National Reaper and Mower Works will be located. There will be two structures erected of brick and stone,—one, 50 x 250 feet, and the other, 50 x 75 feet.

—At Downingtown, Chester Co., Real Estate Agent Joseph H. Johnson has negotiated the sale of the farm of Benjamin J. Torbert, of Caln township, to a party of Philadelphians. There is a half-mile race track on the property.

—At Williamsport, Lycoming Co., it is said that the Board of Trade is negotiating with the Beech Creek Railroad in regard to locating the

repair shops of the road in Williamsport. This will likely be done if the necessary ground is donated by the city.

—At Darby, Delaware Co., the property of David Swisher, on Main Street, has been purchased by the First National Bank of Darby. The old structure on the property will be removed and the site used upon which to erect a building suitable for banking purposes.

—At North Wales, Montgomery Co., the contract for the erection of the handsome dwelling of Mrs. Smith, wife of the late Magistrate Smith, has been awarded to John Kauffy.—Wilson Friday, baker, has purchased the property of Joseph Craven, and will remodel the same for the purpose of a bakery. A bake house and other outbuildings will be erected.

—At Hummelstown, Dauphin Co., the contract for the erection of the new Lutheran church has been awarded to J. Bordner, of Palmyra, Lebanon Co., Pa., for \$12,368. The structure will be of rock-faced brown stone, 95 x 50 feet, and handsomely finished on the interior. The ground has been staked off by J. T. Reemsburg, and work will be begun as soon as possible.

—At Chester, Delaware Co., three store buildings will be erected by Contractor William Proost, Jr., for General Beale. They will be located on Edgmont Avenue.—It is said that the property of the McGinnis Hotel, at Edgmont Avenue and Third Street, has been sold to Philadelphia parties, who will demolish the present building and erect a handsome new structure for hotel purposes.

—At Pottstown, Montgomery Co., a proposition has been received by the Board of Trade from the March-Brownback Stove Co., of Linfield, Pa., to move its works to Pottstown, provided the citizens take a certain amount of stock. The proposition was accepted by the Board of Trade. The property on Queen and Penn Streets near the Reading Railroad, will be purchased for the new plant.

—At Merion, Montgomery Co., the Merion Cricket Club is negotiating for more extensive grounds at Haverford College. The grounds under consideration contain twelve acres and fronts on Montgomery Avenue, and but a short distance from the railway station. It is desired to raise about \$150,000 for the purpose, which will enable the club to purchase the property and to convert it into a country club suitable for the purposes of the organization.

—At Erie, Erie Co., a large brick building will be erected by J. Y. Boyd, on W. Sixth Street, at a cost of about \$20,000. It will have wood mantels, tiling, slate roof, electric lighting and all modern improvements.—A handsome residence will be erected by Frederic Koeler, at a cost of about \$30,000. It will be handsomely finished on the interior, and contain all modern improvements.—The contract for the erection of the wood working department of the Shaw Piano Co. has been awarded to Henry Shenk. It will be 50 x 100 feet, of brick and frame, and will contain boiler and engine, wood working machinery; also, elevator.

—At Williamsport, Lycoming Co., the congregation of the First Baptist Church will erect a chapel at Edwin and Elmira Streets, to cost about \$20,000. Work will not begin on the structure until spring. The chapel will serve the needs of the congregation for a short time, and will then be used for Sunday-school purposes as soon as a proposed new church is erected. The two buildings will then be united. The plans for the chapel have been drawn by Culver & Hudson, Troxel Building, and call for a handsome structure. The church proper when done will be one of the finest structures of the kind in the city. The plans for it have not yet been drawn.

—At Pittsburg Herman Bros. have begun work on the three-story brick addition to the Twenty-sixth Ward school house, on Sarah Street. The estimated cost is about \$11,000.—Philip Eichbaum will erect a two-story frame dwelling, to contain all modern improvements, on Shady Avenue, at a cost of \$6000. John Mosser, builder.—Mrs. Sarah Watkins will erect a three-story brick dwelling, to cost about \$5000. D. W. Greves, builder.—W. J. McMaster has begun work on a brick addition to the business house of the estate of Alex. King. The cost will be \$11,000.—The Liquid Carbonic Acid Manufacturing Co. will erect a two-story brick factory, 30 x 150 feet, at a cost of \$10,000. T. D. Shaltenberg is the contractor.—Reed B. Coyle & Co. have sold for Samuel Watson, in Watson Place, Tenth Ward, Allegheny, a lot, 50 x 150 feet, on which the purchaser will erect a handsome dwelling.

### Through New Jersey.

At Trenton a bridge will be constructed at Lambertson street by the Pennsylvania Railroad.

At Montclair, Essex Co., a public school will be erected at a cost of \$45,000. The School Board can give information.

At Carteret, Middlesex Co., C. J. Canda can give information regarding the establishment of a new industry in the shape of a car shop.

At Sandy Hill (not a P. O. Town), at the election in March next the subject of a system of sewerage will be settled by vote. Engineer Baermann will prepare plans for the proposed improvement.

# Fall & Winter 1891

During the present Fall and the coming Winter many of the readers of this journal will require furniture of some kind for their homes.

We have a few earnest words to say to you, as business men, whether you must buy a roomful or a houseful, the spirit of which we respectfully ask you to impart to your wives and daughters, whose tastes and opinions it is always best to consult beforehand.

You, like every other sensible business man, have no money to waste on *sentiment*. Hard dollars are hard enough earned, and the purchasing power of every dollar is to you, at least, an important factor in your *art of buying*.

We are ready with the best stock of reliable furniture of all kinds ever brought together under a single roof in this city. It is fresh from the hands of the best makers whose goods are "*standard*" in every furniture house in this country.

We want your custom when you get ready to buy, and, if after having bought from us, you are not convinced that we have saved you from twenty to thirty per cent. on the prices you must pay elsewhere for furniture of the same character, we will cheerfully call the sale off and return your money.

Do you require, can you obtain, a fairer proposition from any furniture house in this city? We would be greatly pleased to have you visit our stores. All are welcome.

CHAS. WEINMANN & CO.,

1022 and 1024 Market Street,  
Philadelphia.

## A Few Quiet Words with House Builders and Owners.

If the kitchen of your house is small, you need to economize room. You can do this by using a range with elevated boiler, such as the

### "FIDELITY."

It will reduce the cost of plumbing also. We make them with seven inch or eight inch boiler holes, ovens on right or left of fire, with or without hot closets, and also to heat an upper room. Splendid bakers. Hot water in abundance. The latest and best of their class.

FIDELITY HOT AIR RANGE WITH HORIZONTAL BOILER.

Excelsior Double Oven Range.

If the kitchen is roomy and large, cooking capacity is sought. You will want a brick-set range with a vertical circulating boiler, set in the usual way. The

### "EXCELSIOR RANGES"

are acknowledged all over Philadelphia, in which city and vicinity some 75,000 have been sold as the standard brick-set range. They are furnished with ventilated ovens, oven-door pedals, rocking grates, and all modern improvements. Made in seven and eight inch sizes; single, double and hot-air ranges. Send for descriptive pamphlet, entitled "PERFECT COOKING."

MANUFACTURED BY

**ISAAC A. SHEPPARD & CO.,**

N. E. COR. FOURTH STREET AND MONTGOMERY AVENUE, PHILADELPHIA, PA.

And for Sale by all Responsible Dealers.

Whether large or small, your house will require a heating apparatus of some kind. It will pay you to put in a *really good* hot air furnace. The

### "PARAGON"

has no superior. Perfectly self-cleaning, with fewest joints, free from dust and gas, largest radiating surface, heavy steel plate, drum casings, easy on fuel, and of superior durability, it will always give satisfaction. A descriptive circular will be mailed upon application.

PARAGON FURNACE WITH EQUALIZED DRAFT.

## ARE YOU A BUILDER?

DON'T you know that Merchandise bought out of first hands insures the lowest possible prices? We are the largest Clothing Manufacturers in America. We devote ONE HUNDRED and THIRTY THOUSAND Square feet of Floor surface to the making and selling Good Philadelphia Made Clothing. Our entire skill, energy and will power, is devoted to Clothing. That's why we sell Clothing Thirty per cent. under others. Can you afford to pay others more?

## ANY CLEVER MAN

Who keeps his weather eye open for chances, and who possesses energy enough to read the weekly pointers in this journal as to who must buy the goods he deals in, can reap a rich harvest of profit, provided, of course, that he is neither too lazy nor too fat to see the man who is looking with keen eyes for the best things that enter into construction work.

COME, BROTHER; you have borrowed your neighbor's paper too often and too long already. BE A MAN and send us the Five Dollars you already owe us and we will send you a subscription for one year.

# BLACK FRIDAY

**IF** ALL DAYS will never be erased from the memory of man. You who were in active business life twenty-three years ago cannot now recall the disastrous events which rapidly followed as a sequence of that memorable day without feeling a return of that creeping, shivery dread of uncertainty and impending ruin that seized upon every business man all over this fair land.

To depict the scenes of wild desperation that were enacted on the floor of the New York Gold Board on Black Friday baffles the pen of description. Wild beasts caged within a burning building, while licked to death by the tongues of relentless flames, were never driven to greater frenzy than were the men who participated in that pandemonium of ruin—men who had left their homes but an hour before full of pride and hope and courage. Aye, even with the lingering breath of infants' kisses upon their lips—driven stark, staring mad through the fall in the price of gold. Gold had fallen! Babylon let loose, and the cowardly demon of avarice had seized upon the souls of men. The streets were packed with a howling mob; brokers and speculators, with stained, bloodshot eyes, intently watching the dial which marked the fluctuations of the accursed gold as every point in decreased value acting upon thousands of frenzied men as a heartthrob to an ebbing life.

The most graphic word pictures drawn by eloquent divines, depicting the scenes of the gambling hells of Christendom pale before the realities witnessed on that day; for instead of the shrinking forms of men addicted to every vice, in place of those reeking with lust and crimes, these madmen of Black Friday were honest husbands and fathers, educated, cultured men gone crazy through their greed for gold. Screaming like demons, gesticulating wildly, with muscles swollen and faces bloated with excitement, foaming saliva dripping from their mouths like hunted dogs or famished wolves, they yelled for more and more in their frantic efforts to keep up the price of gold.

Millions were wiped away in a single hour, values fell, banks and financial institutions of all kinds failed or suspended. The thousands of that morning shrunk into hundreds before the midday sun, and at the close of the day single dimes could have purchased the hundreds. It was said that Jay Gould and Jim Fisk, Jr., aided and abetted by the Treasurer of the United States, did it all.

**1891** may see no Black Friday, but prices of Furniture must fall. The demoralizing influences of some dreaded evil are even now restraining the people. To make them buy, a heartless sacrifice must be made. Mercy! Mercy! Mercy! Our competitors cry in vain. We have driven the knife to the hilt. We are in great need of gold. The people must yield their glittering gold, for we are greatly overstocked, and we have commenced the most merciless sacrifice of the Finest Furniture the world has ever witnessed.

A veritable Black Friday Sale, with all its attending evils to us, while you who have the ready cash will surely reap the reward of your courage if you buy now.

## THE PEOPLE OF THE UNITED STATES MAY THANK HEAVEN

That this year will witness no repetition of the awful scenes and fearful alarms of that memorable "Black Friday." But in other respects there will be similarities.

## THE PRICE OF FURNITURE HAS TOPPLED AND FALLEN

The scenes of excitement in the "Gold Room" on Black Friday are re-enacted in our salesrooms. We are fearfully and frightfully overstocked with Furniture of all kinds. To intensify matters **WE ARE SORELY IN NEED OF GOLD.** To raise it, and raise it quickly, we have mowed down the price of every article in our store so low that it is virtually giving it away. For years to come this barbarous butchery of prices and values, this marvelous and merciless massacre of Furniture, will be known in the history of Philadelphia as

## Weinmann's Black Friday Sale

We have marked down every article in our store. This great "Black Friday" sale commences again to-morrow morning at 8 o'clock and will continue until every dollar's worth of this season's goods are swept from our floors. This will be an opportunity to get two, three and even four dollars' worth of Furniture for one in cash.

Of course we cannot give you a list of our Cut Prices on this page. Neither can we submit our Furniture to you in your offices and business places for examination. But we earnestly ask you to inspect our stock before you buy, as each article is sold entirely on its merits, make and quality being guaranteed.

*For the convenience of members of the Master Builders' Exchange, we have secured Box No. 199 at that place, where any communication for publication may be left.*

It is a pleasure to report that Minerva Parker, architect, 14 South Broad Street, Phila., continues busy preparing plans for an ever-increasing clientage, among whom are many women who reason justly that in drawing plans for homes a woman best understands a woman's needs in the way of home comforts and conveniences. While Miss Parker makes the planning of beautiful homes a specialty, those of a more public character have not been neglected. Among these are the plans for the Isabella Pavilion at the World's Fair, Chicago, and the new Century Club House, now building in Philadelphia.

BUILDERS' GUIDE.

6087 New Buildings erected and in course of erection at an estimated cost of \$22,063,610, exclusive of the cost of the ground.

2032 Alterations and Additions costing \$3,048,000.

A falling off from last year of 3203 new buildings, representing a decrease in expenditure of \$8,815,700.

285 Alterations and Additions in excess of last year, representing an increase in expenditure of \$427,500.

Grand Total for Expenditures, \$25,111,610.

Comparative Tables for the same months of 1887, '88, '89, '90, and '91.

In reviewing the operations of the present year in order that a proper and impartial estimate may be formed of both the work accomplished and its influence upon the future, great weight must be placed upon collateral influences.

To ignore these collateral influences, such as

money, labor, the cost of material, and, last, although by no means the least, the tone and temper of trade as well as the manufacturing interests, is to prejudge the case without reason and to arrive at conclusions unjustly founded.

What builders and capitalists desire most to know is *when to stop*. Conclusions in this respect are not easily mastered. To make real estate a drug in the market, the ability of the people to pay fair rentals must first be curtailed. This means, of course, a scarcity of employment as well as a stagnation in business and manufacturing; and it makes but little difference as to the character of the structures involved, for what affects the man affects the master as well.

As an article of merchandise, or, rather, as a product of a vast manufacturing enterprise, houses express a permanency wherein the element of consumption scarcely enters. In fact, it does not enter at all except through the ravages of time or fire. Hence it follows that the limit is one of demand, and the demand is a simple question of ability and necessity.

When the reader fully comprehends that during the last five years, or, rather, from January 1, 1887, up to the present time there have been erected in Philadelphia alone 41,519 new buildings of all kinds, representing an expenditure of \$138,748,531, of which number not less than 37,807 buildings were intended in whole or in part for dwelling purposes, he can better appreciate the difficulties presented in what at first seems to be a very simple question.

Of course the rigid rules laid down and the earnest care exercised by those who had money to loan for new operations had much to do with the shortage of the present year; but this can be justly regarded as a healthful influence than otherwise. In fact, it has been advanced by many that the liberality and recklessness of lenders are largely responsible for the large number of small houses poorly constructed which nobody seems to want for investment. In fact, it has been openly stated that in many instances the builders of many of these rattle-trap operations based their measure of profit more upon the difference between the money borrowed and the cost of construction than upon any actual profit to be derived from sales. In fact, having no money interest, either in the land or the houses, they practically abandoned both as soon as possible, either to the sheriff or the devil. While this influence can be justly held as being largely responsible for what seems a superabundance of empty new houses, it also at least justifies the discounting of the question without an actual count and an investigation being possible. The legitimate and careful builder seems to have no just reason for complaint; for, while he may have built less and sold less, he has, as a rule, kept his business well in hand and, in the whole, comes out with a profitable showing and is free from embarrassments.

We believe that more attention in future will be given to the modernizing of old houses. In fact, the owners of these must do something in self-defense, as their indifference is becoming a costly luxury to

them. These improvements will, we think, play an important part in our building interests in the early future.

In referring to our figures we first desire to publicly thank Mr. William J. Gillingham, President of the Board of Building Inspectors, for his many courtesies in assisting us to arrive at correct data.

Our record tells us that there have been erected during the season 6087 new buildings of all kinds, a falling off from last year of 3203. The money expended in new buildings this year amounts to \$22,063,610, a falling off from last year of \$8,815,700. Alterations and additions show a large increase, justifying our predictions that more attention would be given to the renovation of old dwellings, the figures being 2032 against 1747 for last year, the cost for this year being \$3,048,000 against \$2,620,500 for the same months of last year.

The peculiarity of the year thus far, as shown by our reports, is the shrinkage along the whole line; for only in three instances—office buildings over two stories, 1; churches, 3, and stables, 42—have the number of any single kind of buildings exceeded those erected during the same months of last year. The shortage is as follows: Two-story dwellings, 2554; three-story, 562; four-story, 10; office buildings, 29; warehouses, 6; dye and dry houses, 1; factories, 16; engine and boiler houses, 3; breweries and bottling houses, 4; foundries and shops, 39; stores, 13. Thus it will be seen that the industrial interests bear no inconsiderable part of the shrinkage.

In new dwellings this year the Twenty-eighth Ward heads the list with 825 two-story and 216 three-story. The falling off in this ward from last year is enormous, the figures showing a shortage of 390 two-story and 256 three-story houses. The First Ward, however, does better in its backward march in two-story dwellings, the shortage being 694 two-story and 5 three-story houses.

West Philadelphia, with 222 two-story and 112 three-story short in the Twenty-fourth Ward, 191 two-story and 45 three-story in the Twenty-seventh Ward, and 95 two-story and 12 three-story in the new Thirty-fourth Ward, a total shortage of 408 two-story houses and 169 three-story, representing a total shortage of 577, certainly establishes the fact that the influences against building for the present year are expressed with equal force over the whole city.

The Twenty-sixth Ward, with 509 two-story, a shortage of 170, and 81 three-story, a shortage of 67, also shows remarkable shrinkage, while the Twenty-ninth surpasses its efforts of last year with a gain of 69 two-story and a further gain of 107 new three-story dwellings.

The Thirty-third Ward with 646 new two-story houses this year against 833 last year and 63 three-story houses against 52 last year, shows a loss of 187 of the former and a gain of 11 of the latter.

It will be seen that four-story dwellings are only 12 in number, costing \$240,000 (the actual cost), or an average of \$20,000 each as against 22 for the same months of last year, costing \$390,000.

The Betz Building, for which Mr. Allen B. Rorke is the contractor, swells the cost of office buildings over two story this year to \$1,390,000, the cost of the Betz Building alone being placed at \$1,000,000. The building for the Iron Hall, on Broad Street, to cost \$250,000; one at \$55,000, another at \$35,000, and two at \$25,000 each.

It will be seen by our tables of conveyances of real estate that there have been since January 1st 11,878 transfers, amounting to \$61,465,358.49, while last year for the same months there were 12,769 transfers, amounting to \$65,202,736.39. Consequently there has been a falling off from last year of 891 transfers, representing a money value or shortage from last year of \$3,737,377.90, or about five and

seven-tenths per cent. There is certainly nothing alarming in this proposition, inasmuch as by comparison we find that for the first ten months of last year the figures showed a falling off from the same ten months of 1889 of 595 conveyances, representing a money value of \$1,208,010.23, or a trifle more than one and eight-tenths per cent. The mortgage incumbrance on the property conveyed this year amounts to \$14,293,445.34, or about twenty-three and two-tenths per cent. This is a slight increase in the percentage of mortgage incumbrance, as last year for the same months the percentage was twenty-one and three-tenths.

The ground rent incumbrance on the property conveyed this year amounts to \$424,982.04, which on a six per cent. basis represents a principal of \$7,083,034.

Sales of real estate by auction show considerable falling off, notwithstanding the large increase in the business of Messrs. Davis & Harvey over that of last year. We mention this firm owing to its decided innovation in favor of those having real estate for sale, as by its method properties are weekly offered at auction without any cost whatever. We emphasize this statement because we recognize its importance to the real estate business, as the great publicity given to properties placed in the hands of Davis & Harvey frequently leads to an early buyer without the necessity for offering it at auction at all. Thus it can be seen that there can be no better method for getting buyers and sellers together.

We show that there has been sold during the year at auction real estate amounting to \$2,998,518.83, or just \$1,052,156.50 less than for the same months last year. This certainly does not confirm the statement that builders have been anxious to unload and were throwing their houses into the auction rooms.

The mortgage incumbrance on the real estate sold under the hammer this year amounts to \$161,397.28, or about five and four-tenths per cent. The ground rents of \$5,101.07 represent at six per cent. a further incumbrance of \$85,017.83.

In concluding our resume we must admit that there is no reasonable justification for the assertion that things in general are going to the everlasting bow-wows; but better times in real estate circles cannot be realized until at least the influences which create a healthy demand for houses, or, in other words, increase the buying and renting ability of our people improve. Manufacturing at present is far from booming and there are many men idle. The present influx of gold, of course, eases the mind as to any money stringency, but it must not be forgotten that many months must elapse before this money can be disseminated through the channels of trade and into the pockets of the people.

The seventy-nine miscellaneous buildings include the Foster Home, \$60,000; Hygiene Buildings at University of Pennsylvania, \$75,000; Nurses' Home, \$20,000; eleven chapels, \$95,500; police and patrol stations, \$173,000; Empire Theatre, \$75,000; seven halls, \$75,000; three seminaries, \$35,000, \$40,000 and \$8000 respectively; Metropole Hotel, \$75,000; new Century Club House, \$50,000; St. Michael's Parish Building, \$75,000; Holy Trinity Parish Building, \$75,000; parish school, \$10,000; Cleveland Apartment House, \$150,000; Germantown Y. M. C. A. Building, \$65,000; Hotel Seven Presidents, \$35,000; packing house, \$20,000; market house, \$25,000; institute building, \$20,000; freight shed, \$10,000; depot and stables, \$30,000; printing house, \$55,000; hospital, \$40,000; abattoir, \$170,000; railroad shed, Reading Road, \$350,000; car shops and stable, \$50,000; prison ward, \$85,000; two electric plants, \$50,000 each; Colonial Apartment House, \$75,000, and a few other miscellaneous buildings of minor importance.
